Rear Door Glass, Crew Cab	76
Seat Reupholstery Kits, Plaid	93
Stationary Glass, Crew Cab	76
Tail Light Bezel, Chrome, Stepside	218

Things that Can and Cannot Be Controlled: Raccoons and Tariffs

The raccoons are not high on my list. If you have one as a pet, I apologize now, but I have several families of them living on my farm. You can come and get them if you want. I think I am good at sharing, but raccoons don't share. Every year they get into the cantaloupe, and don't just eat one or two whole ones. No, they take a bite out of every one of them! And don't get me started about the sweet corn. They just rip everything down and eat it. Last year they even ate the Indian corn and popcorn. I have an ongoing war with them and have found out neither a broom

nor a .22 does any good, nor does a good woven wire fence with boards on the top and bottom. They just climb right over it, and they have no fear of me. So, this year I am going with an electric fence. No, it won't kill them, but they will think twice about trying to get into the garden this year.

Tariffs. Well, that changes as the wind blows. This one is making me a little crazy. There is nothing I can do to control that crazy. One day you have them, the next day you don't. Every day there is a new adventure. I just wish someone would stop and think about how this is affecting the everyday normal people. We get letters from domestic vendors every day saying they are going to raise their prices because of the tariffs. I do understand, but I like to think we are all in this together. Maybe wait until the existing inventory without tariffs gets used up before raising prices?

This constant change in tariffs makes it hard for a business to react. We lost a lot of small businesses during COVID because of the container costs (they went up 20k to 25k and more a container). That, coupled with the first 25% tariffs on bumpers and a few other parts, was too much and a lot of smaller businesses sold or just closed. Now everything is at 27.5% to 37.5% which means we pay \$127 or \$137 or more for every \$100 we bring in. We won't pass all of that on, but as we bring product in, we will have to raise our prices to cover some of it. I wish I had better or more fun things to talk about, but this seems to occupy most of my time right now. We will lose more small to midsize businesses, which isn't good. I would hate to see this industry controlled by publicly traded businesses who only see it as a profit center and not for the love of the old trucks and cars.

I wonder if I could put up an electric fence around the tariffs? Let someone touch it a couple of times, maybe get a good jolt, and think about what they are doing. Or maybe they just don't care?

Becky

PART	ILL#	DESCRIPTION	APPLICATION	REQD	PRICE
38-9857	(1)	CHROME BUMPER PREMIUM	"A" CHEVY GMC 73-80	(1)	\$285.95*

Part Number You Order _____

-T After a part number means that part must be shipped Truck Freight. An additional \$150.00 will be charged to your order for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted. Additional delivery time required.

-R Remanufactured Part - No core charge.

Color Suffixes

- BG** Burgundy
- BL** Black
- DB** Dark Brown
- LL** Blue
- GR** Gray
- LG** Light Gray
- RD** Red
- SD** Saddle
- TN** Tan

Illustration Reference Number _____

Product illustrations are for representation purposes only. Products supplied may vary from illustrations.

Description Of Part _____

Special Note About Part _____

On the description line of part you see "A", this means there is a special note about this particular part. At the bottom of the section the part appears on you will find a shadow box that will describe to you what the special note for this part is.

Application _____

Model and year this part fits, i.e. Chevy GMC 1973-80.

Throughout this catalog, the application line of the part number describes which model of GM Truck that particular part will fit. The models this catalog covers are 1973-87 2WD, 4WD, 1/2 ton and 3/4 ton trucks and 1973-89 2WD 3/4 ton Crew Cab and 1973-91 1 ton Crew Cab truck models. Because not everyone can identify their truck by these model descriptions, here is an example of what each letter and number that appears on the description line stands for:

- | | | | |
|-----------|---------------------------|----------|-------------------|
| CHEVY GMC | = Chevrolet Truck, | 1/2T | = 1/2 Ton Trucks |
| | GMC Truck | 3/4T | = 3/4 Ton Trucks |
| 2WD | = Two Wheel Drive Trucks | 1T | = 1 Ton Trucks |
| 4WD | = Four Wheel Drive Trucks | CREW CAB | = Crew Cab Models |

The easiest way to tell if your truck is a 1/2 ton or 3/4 ton truck is to look at the bolt patterns on your wheels. Trucks with five or six bolt patterns are 1/2 ton, trucks with eight bolt patterns are 3/4 and 1 tons.

Chassis ID numbers are found in the body and dashboard sections. Chassis numbers will also be found in the heating, brake, electrical and other areas where change points were needed. For Chassis ID Numbers See Page 9.

Engine ID numbers are normally found in the engine section; however, they may also be used in other areas of the catalog. For Engine ID Numbers See Page 10-11.

Required Quantity _____

Quantity required to purchase for one (1) truck, i.e. one (1) Chrome Bumper Premium is required for one truck.

Sell Price _____

Sell price you pay for one part. All items in this catalog are priced each. "Kit" and "set" normally do one (1) truck; read "REQD" column to be sure.

Oversize Part Charge Applies _____

* Or ** after the sell price means your order will incur an Oversize Part Charge for each oversized part. * Means extra charge will be \$20. ** Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

If You Can't Find the Part You Need in this Catalog, Here's What You Should Do:

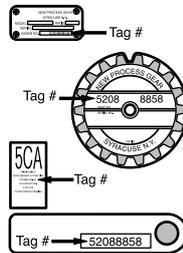

- Check local **SALVAGE YARDS**. Even if they do not have a truck like yours on hand, most salvage yards have access to a communication network which connects them to other salvage yards in your region of the country. Don't hesitate to ask them if you may use it.
- Check local **BODY SHOPS** and **GARAGES** for parts accumulations they may have built up over the years. You might get lucky!
- Check local **WELDING** and **MACHINE SHOPS** to see if they might be able to **MAKE** the part you need.

LMC TRUCK is in no way affiliated with the General Motors Corporation nor do we intend to imply that. The names General Motors and Chevrolet are used for reference only.

Applications listed in this catalog are based on original factory information. However, variances will occur due to non-documented substitutions, and changes made during the vehicle's production.

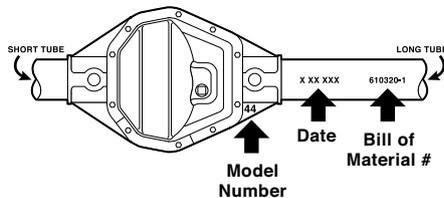

Transfer Case Identification

All Transfer Cases have an assembly tag attached to their case. The tag may be a bolted, riveted or screwed on metal tag, or a stick-on paper tag. The Transfer Case must be identified by the assembly number listed on the tag. See illustration.

**How to ID a DANA-SPICER Axle**

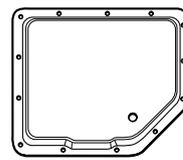

All Spicer axles are identified with a manufacturing date and Bill of Material Number stamped on the right or left hand tube. The axle model number will be cast into one of the webs as shown or it can be on the nose.

The Bill of Material Number will always contain six digits followed by a dash number. Bill of Material Numbers are listed where necessary for axle identification. When a Bill of Material Number is listed, it means the item will only fit axles stamped with that Bill of Material Number, e.g. 610320-1.

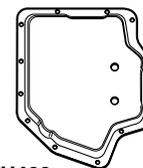

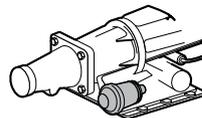

**How to Identify Your Transmission**

TH350, TH400 and TH700R4 Transmissions can be identified by the location or absence of the Modulator, and by the shape of the transmission pan.

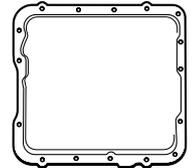

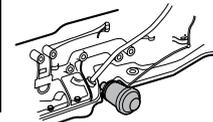

- TH350 - Modulator is located at the back of the transmission case.
- TH400 - Modulator is located on the side of the transmission case.
- TH700R4 - Has no modulator.

TH350
Modulator Location

TH400
Modulator Location

TH700R4
Square Pan with
16 Bolts
No Modulator

Abbreviations To help make your ordering easier, here is a list of abbreviations used throughout this catalog.

UPR	Upper
VAC	Vacuum
W.W/O	With or Without
W/	With
W/O	Without
WB	Wheelbase
WHL	Wheel

1973-80 Vehicle ID Number (VIN)

All 1973-80 trucks have a portion of the VIN number stamped on the engine and the transmission. This identification number consists of the division number, model year, assembly plant and the vehicle assembly sequence number. The VIN Identification and Rating Plate is located attached to the left hand door pillar.

The easiest way to tell if your truck is a 1/2 ton or 3/4 ton truck is to look at the bolt patterns on your wheels. Trucks with five or six bolt patterns are 1/2 ton, trucks with eight bolt patterns are 3/4 and 1 ton.

Shortbed/Longbed Identification
 Shortbed 78" Longbed 98"

The 6 cylinder engine numbers are stamped on a pad on the right hand side of the engine at the rear of the distributor. The V8 engine numbers are stamped on a pad immediately forward of the right hand cylinder head.

1973-91 Truck History

- 1973** Introduced 2 speed electric windshield wiper motor. Wiper arms are partially concealed by the hood and metal portion of blades have a matte black finish. Introduced power flow through ventilation, air enters the truck through louvers at rear of hood panel. Pivot type vent in each door. Curved door windows. Bright metal drip molding over side doors.
- 1973-78** Woodgrain panel option which was approximately 10" wide through center of truck.
- 1973-80** Plain aluminum tailgate panel used with Chevrolet embossed in center of panel.
- 1973-89** Offered a crew cab on the 2WD 3/4 ton model 4 door with 8 foot box and rear seats.
- 1975-80** Vinyl adhesive molding. Standard clip on aluminum molding also used. Brushed aluminum or plain aluminum tailgate trim panel. Separate emblem attached to the lower right side of brushed aluminum back panel.
- 1976-80** Chevy Big 10 and GMC Heavy Half were 2WD 1/2 ton trucks with heavy-duty option package (F44). Available as a Fleetside or a Stepside, they featured heavy-duty brakes and suspension.
- 1976-89** Offered a bonus cab on the 2WD 3/4 ton and 1 ton model 4 door model without rear seats.
- 1977** 1 Ton 4WD available.
- 1978** A Rolling Model Change (RMC) Trim label was released by GM Engineering Department which advises a rolling change of 1979 trim installed on the 1978 model year.
- 1978-81** 2WD 1/2 ton series had a 350 Diesel engine available designed for transportation only, load could not be put on the engine by towing.
- 1979** A RMC Trim label was released by GM Engineering Department which advises a rolling change of 1980 trim installed on the 1979 model year.
- 1980** Official introduction of the square headlight with chrome grille. Round headlight used on painted grille. Last year for GM to use custom VIN number.
- 1981** Hood and front fenders were restyled for improved aerodynamics. Trucks lost up to 300 pounds through lighter glass, bumpers and body parts. On 4WD models, front quad shocks and automatic front locking hubs that worked at speeds up to 20 mph were available. Electronic Spark Control was introduced on the 5.0L engine.
- 1982** Cheyenne trim level was dropped. 6.2L 379ci diesel was available.
- 1983** Parking lights moved from front bumper to the grille. The horizontal center bar on the grille was painted body color.
- 1984** Parking brake system was improved. New cruise control allowed 1 mph increase and decrease.
- 1985** Vortec 4.3L 262ci V6 became standard engine, replacing the 4.1L 250ci inline 6. Clutch operation changed to hydraulic.
- 1986** Trucks featured minor styling changes and mechanical improvements, but were virtually unchanged from previous year.
- 1987** All engines were available with throttle body electronic fuel injection, allowing better fuel economy, reduced emissions and more power. Electric fuel pump was mounted in the fuel tank. 4.8L 292ci was dropped.
- 1988** New fixed antenna and trip odometer were added to crew and bonus cab.
- 1989** Last year for 2WD 3/4 ton crew cab and bonus cab; still available as 1 ton model.
- 1991** Last year for 1 ton crew cab in this body style.

Steel Body Panels and What to Expect

All sheet metal is inspected before it is shipped and careful steps are taken to package parts so there is no damage during shipping. Due to the nature of the product, sheet metal is easily damaged and scratches, dents, dings and other imperfections are normal and not considered damaged. These kinds of imperfections should be expected and can be easily fixed during installation and the paint preparation, sanding and priming stages of your restoration. It is recommended you inspect all sheet metal that is delivered before the delivery driver leaves. Test fitting of all panels before installation is recommended and the use of alignment shims and other adjustments during the install may be required.

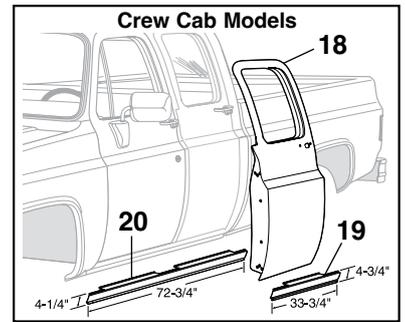

1973-91 Front Steel Body Parts

Premium Body Parts are produced using 18-gauge, OE quality steel as original for strength and durability to outperform current collision damage quality body parts. Professional EDP (Electro Deposit Primer) coating offers a smooth surface ready for prep and paint.

1973-80 Hood Brace Kit

This Hood Brace Kit helps prevent kinks in hoods that were common on the 1973-80 pickups and crewcabs. Kit includes two braces and self-tapping screws for installation. Call or go online and order yours today. Silicone Sealant is recommended for installing the Hood Brace Kit to keep water out and prevent rust from forming.

1973-91 Cowl Induction Steel Hoods ... Give Your Truck a High Performance Look

Standard Cab & Crew Cab

Cowl Induction Steel Hood helps cool the engine for increased airflow and increased performance. The outside cold fresh air carries a denser air/fuel mixture to an engine's combustion chambers than the warm underhood air. Hoods are made from primed high-quality steel with full inner frame that reuses original factory latch and hinges for an easy bolt-on application and must be painted.

Hood Lift System

Hood Lift Systems replace those unsightly hood springs or prop-rods with modern gas struts made specifically for your truck. Each system features black e-coated struts and black powder-coated hardware. They are backed by a 4-year warranty.

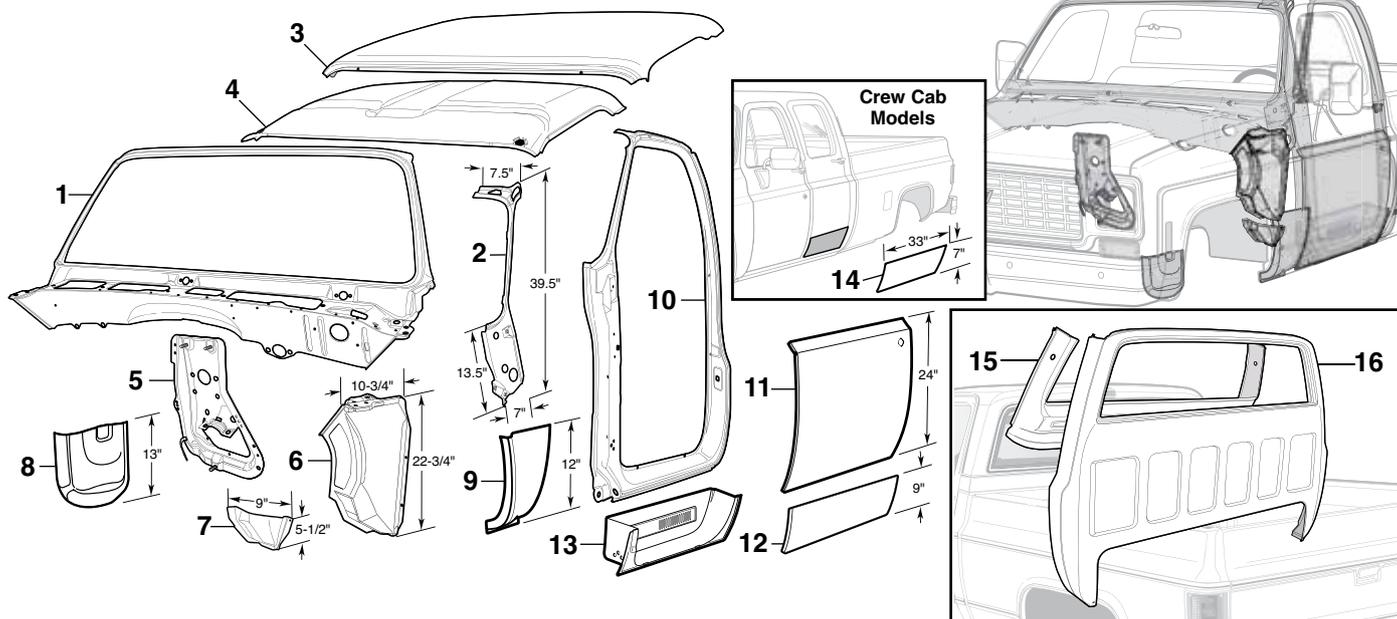

The Elite Hood Lift System features all the above but uses 316L Stainless Steel gas struts and comes with a 5-year warranty.

All necessary brackets, hardware and full-color installation instructions are included.

1973-89 Polyurethane Cab Mount Bushing Set

Rubber cab mount bushings have a soft and forgiving ride, but they will crush, harden and crack over time. These polyurethane bushings are specially formulated to be more durable and last much longer than rubber mounts. Order today!

38-9358-T	(14)	TAILGATE-PREMIUM	CHEVY GMC	81-87	(1)	\$260.95
38-9589-T		TAILGATE-STANDARD	CHEVY GMC	81-87	(1)	\$139.95

Note: "A" Tailgate is original for 1975-76, but will fit 1973-74 GMC trucks.

For the 1976 truck there are two types of designs used to attach the link and latch assemblies to the tailgate. Check your truck before ordering to ensure you order the correct part.

1st Design: Uses a BOLT to attach the link to the tailgate.

2nd Design: Uses a STUD to attach the link to the tailgate.

2nd design tailgate can be used as a replacement on the 1st design models if the 2nd design latch rod, latch assembly and link assembly are also used.

OE Quality Tailgate Reproductions

GM Official Licensed Product is purchased from an authorized GM Licensee. Premium parts are produced from new tooling using 18-gauge, OE quality steel as original for strength and durability to outperform current collision damage quality parts. Professional EDP (Electro Deposit Primer) coating offers a smooth surface ready for prep and paint.

Universal Steel Wheel Tubs

38-7710

3" Wide Wheel Tubs

38-7711

5" Wide Wheel Tubs

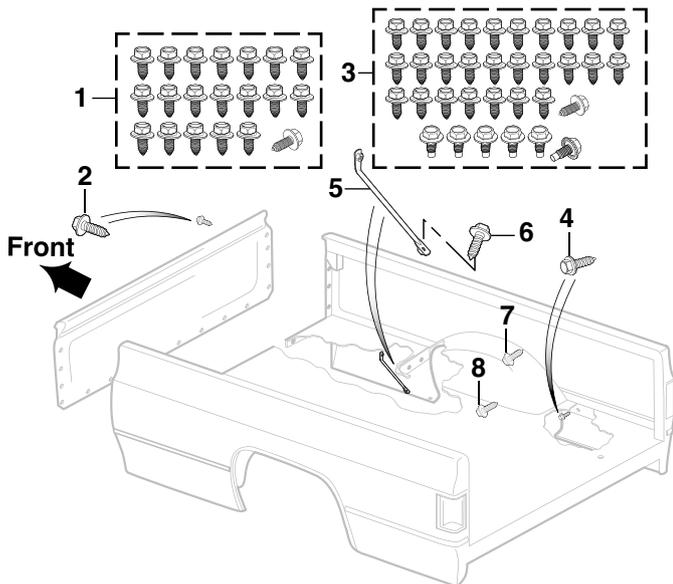

Available in 3" and 5" widths, these universal wheel tubs can be adapted to just about any classic stepside/flareside truck bed. Great for use on vintage trucks with a modern wheel set-up or when installing wider wheels/tires. Made with 16 gauge steel, ready to prep and paint. Sold as a pair.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
38-7710	INNER WHEEL TUB SET-2PC	3" WIDE	(1)	\$479.95
38-7711	INNER WHEEL TUB SET-2PC	5" WIDE	(1)	\$449.95

-T after a part number means that part must be shipped Truck Freight. An additional \$150.00 will be charged to your order for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted. Additional delivery time required.

* Or ** after the sell price means your order will incur an Oversize Part Charge for each oversized part. * Means extra charge will be \$20. ** Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

1973-87 Stepside Steel Bed Panels

OE Quality Tailgate Reproductions
Parts #38-9687 and #38-9688

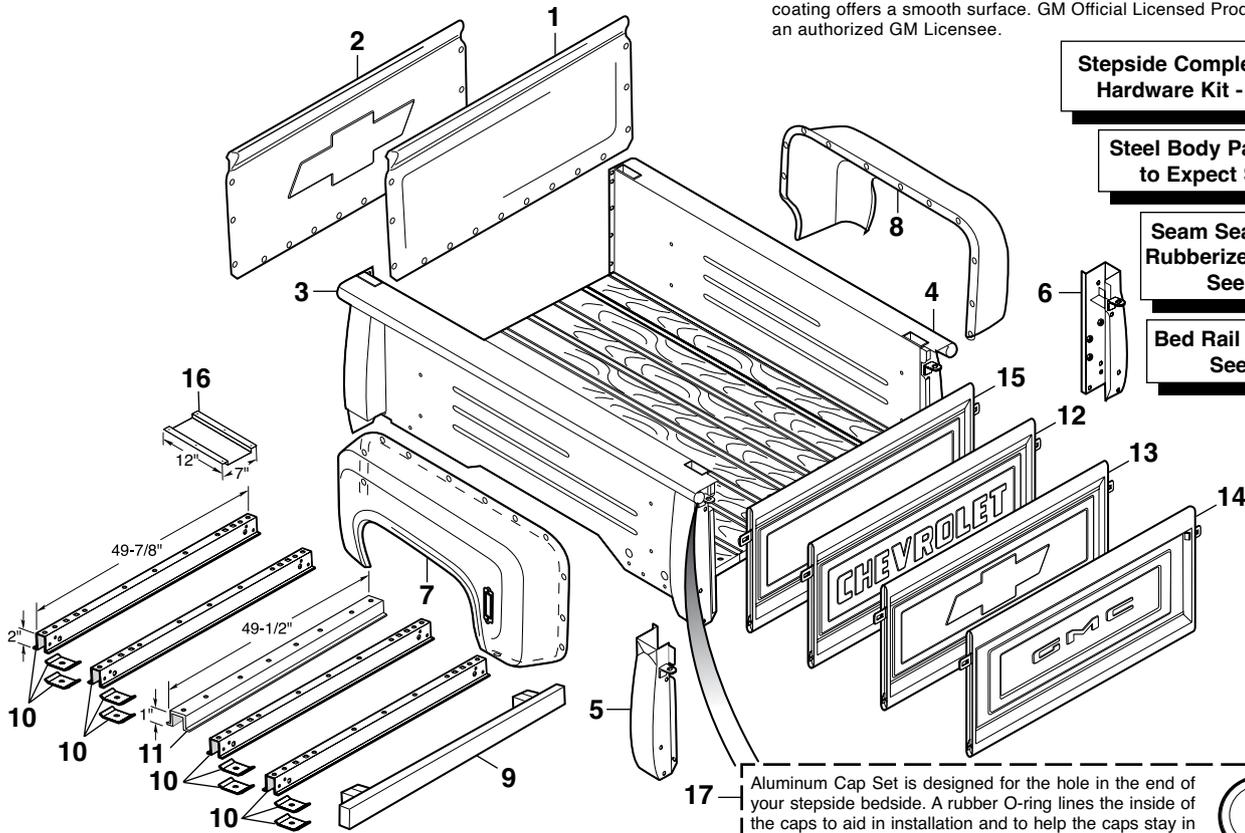

Reproduction Tailgates are produced from new tooling with 18-gauge OE quality steel, as original, for strength and durability. The sturdy tailgate base outperforms current collision-damage tailgates. Professional EDP (Electro Deposit Primer) coating offers a smooth surface. GM Official Licensed Product is purchased from an authorized GM Licensee.

Stepside Complete Master Bed Hardware Kit - See Page 27

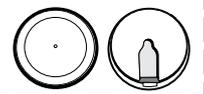

Steel Body Panels and What to Expect See Page 12

Seam Sealer and Loctite Rubberized Undercoating See Page 224

Bed Rail Protection Film See Page 226

Aluminum Cap Set is designed for the hole in the end of your stepside bedside. A rubber O-ring lines the inside of the caps to aid in installation and to help the caps stay in place. Just press in, nothing could be simpler.

Square hole and round hole refer to the shape of the fuel filler opening in the Fender.

Tie Down Anchors ... Easy to Use In and Out

Tie Down Anchors install and uninstall in minutes with no tools required. Insert heavy-duty Tie Down Anchor into stake pocket hole and turn the eyebolt to expand the rubber block. Two loop styles to choose from: chrome-plated loop #38-3237 or standard zinc-plated loop #38-3238. Both styles have metal top plates and a rubber liner underneath to protect the truck's finish. Sold individually.

38-3237

38-3238

These heavy-duty, steel anchor points have a unique "C" clamp design allowing installation where needed; just clamp to bed rail and secure the load. Point and plate are vinyl-coated and will not rust or scratch the truck's finish. Can be used with "under the rail" style bed liners.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
38-3237	TIE DOWN ANCHOR-CHROME LOOP	CHEVY GMC 73-89	(AR)	\$6.25
38-3238	TIE DOWN ANCHOR-ZINC LOOP	CHEVY GMC 73-89	(AR)	\$4.25

1973-87 Stepside Tailgate Latch Kit

Stepside Universal Tailgate Latch Kit utilizes modern rotary latches and black vinyl wrapped tailgate support cables in a one-piece design to provide simple and smooth tailgate operation. Kit can be bolted on or welded on any single wall tailgate. Drilling is required for bolt-on application. Some welding is required on double wall tailgates. Paint to match the color of your truck. Mounting brackets, hardware and illustrated instructions included.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
1973-87 STD Cab 1/2 Ton & 3/4 Ton				
38-3010	UNIVERSAL TAILGATE LATCH KIT	STEPSIDE	73-87 (1)	\$249.95
38-3048	REPLACEMENT SUPPORT CABLE SET	STEPSIDE	73-87 (1)	\$27.95

1973-87 Hidden Tailgate Latch Kit

Hidden Tailgate Latch Kit has spring-loaded locking pins which are contained in your choice of plain or stainless steel housings that are concealed inside of the upper edge of the tailgate, eliminating the bulk, noise and paint chips associated with stock tailgate chains.

Installation requires mounting holes to be drilled in the tailgate. Includes easy-to-follow, fully illustrated instructions. Call or go online and order yours today!

PART	DESCRIPTION	REQD	PRICE
1973-87 STD Cab 1/2 Ton & 3/4 Ton

Metal Prep & Rust Repair: Demonstrates stripping metal with chemicals and sanders and illustrates fixing a rust patch from start to finish. Metal finishing and body filler techniques are shown, as well as surface rust removal, conversion and primer application. 75 minutes

PART	DESCRIPTION	PRICE
38-0348	DVD-METAL PREP&RUST REPAIR	\$35.95

Paint Your Own Truck: Instruction on proper paint gun techniques, panel alignment secrets, surface rust removal and application tips for fillers, primers and paints. Learn how to apply two-tone paint jobs, demonstrated in simple steps with detailed masking tips and tricks that yield professional results. 240 minutes

PART	DESCRIPTION	PRICE
38-0449	DVD PAINT YOUR OWN TRUCK	\$35.95

1973-87 Stepside Bed Wood Kits

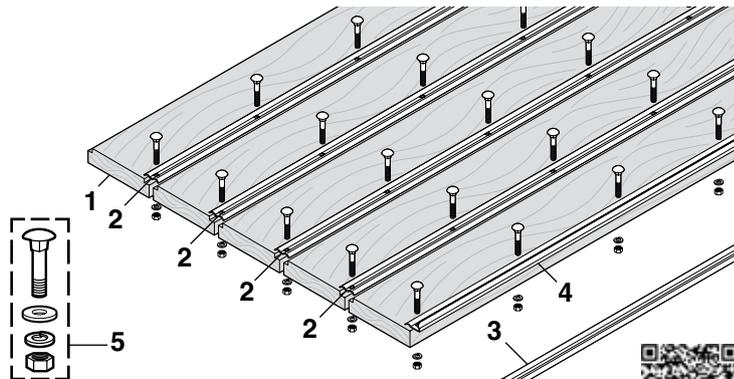

Bed Wood Kits are unfinished and do not come with pre-drilled holes. Washers should be countersunk when installed. All Bed Strip Kits and Angle Strip Sets are pre-cut to fit and include pre-punched square holes. Hardware is not included and must be purchased separately.

Angle Covers bolt directly over the existing angle strip, allowing you to renew the appearance of your angle strips without removing the old ones. Holes are not pre-punched.

Polished Items in Bed Bolt Kits are Carriage Bolt Heads.

Deluxe Polishing Kit

Hidden Bed Strip Kits

Hidden Bed Strip Kits Fit Stepside Models Only

Hidden Bed Strip Hardware Included

Hidden Bed Strip Kits give your truck a custom look with a completely hidden fastening system. Strips are available in paintable cold rolled steel and polished magnetic stainless steel. Special T-Bolts slide into the groove on the underside of the bed strip to adjust to any bolt location. Each strip is 1 1/2" wide and cut to the proper length for your truck. Includes 1 1/4" long hidden steel fasteners. Bed wood sold separately.

STL = Steel
PSS = Polished Stainless Steel

POR-15 is a high-performance rust preventative black paint designed to extend the life of new and rusted metal surfaces. It dries to a rock-hard, non-porous finish that will not rust, chip, crack or peel.

Dries in 2 to 5 hours; body fillers and paint can be applied over POR-15. For maximum effectiveness, degrease metal surfaces with Cleaner Degreaser, then prime with Metal-Prep.

Approximate product coverage:
1 pint = 48 sq. ft.; 1 quart = 96 sq. ft.

PART	DESCRIPTION	PRICE
37-8411	POR-15 SEMI-GLOSS-1 PINT	\$41.88
37-8412	POR-15 SEMI-GLOSS-1 QUART	\$63.89
37-8408	POR-15 GLOSS-1 PINT	\$41.88
37-8409	POR-15 GLOSS-1 QUART	\$63.89

Dry Time Accelerator reduces the cure time of POR-15 by 30-50% without affecting the final physical properties of the paint. One 8 ounce bottle treats 64 pints or 32 quarts of POR-15.

PART	DESCRIPTION	PRICE
37-8418	DRY TIME ACCELERATOR	\$34.05

High Temp Paint is an extreme temperature finish that maintains color without burning off or discoloring on manifolds and headers. Withstands high temperatures up to 1,200°F and resists cracking, chipping and peeling. It is weather-, salt- and moisture-resistant. Available in gray or aluminum color; can be brushed or sprayed on. Recommend sandblasting for optimal surface preparation.

Approximate coverage: 8 oz. covers a set of big block V8 headers with two coats.

PART	DESCRIPTION	PRICE
37-8484	HIGH TEMP PAINT-GRAY 8 OZ	\$26.78
37-8485	HIGH TEMP PAINT-ALUM 8 OZ	\$26.78

POR-15 Patch Filler & Seam Sealer is quite literally POR-15 Rust Preventive Coating in a tube, and it dries as hard as a rock, remains flexible, and once dry is totally impervious to fuels and solvents. This rust hole filler is so tough it may actually add strength to weakened metal, and it won't absorb moisture and swell like conventional body fillers. This sandable seam sealer permanently patches holes in steel, wood or some plastics, seals seams, and even fixes holes in fuel tanks. 4 oz. Tube.

PART	DESCRIPTION	PRICE
37-8406	PATCH FILLER-SEAM SEALER	\$22.47

Metal-Prep provides adhesion for POR-15 on any metal surface. Gently etches metal, neutralizes rust and creates an ideal anchor for coatings such as POR-15, while leaving a zinc phosphate finish to ensure chemical bonding of paint and steel. Metal-Prep must be used on galvanized metal, aluminum, stainless steel and smooth, polished or new metal surfaces prior to applying POR-15. Metal-Prep is water-based so it is not caustic, corrosive, toxic or flammable.

PART	DESCRIPTION	PRICE
37-8415	METAL-PREP 1 QUART	\$22.14
37-8416	METAL-PREP 1 GALLON	\$44.74

POR-15 Self Etch Primer is a quick drying and easy-to-apply coating which enables a restorer to quickly topcoat POR-15 Rust Preventive Coating and other basecoats. You can even topcoat POR-15 that's been in place for months or years. This Self Etch Primer is NOT a high-build primer, it can be sprayed on almost any painted surface and can be top coated in 15 - 30 minutes. It bonds incredibly well to POR-15 Rust Preventive Coating, and all topcoats bond incredibly well to POR-15 Self Etch Primer. It can be sanded lightly, and, if desired, multiple coats may be applied.

PART	DESCRIPTION	PRICE
37-8401	SELF ETCH PRIMER-GRAY	\$43.26

POR-15 Stop Rust Kit is designed to stop and/or prevent rust on metal surfaces and ensures the best results when applying POR-15 Rust Preventive Coating. The kit contains everything you need for the 3-step process; 8 ounce bottle of POR-15 Cleaner Degreaser, 8 ounce bottle of POR-15 Metal-Prep, 4 ounce can of POR-15 Gloss Black, and detailed instructions and tips. The kit is ideal for small projects such as sub-frames, axle replacements, control arms, brake shields and much more! There is enough material in this kit to cover a 6 sq. ft. area with two coats.

PART	DESCRIPTION	PRICE
37-8405	STOP RUST KIT	\$27.84

Cleaner Degreaser cleans and degreases in one application without messy residues, noxious fumes or flammable solvents. Removes grease, oil, mildew, algae, musty odors, soap films and wax from canvas, vinyl, plastics, nylon, wood, fiberglass and all metal surfaces.

Cleaner Degreaser should be used as a surface prep prior to using Metal-Prep and POR-15.

PART	DESCRIPTION	PRICE
37-8413	CLEANER DEGREASER 1 QUART	\$14.67
37-8414	CLEANER DEGREASER 1 GALLON	\$32.72

Bed Liner is a water-based, rubberized coating ideal for protecting truck beds, and all other metal, aluminum, fiberglass and wood surfaces exposed to impacts and scuffs. It is UV stable and offers superior adhesion, impact resistance and flexibility. Features a textured semi-gloss black finish for good looks. Prior to application, surfaces should be degreased with Cleaner Degreaser and metal surfaces should be treated with Metal-Prep. Bed Liner can be applied over POR-15.

Shortbed trucks - 1 gallon for two coats on bed floor, sides and tailgate. Longbed trucks need an additional quart.

Approximate product coverage:
1 quart = 25-30 sq. ft.; 1 gallon = 100-120 sq. ft.

PART	DESCRIPTION	PRICE
37-8480	BED LINER 1 QUART	\$41.92
37-8481	BED LINER 1 GALLON	\$157.97

Fuel Tank Sealer coats the inside of your tank to stop rust and seal pinholes and weld seams. It's a non-porous, flexible film that is resistant to all fuels, alcohols and fuel additives. This environmentally safe sealer does not contain the harmful chemical Methyl Ethyl Ketone (MEK) and is non-flammable. Cleaner Degreaser and Metal-Prep must be used to prep fuel tank prior to using fuel tank sealer.

Approximate product coverage:
1 pint = to 12.5 gal tank; 1 quart = to 25 gal tank

PART	DESCRIPTION	PRICE
37-8488	FUEL TANK SEALER 1 PINT	\$34.73
37-8489	FUEL TANK SEALER 1 QUART	\$60.33

37-8402

37-8403

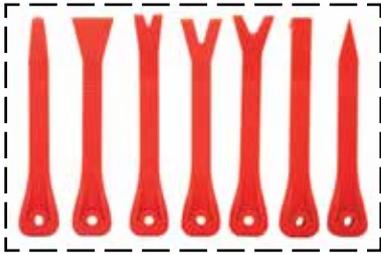

37-8404

POR-15 Top Coat can be applied directly to a clean prepped metal surface, but when used as a top coat over POR-15 Rust Preventive Coating it provides the toughest, most permanent protection against rust and corrosion. It has exceptional long-term gloss and color retention when exposed to sunlight and the elements, non-porous, extremely scratch and chip resistant, won't crack, peel or chip. Can be applied directly to metal substrates, with no need for a primer or undercoat, and is formulated to form a robust barrier that sheds moisture.

Chassis Black has a semi-gloss appearance. For maximum durability, Chassis Black should be clear coated.

PART	DESCRIPTION	PRICE
37-8402	TOP COAT-CLEAR	\$28.39
37-8403	TOP COAT-GLOSS BLACK	\$28.39
37-8404	TOP COAT-CHASSIS BLACK	\$28.39

7-Piece Plastic Pry Bar Set

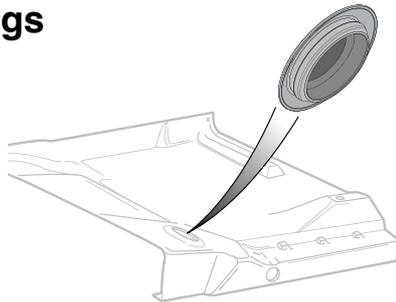

These pry bars can be used for scraping, removing fasteners, and of course "prying" with many different configurations, the possibilities are unlimited. The plastic design prevents scratching or marring of sensitive surfaces. All the pry bars are 7" overall length.

PART	DESCRIPTION	REQD	PRICE

1973-91 Tailgate Mat Protects Your Truck

Limited-Lifetime Warranty

This rugged, virtually indestructible Tailgate Mat is made with 3/8" thick cord-reinforced rubber for optimum tear strength and protects the truck's tailgate against dents, scratches, chemical spills and shifting loads. Mats can be easily installed and removed. Requires minimal maintenance; cleanup is easy with soap and water.

The smooth, raised ribs running lengthwise ease loading and unloading; and the knobby underside promotes aeration and drainage to keep the truck's bed dry. A raised border around the perimeter of the mat improves appearance and definition. This is a custom molded mat with no trimming necessary. Tailgate mat includes mounting hardware.

1973-89 Rail-Guards Provide Protection for Your Truck's Bed Rails

Rail-Guard is made of impact absorbing heavy-duty vinyl to protect your truck's bed rails. No drilling required. The full width 3M™ adhesive over the entire backside ensures maximum holding and means no condensation and dirt under the Rail-Guard. Can be used on running boards, rocker panels and in other applications where an attractive protection strip is needed.

Rail-Guard Set is a 22 foot roll of 3-3/4" wide vinyl for bedsides and tailgate with a 6 foot roll of 1" extrusion for the front bed panel. Tailgate Guard is a 6 foot roll of 3-3/4" material. Must be sized and cut to fit.

3-in-1 Truck Ties

Tested to -20°F and 165°F, these 3-in-1 Truck Ties are made in the USA from durable nylon plastic and are designed to fit into the stake pockets of your truck in three different ways: by installing with the ring side facing the truck bed so multiple cargo straps can be used; with the cleat side facing the truck bed to keep tension in the rope each time it is looped around the tie; or by covering the load with a tarp over the stake pockets and inserting the truck ties into the stake pockets over the tarp (rated for highway speeds).

Ties can be installed and removed with no drilling or modifications necessary.

1973-91 All Chrome Special Edition Grille

This Special Edition Grille is made from precision machined tooling and is a blend of OEM and custom design to achieve a unique and timeless styling for a Neo-Classic Chevy or GMC truck.

This rugged plastic all chrome grille is injection molded so there will be no bent or warped bars, no dull finish and no cumbersome brackets or mounting hardware to worry about.

Go from stock to style in minutes with easy installation. Bolts onto stock locations on most applications; comes with mounting instructions and new mounting hardware.

Chevrolet Bowtie Emblem is sold separately.

Premium Chrome Bumpers

- Bumper is stamped from new tooling using OE-quality steel for strength and durability.
- Bumper is buffed and polished to achieve a smooth defect-free plating surface.
- The Triple Nickel Plating process creates a brilliant, high-quality mirror-like finish.

Chrome Bumper and Primer Bumper

- Bumpers used by Collision Damage Repair Shops.
- Chrome Bumper is made with a computer-controlled process assuring consistent thickness of nickel and chrome plating.
- Primer Bumper is finished with an EDP (Electro Deposit Primer) coating that offers a smooth surface for applying your favorite color to match your truck.
- Economically priced replacements for your rusty, dull, scratched and pitted bumper.
- Save money, call or go online and order your bumper today.

Chrome Rear Step Bumper - Star-Lite

Step up with Star-Lite

Star-Lite Bumper with Diamond Tread

38-9737

This Chrome Rear Star-Lite Step Bumper has a diamond tread on top for sure footing when bumper is used as a step. For more traction, #38-9737 features a step pad made from molded polymer to protect the bumper from scratches while the grid pattern adds more grip for sure footing. The internal mounted Backup Lights look great and make it safer to back up truck by illuminating a larger area, making it easier to see hazards.

Chrome Rear Step Bumpers give your truck the ability to tow up to 800 pounds tongue weight and 8,000 pounds trailer weight. These bumpers offer the ease of bolt-on installation, the convenience of a step and come complete with rear license plate lamps. Do not

exceed truck manufacturer's recommended towing capacity. A Bumper Mounting Kit #30-2098 is required when installing these rear bumpers.

Backup Light Wiring Kit

Wiring kit includes a separate switch, enabling you to turn lights on and off, eliminating the need and danger of leaving the vehicle in reverse to utilize lights.

36-0735

- Kit Includes:
- Illuminated switch
 - 30 amp relay
 - 15 amp in-line fuse
 - Wires and Connectors

PART	DESCRIPTION	PRICE
36-0735	BACKUP LIGHT WIRING KIT	\$25.95

Replacement Backup Light

Lights can be easily spliced into the existing backup light wires so they will come on each time you shift into reverse. The additional light is excellent for hooking up trailers or boats in the dark since they are located closer to the hitch area.

36-4416

However, in some cases factory wiring may not transfer enough power to properly illuminate the lights. For full illumination install a Backup Light Wiring Kit (sold separately #36-0735).

PART	DESCRIPTION	PRICE
36-4416	BACKUP LIGHT-W/LENS	\$9.95
36-4206	REPLACEMENT LENS	\$2.45
36-0227	REPLACEMENT BULB	\$1.25

1973-91 Chrome Rear Step Bumper ... Style and Utility All in One

38-9731

38-9736

Chrome Rear Step Bumpers give your truck the ability to tow up to 800 pounds tongue weight and 8,000 pounds trailer weight. These bumpers offer the ease of bolt-on installation, the convenience of a step and come complete with rear license plate lamps. Do not exceed truck manufacturer's recommended towing capacity. A Bumper Mounting Kit #30-2098 is required when installing these rear bumpers.

Chrome Rear Step Bumper - Polymer Pad

Classic style rear step bumper features a step pad made from molded polymer to protect the bumper from scratches. The grid pattern adds an excellent anti-skid surface for sure footing while loading and unloading.

1973-91 Custom Chrome Front Bumper Lighted

Custom Front Bumpers are stamped from new tooling using OE-quality steel for strength and durability. Bumper is buffed and polished for a smooth defect-free plating surface. The Triple Nickel Plating process creates a brilliant, high-quality mirror-like finish. Lights are installed in the bumper, complete with all necessary wiring and installation instructions.

Fog lights provide a low, wide beam pattern for improved short-range vision in fog, rain or snow. Driving lights provide a longer, more focused beam pattern for improved long-range vision at highway speeds. Lights have an aluminum die-cast housing and three-tier protective finish coating, which makes the housing corrosion-free. State-of-the-art reflector, in combination with a strong semi-hardened crystal glass lens, gives maximum light output. Lights use a high efficiency halogen 12V 55W replaceable bulb and are OE quality, DOT and SAE approved. Lights come with a 3 Year Limited Warranty on assemblies (excluding bulb). Includes wiring harness, illuminated rocker switch and 12 volt relay.

- 1973-80 Bumper is equipped with two 3-3/4" diameter fog lights.
 - 1983-87 Bumper is equipped with two 5-3/4" x 2" multi-surface reflector housing combination fog/driving lights.
- For added style, replace the white halogen bulb with a halogen blue-coated bulb. The blue-coated bulb creates an intense white light which is popular in today's new cars and trucks. Get the cool look of HID (high intensity discharge) lighting without the high price.

For More Information on Superwhite Bulb Set See Page 206

Custom Flexible Chrome Trim ... Design it – Cut it – Install it

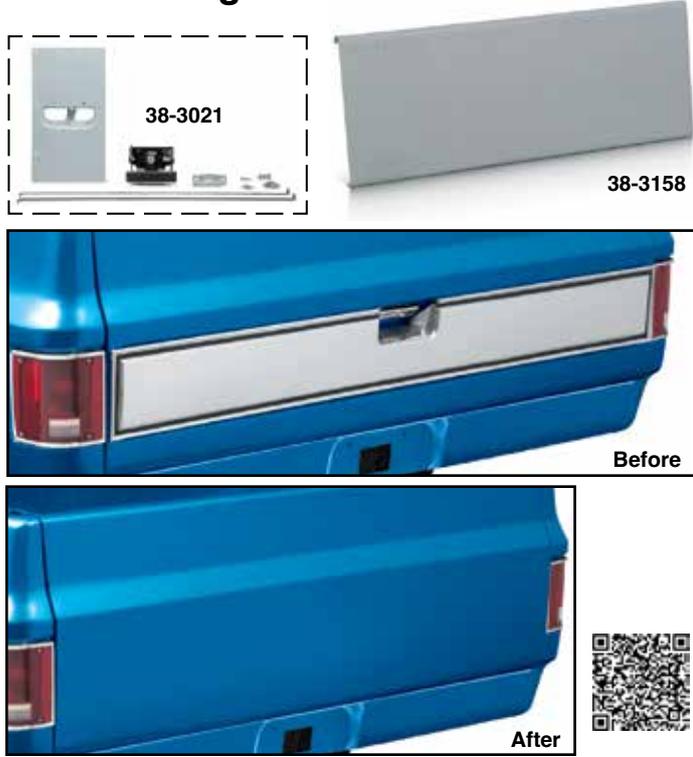

Add design accents and trim on your vehicle in traditional patterns or create a unique custom look with Flexible Universal Chrome Trim. Available in three widths, any combination of the kits can be used to achieve a desired look. Chrome ABS Trim is scratch-resistant, UV coated with a bright chrome finish and easily cuts with sharp scissors and features 3M™ adhesive peel-off backing. Pattern material is included for design and fitment of the flexible chrome laminate. Use provided sandpaper to clean up any edges or corners. Always double-check all measurements of materials needed for your design for your vehicle against available sizes of kits.

1973-91 Vent Window Components

GM used two different vent window seals on 1985-87 models. The 1pc and 2pc designs are not interchangeable. Before ordering, determine which style you need by comparing the differences shown in the illustrations above.

Vent Window Assemblies are produced from new tooling and incorporate all 1973-87 mounting points. They feature a black frame and come preassembled with 1-piece rubber seal and chrome locking handle for security.

Windshield and Rear Window Installation Tips:

1. Fit your new window rubber to your cab first, then install the window glass.
2. Use a rubber friendly lubricant such as WD40 and the Windshield Stick (#38-0796) to ease installation and avoid damaging your window rubber.
3. Window rubber shrinks; your new window rubber may appear slightly larger than the original prior to installation.

GREEN TINT Window has a full light green tint to glass.

SHADED Window has a full light green tint with a dark band at the top of glass.

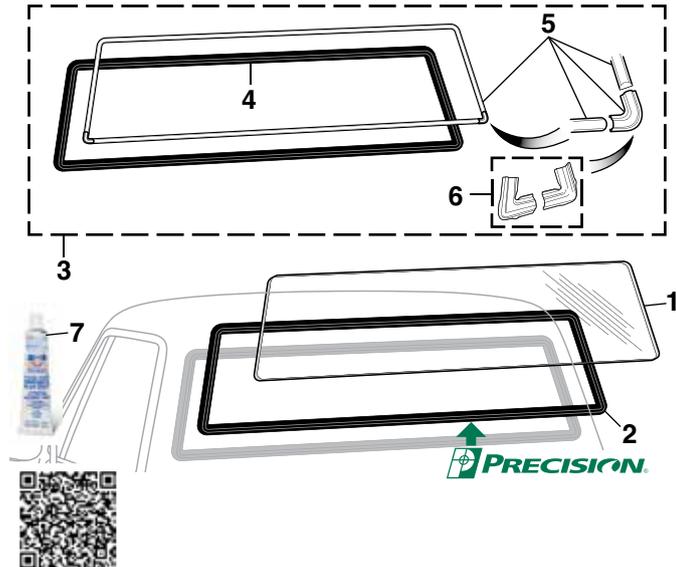

Windshield and Glass Sealant is silicone and seals windshields, windows, sunroofs and more. Flows into leaks like water but dries to form a flexible, tough, clear seal resistant to extreme temperatures, vibration, shock and most chemicals.

STANDARD = Standard Rubber Seals do not have a groove for trim.
CUSTOM = Custom Rubber Seals do have a groove for trim.

Glass Tools

38-0796
\$1.25

Windshield Stick A glass installer's most useful tool! Can be used to install or remove windows or window rubber. This plastic tool measures 8" in length for an easy grip.

38-0763
\$9.75

Hook Tool helps remove and install rubber mounted glass. The tool has an angled end for easier fitting of the glass inside the rubber seal. Features a round steel ball on the tip to protect against damage to the rubber seal, glass and painted surfaces.

38-0731
\$6.95

Locking Strip Tool is used to install the locking strip around windshields, side windows and rear windows. Features plastic screwdriver handle for a comfortable grip and steel shaft with double-ended tip for use on multiple applications.

38-0762
\$13.22

Rope-In Tool inserts 1/4" diameter nylon rope through its stem and seats it in the groove of the seal as it is pulled around the perimeter of the seal. With the glass properly positioned on the vehicle, simply pull the rope and the seal then pops over the pinch weld to hold the glass firmly in place. Includes enough rope to fit around even the largest truck windows.

Door Edge Peep Mirror

A Chrome Door Edge 4" Peep Mirror adds style and extra rear visibility to your truck. Attaches to the left or right side of the outer edge on the door window frame. A Chrome Convex 4" Peep Mirror provides a wider field of view than flat mirrors. A Chrome Peep Mirror Extension is available separately and adds 1-1/2" of length to the mirror arm for increased visibility. Reduce glare with a stainless steel 4" Peep Mirror Visor; sold separately.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
38-5815	PEEP MIRROR-FLAT	CURVED ARM	(AR)	\$15.95
38-5813	PEEP MIRROR-CONVEX	CURVED ARM	(AR)	\$17.95

38-5848	MIRROR HEAD STAINLESS	5" X 7"	\$10.95

Blind Spot Mirror

38-5890

Blind spot mirrors increase viewing angle, eliminating blind spots. The 2" Adjustable Blind Spot Mirror rotates 360° for a customized wide angle view. Mirrors attach to door mirror with included self-adhesive tape.

PART	DESCRIPTION	REQD	PRICE
38-5890	BLIND SPOT MIRROR-2"	(AR)	\$2.25
38-5893	BLIND SPOT MIRROR-ADJUSTABLE-2"	(AR)	\$2.25
38-5892	BLIND SPOT MIRROR-3"	(AR)	\$2.25

1973-91 Turn Up the Heat with Heated Door Mirrors

38-5843

Heated Door Mirrors eliminate the need to scrape ice and snow from mirrors; just flip a switch and watch the frost, ice or snow melt in minutes. Mirrors have been applied with a unique conductive polymer heating element to the ever-popular Stainless Steel exterior flat glass door mirrors. This allows for high wattage heating at sub-zero temperatures.

When switched to "on" position, mirrors heat up for 10 minutes and then shut off automatically. If additional defrosting is needed, repeat the cycle. Set comes complete with left and right hand mirrors, mirror gaskets, mounting hardware, switch, switch holder, fuse, circuit board, wiring and installation instructions.

1973-91 GM Style Reproduction Door Mirror

The GM style flat glass door mirrors are exact reproductions of the originals. The convex door mirrors provide a wider field of view than flat mirrors and are available for the passenger side. Both mirror styles are available in black, chrome or stainless steel and come complete with gasket and mounting hardware.

1977-91 Heavy-Duty Power Window Harness

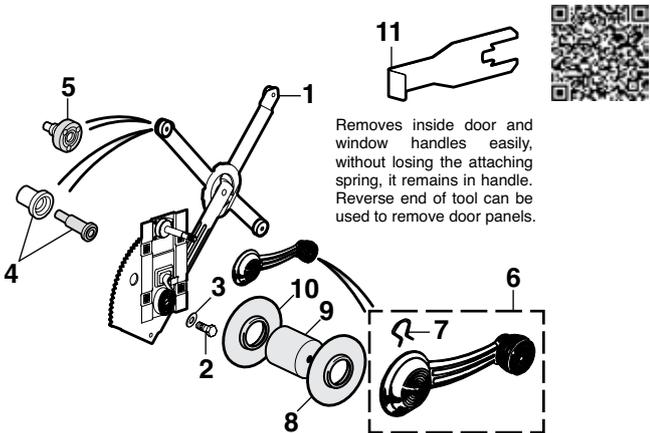

How-To Video Available
 Featuring TV Personality Kevin Tetz
 Visit lmtruck.com/product-videos

Upgrade your power window harness for better power delivery to the window motors for modern day speed and reliability. The heavy-duty harness draws power directly from the battery compared to the original wiring that draws its power from the window switch. Harness has separate relays for up and down functions on both front doors. Comes complete with everything needed to splice into the truck's wiring and works with factory window switches. Installation instructions included.

Hand Riveter Set ... Makes Rivet Installation Easy

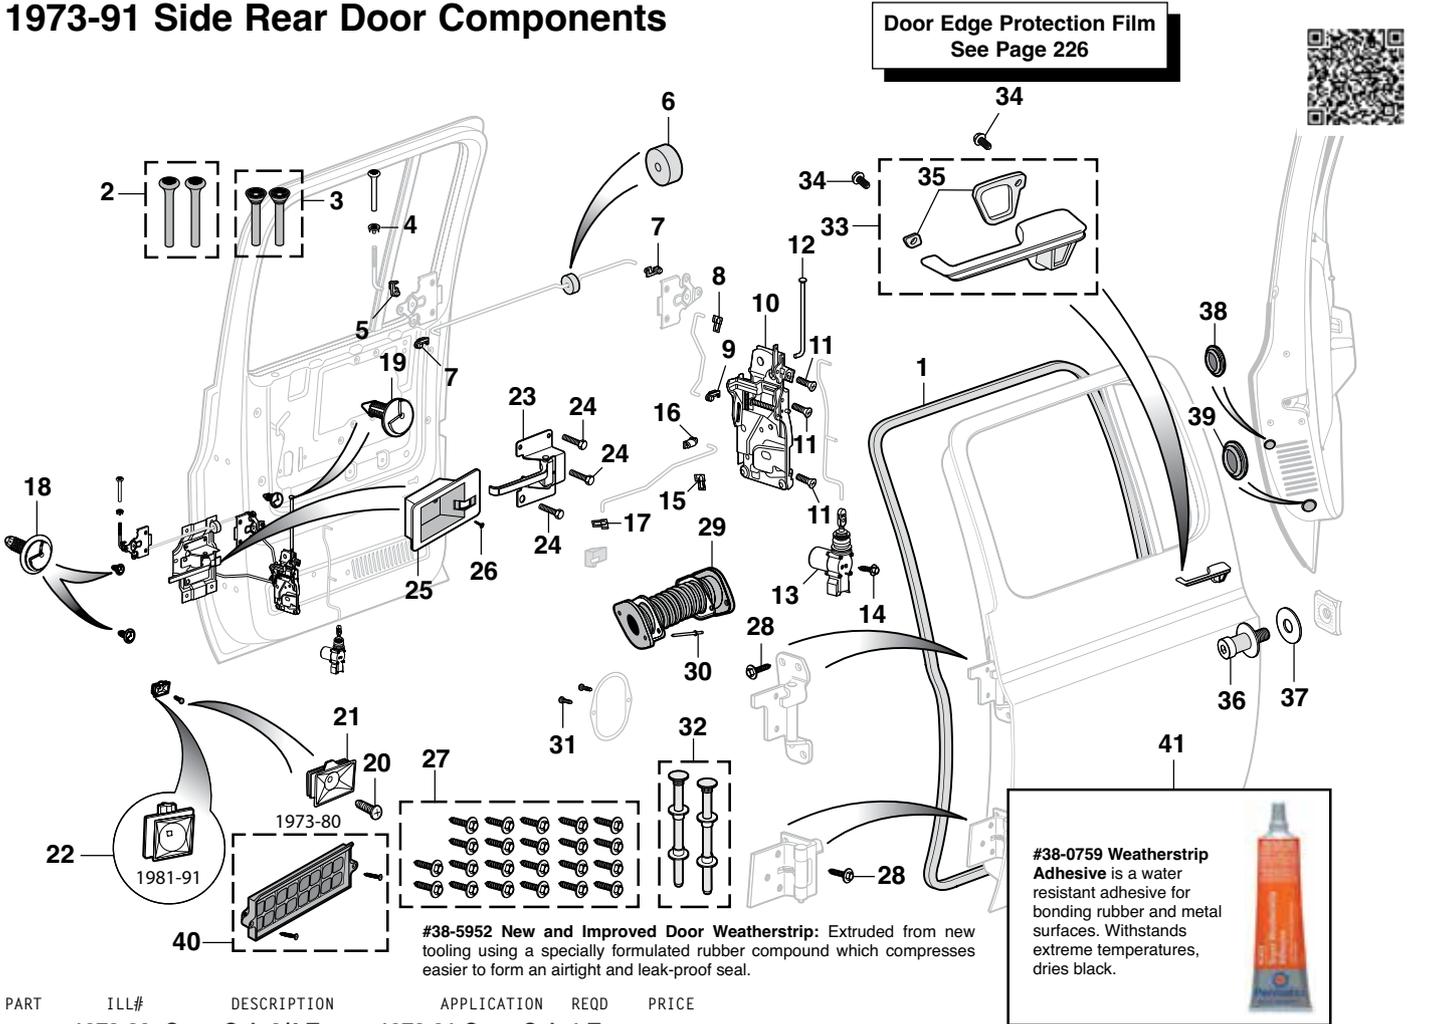

PART	DESCRIPTION	PRICE
38-1239	HAND RIVETER SET	\$14.95
38-1289	HAND RIVETER SET-HD	\$19.95

The Hand Riveter Set works great for body clips, door components, ID plates and sheet metal repairs. Comes with four nosepieces (3/32", 1/8", 5/32" and 3/16") and a wrench inside the gun's handle. 60 blind rivets included.

The Heavy-Duty Hand Riveter Set features extra long handles to give you more leverage setting rivets. A collection bottle keeps the workplace safe and clean. Includes 3/32", 1/8", 5/32", 3/16" nosepieces, plus 1/4" for larger projects like installing brackets and window regulators. Comes with a wrench and 50 blind rivets.

1973-91 Side Rear Door Components

#38-5952 New and Improved Door Weatherstrip: Extruded from new tooling using a specially formulated rubber compound which compresses easier to form an airtight and leak-proof seal.

#38-0759 Weatherstrip Adhesive is a water resistant adhesive for bonding rubber and metal surfaces. Withstands extreme temperatures, dries black.

1973-76 Front Door Panel Sets

These new replacement door panels (not reproductions of the originals) are made from brand new tooling to more exacting standards than previously available. These door panels are manufactured from molded, heat-resistant plastic and then painted in the available colors. The paint is mixed with an ultraviolet inhibitor to help prevent damage from the exposure to sunlight.

Replacement Door Panel Sets accept all your original accessories or you may purchase new ones.

Panels are designed to accept:

- Door pockets; see page 85.
- Door panel trim sets; sold below.
- Original armrests, or you can replace your worn out or cracked ones with a new set that can be purchased separately; see page 85.

Door panels are sold in sets of two and include pre-attached window weatherstrips. Includes installation hardware and illustrated instructions.

All trim locations for #38-2568 Center Trim Panel or #38-2569 Trim Panel are pre-marked on the back of the door panel to make cutting the holes to match your truck's original door panels simple. Easy-to-follow illustrated instructions detailing this process are also included.

Door Panel Trim Sets feature an all-metal construction with a woodgrain and black texture pattern like original. Trim is easy to install with the built-in mounting tabs.

- Door panels are sold in sets of two and include pre-attached window weatherstrips.
- Your original armrests can be re-used or you can replace your worn out or cracked ones with a new set that can be purchased separately; see page 85.

#38-2601 Door Panels feature a pre-cut hole for the manual window crank handle. This hole can be enlarged using the pre-marked template on the rear of the door panel to fit a power window switch. Power door lock switch holes are also marked on the rear to make cutting the holes to match your truck's original door panels simple.

#38-2603 Door Panels have pre-cut holes for window handle, power window switch, power door lock switch and door panel trim.

#38-2509 (See page 81) Door Panels have all window handle, power window switch, power door lock switch and trim locations pre-marked on the back of the door panel.

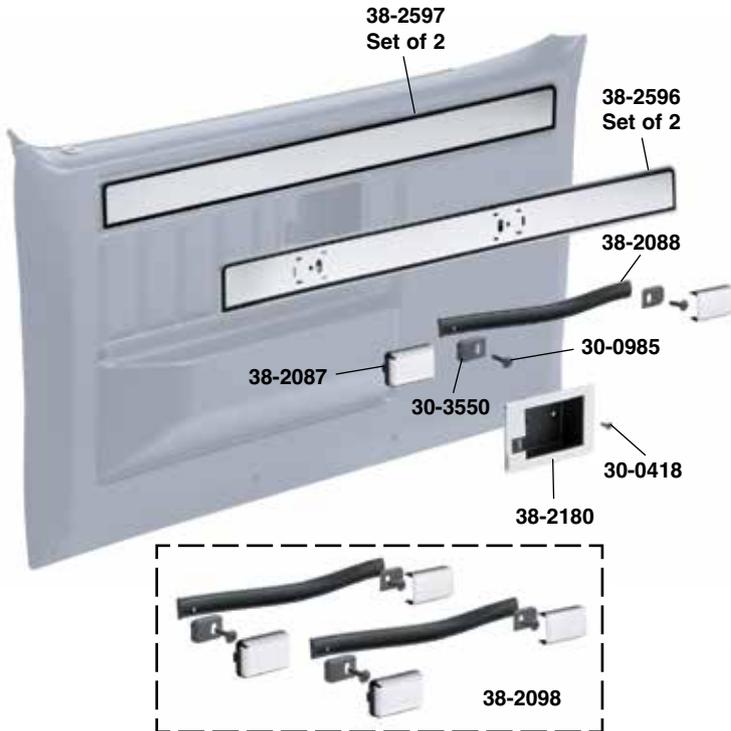

#38-2601 and #38-2509 include easy-to-follow illustrated instructions detailing this process.

1973-91 Threshold Plate Set with LED Bowtie

Replacement Remote

GM Official Licensed Product is purchased from an authorized GM Licensee.

37-8038

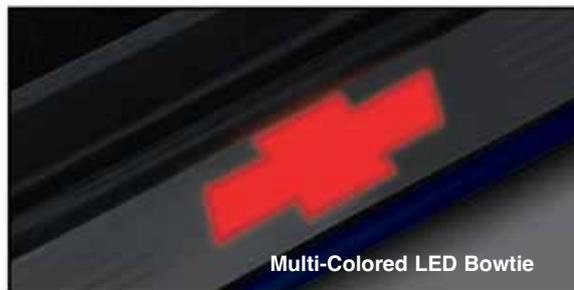

Custom threshold plates are made from high-quality stainless steel with a brushed finish and etched accents. The long-lasting LED illuminated bowtie in the center glows when either door is opened and turns off when closed and can be wired to an existing courtesy light switch or one can be purchased separately.

37-8038 can be changed to one of 20 static colors with adjustable brightness or set to one of 22 dynamic modes that cycles between all the colors that can be sped up or slowed down to your liking. All this can be done from the included wireless remote control.

37-8047

Threshold Plate Set requires no drilling and installs using pre-attached 3M™ tape strips. Threshold Plate Set and Courtesy Light Switch Kit include instructions and come with everything needed to install.

Multi-Colored LED Bowtie

Fits front door thresholds only.

Klassic Keyless

This complete, do-it-yourself 2 door keyless entry kit from Klassic Keyless is designed to fit your vehicle. This is not a "universal" collection of parts, but a comprehensive, vehicle-specific system that is engineered with the shade tree mechanic in mind. The kit comes with everything needed to install remote activated keyless entry into your truck using common hand tools.

The Keyless Remote Entry System includes:

- Keyless entry module with onboard relays for a clean installation.
- 2 two-button remote controls.
- 2 door lock actuators with 15 lbs. of pull and built-in overload protection.
- 2 actuator mounting brackets.
- 2 rubber doorjamb boots.
- 2 actuator connecting rods and clips.
- Wire harness.
- Full color step by step instruction manual, and all necessary hardware.

Fits front doors with original manual locks only

Retro Floor Mat Sets

RETRO FLOOR MATS DONE RIGHT

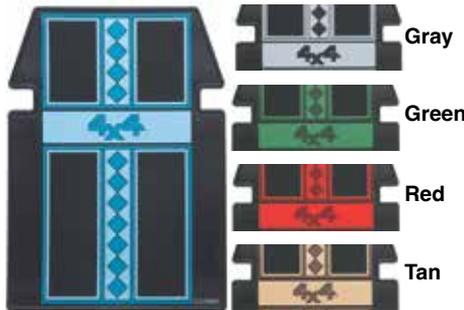

Protect your truck's carpet with these Retro Rubber Floor Mats from Dojamat. Patterned after the very popular floor mats available in the '70s and '80s, they're the perfect final touch to your truck's interior.

They are made from 100% premium grade durable black rubber, top and bottom. Retro rubber floor mats feature several gripping areas for non-slip fit.

Each set comes with two floor mats.

1973-87 Rubber Floor Mats ... One Piece Replacements for OE Mats

PART	DESCRIPTION	APPLICATION	REQD	PRICE
1973-87 STD Cab 1/2 Ton, 3/4 Ton, 1 Ton				

2WD Models with Column Shift (Low Hump)

38-2836	RUBBER FLOOR MAT-COLUMN SHIFT	CHEVY GMC 73-87	(1)	\$177.95
---------	-------------------------------	-----------------	-----	----------

2WD Models with Floor Shift and All 4WD Models (High Hump)

38-2835	RUBBER FLOOR MAT-FLOOR SHIFT "A"	CHEVY GMC 73-87	(1)	\$186.55
---------	----------------------------------	-----------------	-----	----------

Insulation Material - This 1/4" thick jute padding is a synthetic Insulation Material similar to the insulation used in today's trucks. It also makes a great sound deadening material when used underneath rubber floor mats or wherever your truck needs extra insulation.

38-2830	INSULATION MATERIAL	3FT X 6FT	ROLL CUT TO FIT	\$12.95
---------	---------------------	-----------	-----------------	---------

Spray Adhesive - Dries clear with superior bonding strength. Unique formula resists water and humidity. Excellent for attaching upholstery cloth, carpeting, insulation and has many other uses.

38-0798	SPRAY ADHESIVE	10.5 OUNCE CAN		\$9.75
---------	----------------	----------------	--	--------

Note: "A" Without shifter cut out. Use old mat as pattern.

These all black Rubber Floor Mats are molded to fit the front half of your cab's floor and are ready to go. They are a replacement of OE style mats and are one piece for easy installation. Call or go online and order today!

IMPORTANT: Before choosing a floor covering, check the floor pan configuration of your vehicle. Was your vehicle originally equipped with an Automatic (Low Hump) or Manual (High Hump) transmission? Selecting the correct floor pan configuration is an important part of ensuring that your floor covering fits properly.

1973-91 1/8" Thick Molded Industrial Polyvinyl (MIP) Floor Mats

Installation Tip: Allow mats to lay unfolded for 48 hours at room temperature of 72° or more to help remove creases caused by packing. Test fit prior to making any permanent installations (some trimming may be necessary).

All MIP Mats are only available in black.

Heavy-duty Molded Industrial Polyvinyl (MIP) Floor Mats are made of durable 1/8" thick industrial Polyvinyl and are resistant to moisture and temperature; therefore, they will not dry rot or crack and last longer than rubber. They are vacuum molded from the original floor pan to cover the entire floor, making installation easy.

Mats are easy to clean and protect your interior from water, snow, mud and most chemicals. The MIP Floor Mat includes pre-cut 36 ounce jute padding under the passenger areas to provide a higher level of insulation against heat, cold and road noise.

1973-87 Front Floor Liner Set Is Tough and Durable

Floor Liners protect your truck's carpet from water, snow, mud and most chemicals. Molded for an exact fit from a patented rubberized thermo-plastic material, guaranteed not to crack or break. Raised outer rim traps up to 2 gallons of liquid. Driver's side mat is equipped with an extra thick heel pad to offer heel protection and guard against wear in this high use area. Floor mats conform to the shape of your vehicle's floor and have an anti-slip back. Cleanup is easy, just wipe up small areas with a cloth or remove the mat and hose it off.

1973-91 EVA Sound Deadener and Heat Shield Kits

38-2904

Installation Tip: To reach the maximum level of sound dampening and insulation, use Multi-Purpose Insulation #38-2829 to cover any areas not protected by the EVA Sound Deadener and Heat Shield Kits. Use #38-0798 Spray Adhesive, #38-0759 Weatherstrip Adhesive and #38-0716 Aluminum Tape to install sound deadener, heat shield and insulation.

EVA Sound Deadener Kit is die cut for easy installation. Made from OE type, 1/16" thick Ethyl Vinyl Acetate (EVA) an asphalt based material, used for sound dampening. Apply directly to cab floor. Reduces road noise and cab harmonics for a quieter ride and insulate against heat and cold. To further insulate, use in combination with the Heat Shield Kits.

1973-91 Molded Carpet ... Fits and Looks Like Original

Cut pile carpet is molded from the original floor pan for a perfect fit that covers the entire floor. It's made from 100% nylon with an OE type heel pad. The heavy 36 ounce jute padding under the front passenger area helps insulate against heat and reduces road noise.

Color coordinated original style heel pad is attached and an easy-to-install dimmer switch grommet is also included. The color coordinated vinyl binding helps prevent fraying and adds the finishing touch.

Sound Control Mat

Sound Control Mat reduces noise, vibration and heat created from the engine, road and structure of your vehicle. Can be applied to any interior surface area; cover as little as 25% of an area for a noticeable reduction. Each 2mm thick sheet consists of butyl rubber with a top layer of heat resistant aluminum that is easy to cut and conform to contoured surfaces, just peel and stick. Available in silver and black, each sheet measures 21" x 29".

Black

Silver

3-in-1 Sound Control Mat combines the vibration absorption and heat-resistant capabilities of the 2mm thick Sound Control Mat with an additional 5mm thick layer of foam for more efficient sound deadening. This makes it our most effective product for eliminating road noise and vibrations in your truck. Each sheet is 7mm thick and measures 19" x 31".

38-2829

38-0759

38-0798

Uses Space Age technology to insulate against heat, cold and noise under hoods, carpeting, headliners, door panels, firewalls or seats as well as other household uses. This 4-foot x 6-foot sheet is made of 3/8" sound deadening fiber padding. Highly reflective aluminum is bonded on one side to achieve 97% reflection of radiant heat. Use this Multi-Purpose Insulation with Sound Control Mat for maximum sound deadening. Call or go online and order both today!

Use #38-0798 Spray Adhesive and #38-0716 Aluminum Tape or #38-0759 Weatherstrip Adhesive to easily install Insulation Material.

1973-91 Replacement Seat Cushions

Replacement Seat Cushions are manufactured with a precision cold cure molding process that exceeds original quality and are reinforced with a tough polypropylene mesh for stability and long life.

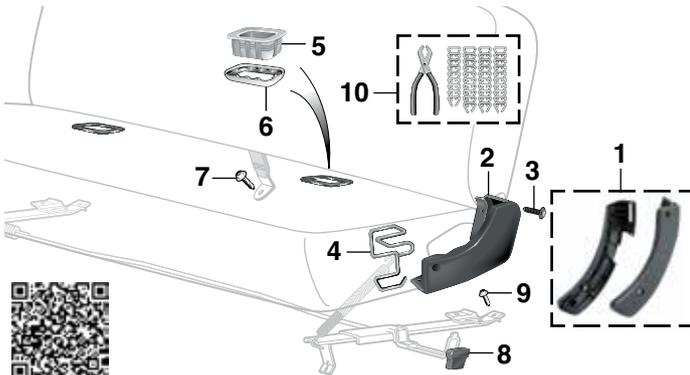

Some 1981 bench seat models were equipped with the 1973-80 style seat; check yours before ordering. The 1981-87 Seat Cushion has molded openings for seat belts to pass through.

Seat Heater Kits ... Warm Yourself Up Before Your Truck Warms Up

38-2198

Seat Heaters are constructed with patented carbon fiber heating elements which give consistent and controlled warmth. Paper thin heating elements are water-resistant and install between any seat cover material and seat cushion. Kit includes heating elements for seat back and bottom, three-way switch (Off/Low/High), pre-wired relay harness with fuse and instructions.

#38-2198 contains two 11" x 11" heater elements. (One for seat back and one for seat bottom.) Ideal for use in bucket seat applications.

#38-2199 contains two 11" x 22" heater elements. (One for seat back and one for seat bottom.) Ideal for use in bench seat applications.

1973-91 3 Point Retractable Seat Belt Kit and Seat Belt Extender

3 Point Retractable Seat Belt Kit features a quick release push-button buckle and is constructed of OE-quality herringbone webbing. Seat belt kits are a simple, direct bolt-in installation using the original seat belt mounting holes. Mounting hardware for the retractor to floor bracket and for the shoulder belt is included.

Reuse your existing hardware to install seat belts. New bolts are available to mount retractor and the buckle to the floor; see below. Federal regulations require seat belts in all trucks manufactured after July 1971.

Seat Belt Extender provides an extra 12" in length for added comfort. Instructions and hardware are included. For use with 3 Point Seat Belt Kits.

1973-87 ABS Plastic Headliners ... The Long-Term Solution to Sagging Headliners

Fits Standard Cab Models Only

The original headliner board was made of pressed fiberboard. Over time the headlining material separates from the fiberboard and falls down with the fiberboard usually deteriorated beyond repair. These ABS plastic-backed headliners are a simple, cost-effective, long-term solution to this problem.

Replacement Headliners are vacuum-formed ABS plastic covered with foam-backed perforated vinyl or cloth materials in colors that fit and function as original. Replacement headliners install as original using existing trim.

Headliner Kits are designed for models not originally equipped with a factory headliner. Separate panels to cover the side pillars below the headliner are included. (Drilling into the inner roof panel is required.)

- Easy Installation
- No Special Tools
- Instructions Included

1973-87 Highliner with Built-In Speakers ... For a Stereo System Above the Rest

Fits Standard Cab Models Only

Match the Color of Your Interior with ColorBond See Page 116

38-2044-BL

Highliner uses four built-in, uniquely placed speakers which guarantee true stereo separation as well as less distortion and ensures clarity at lower volume levels by neutralizing the echo effect found in most pickups. Radio console is designed to accept optional aftermarket stereo cassette players, CD players or CB radios.

Highliner is manufactured from high-impact, leather-grained, black ABS plastic and can be painted to match the color of the interior. It installs easily and includes four 4" air suspension speakers with a 5.8 ounce magnet, which handles up to 10 watts of power. Features high-temperature resistant voice coils and comes with foam speaker baffle and suppression pads, antenna extension cable, bezel plate, installation hardware and instructions.

1973-91 Dash Protector ... Prevents Fading and Cracking 5-Year Warranty

Dash Protector eliminates dash replacement and provides preventative care for the undamaged dash.

Made from soft, velvety velour that has special UV inhibitors to block the sun and resist shrinking and fading. They are custom cut to fit your dash, and have pre-cut allowances for defrost vents, which makes installation easy using self-adhesive Velcro tabs.

Note: "A" Flanges on end of dash pad will need to be trimmed prior to installation.

How-To Video Available
Featuring TV Personality Kevin Tetz
Visit LMctruck.com/product-videos

Dash Pads are made with a foam-backed vinyl which is made with a protective UV coating to help prevent ultraviolet damage. They feature steel-reinforced inserts and use all factory mounting locations and hardware. No modifications needed for installation.

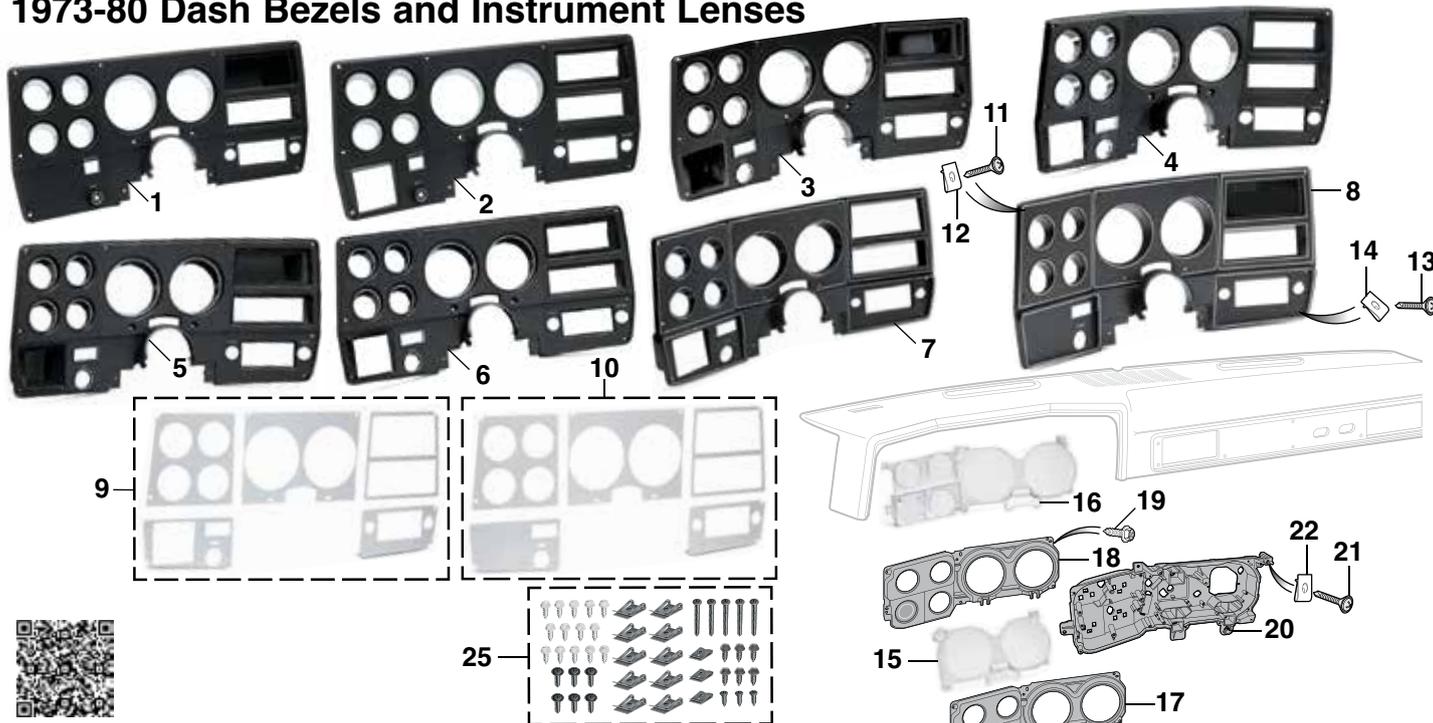

Color Dash Pads feature a black base painted in available colors and then coated with the same UV coating to help prevent damage.

Hardware is not included and must be purchased separately, see pages 103 and 105.

Available in 5 colors.

* Or ** after the sell price means your order will incur an Oversize Part Charge for each oversized part. * Means extra charge will be \$20. ** Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

1978-87 Tachometer Conversion Kits

GM used three different fuel gauges in 1978-79 models. Determine which gauge you need by the photos shown.

Gauges Included with 36-1870

Gauges Included with 36-1871

Gauges Included with 36-1872

36-1873

Take the guesswork out of upgrading the instrumentation in your classic pickup with the Tachometer Conversion Kit. Each kit has been packed with every component required to convert your existing non-tachometer instrument cluster to a full tachometer package.

Each kit includes:

Tachometer Conversion Kits fit models equipped with factory gauges only.

- Tachometer
- Fuel gauge
- Tachometer wiring harness
- Tachometer mounting plate
- Mounting screws for tachometer mounting plate and fuel gauge
- Gauge cluster backing plate
- Printed circuit and retaining clips
- Instrument cluster lens and retainer
- Directional and high beam indicator lenses
- Spacers and detailed instructions

1973-87 White Face Gauge Overlays

White Face Gauge Overlays are computer printed on vinyl and pre-cut for a precise fit. They install easily over stock gauge faces without removing the gauge needles (except clock) and use the stock gauge lighting. No worries of broken needles or need for recalibrating gauges. Overlays will not wrinkle or bubble in hot or cold temperatures and can be removed with direct heat. Installation instructions included.

1973-91 InVision LCD Digital Dash Kit

Make your dash stand out from the crowd with the new InVision LCD Digital Dash Kit from AutoMeter. This direct fit LCD Digital Dash Kit comes with four user screens and is a one model solution for your entire dash. Monitor the speedometer, tachometer, fuel level, oil pressure, water temperature, and volts all in one place.

- Requires no cutting, drilling or modification to install.
- Monitors speedometer, tachometer, fuel level, oil pressure, water temperature, and volts all in a high resolution and colorful display.
- 12.3" LCD display with four user programmable screens.
- Features high beam & turn signal indicators as well as user selectable warning light.
- Kit includes a wiring harness and sending units for water temperature and oil pressure as well as a joystick for dash customization.
- Adjustable RPM range and displays in imperial or metric measurements.
- Helps protect your vehicle with visual or audible alarms - low fuel level/oil pressure/voltage and high water temperature.
- Speedometer easily calibrates to OEM or aftermarket vehicle speed sensors and the tachometer is capable of calibrating to many engine types.
- Speed sensor not included.

Dakota Digital RTX Gauge Clusters

PART	DESCRIPTION	APPLICATION	REQD	PRICE
37-8870	GAUGE CLUSTER-RTX	CHEVY GMC 73-75	(1)	\$1562.75

RTX Gauge Clusters are focused on retaining the stock look without sacrificing late-model features. Every effort has been made to incorporate OEM design elements regarding the layout, face styling and indicators. A casual glance may dismiss these as original equipment, but once you turn the key and the LED backlighting comes on in your favorite color scheme, all doubts will be removed. A hidden rocker switch provides quick access to all settings and functions.

The digital message center can be configured to display just about any piece of information needed. Over 30 user-selectable LED color options are available with 12 factory preset color themes. Fully lit color needles, back-lighted color faces and a full color message center are dimmable for driving at night. Each analog gauge sweep (except speedometer) contains a red LED indicator for quick indication of a warning condition. Gauge clusters can also be completely configured through Bluetooth with Dakota Digital's Android and Apple free mobile app.

Includes water temp, oil pressure, and speed sensors. Existing fuel sending unit can be used. Detailed installation instructions and operation manual included. Optional expansion accessories add functionality and allow additional gauge readings to be displayed.

1973-89 Classic Instruments Gauge Clusters

7-Year Warranty

Gauge Cluster features a speedometer, tachometer and clock along with fuel, oil, temperature and volt gauges. The all-electric cluster is designed to reuse the factory dash bezel and gear indicator. Zeus Speedometer Technology (ZST) provides calibration at the touch of a button and ensures the smoothest pointer operation without requiring external control boxes. Cluster features bright LED illumination with built-in dimmer control. ZST accepts any speed signal such as a pulse generator, VSS, ECM, or GPS without the need for an additional interface.

1973-89 NVU Performance II Gauge Clusters

Performance II Gauge Clusters are available in white or black and feature blue LED lighting and backlit pointers that are easy to read day or night.

Phoenix Direct-Drive technology brings wiring ease with high-tech, modern elements your truck deserves. Turn signals, hi beam and indicators, set-able odometer mileage, performance timers and sequential shift alerts are all built-in. Add on up to 3 auxiliary inputs and interface with virtually any engine/transmission combination all without the need for additional boxes, modules or drivers!

Direct-Drive wiring reduces wiring time by 75% over a traditional gauge kit, saves time and reduces errors.

Gauge Cluster Kits include programming buttons, water temp, oil pressure and speed senders; work with factory or aftermarket fuel senders, ignition systems, PCMs and more.

Look New Again ... The Easy Way!

Now You Can Be Sure All Your Interior Colors Match

ColorBond permanently changes the color of your interior. Sprays on and dries to the touch in 45 seconds, forming a complete bond in 10 minutes. Original grain pattern is never altered or hidden, no matter how many times ColorBond is applied. Will not crack, flake, peel or rub off from solid or flexible materials because the color becomes part of the surface.

\$21.95
each

Black #37-8375	Blue #37-8382	Burgundy #37-8387
Gray #37-8383	Red #37-8386	Saddle #37-8381

ColorBond can be used on:

- Vinyl
- Leather
- ABS Plastic
- PVC
- Polyurethane
- Polycarbonate
- Lexan
- Acrylic
- Recycled Plastics
- Carpet
- Cloth Upholstery

ColorBond is a semi-gloss finish that is OEM approved, UV stable and colorfast. Each 12 ounce can will cover 7 square feet. ColorBond Prep/Cleaner should be used prior to applying ColorBond.

37-8396 ColorBond Satin Clear Coat provides a protective finish 12 oz Can that won't wash off. Protects against fading, cracking and heat deterioration. \$21.95

37-8395 ColorBond Adhesion Promoter is required for the use of ColorBond on materials such as Polypropylene, Thermoplastic Elastomer, Polyolefin, Fiberglass and metal. 12 oz Can \$21.95

Prep/Cleaner

37-8399 ColorBond Prep/Cleaner is a fast drying, non-solvent, multi-surface cleaner. It cleans and prepares the surface for use of ColorBond. 12 oz Can \$13.95

Exterior Trim Paint

- 37-8361 Satin Black** \$21.95
- 37-8362 Silver** \$21.95
- 37-8363 Yellow** \$19.95

ColorBond Exterior Trim Paint has all the innovative features of ColorBond Interior Paint but is specially formulated to provide a stronger, more durable bond for exterior trim use. Exterior Trim Paint delivers a superior finish to exterior trim plastics and painted metal trim including: bumpers, mirrors, fender flares, wiper arms and window trim. Each 12 ounce can covers 6 square feet. Use ColorBond Adhesion Promoter #37-8395 prior to application for a long-lasting finish.

Spitshine Tire Black and Silver Rally Wheel Paint ... Bring Back the Shine

Before After

37-8370
\$22.95

37-8365
\$21.95

ColorBond Spitshine Tire Black is a specially formulated paint, not a clear silicone dressing, designed to restore a military shine to faded and scuffed tires for a minimum of two months. Spitshine is not greasy or tacky, so it won't attract unsightly dirt and dust. Each 12 ounce can is easy to apply; first, clean tires of any existing dressings, silicones and dirt with ColorBond Prep/Cleaner. Mask the wheel or rim and apply in light coats. Reapply Spitshine Tire Black if tires become scuffed.

Not for use on tires with white lettering or sidewalls.

ColorBond Rally Wheel Paint is a specially formulated acrylic lacquer that provides a brilliant silver finish to the original rally wheels and withstands temperatures up to 250°F. Each 12 ounce can covers 6 square feet. ColorBond Prep/Cleaner should be used prior to applying ColorBond.

Black Underhood Paint

37-8367
Black
\$20.95

Black Underhood Paint's specially formulated acrylic lacquer restores the finish of brackets, core supports, heater boxes and all underhood components. Withstands temperatures up to 250°F but is not designed to be applied to engine, manifolds or headers. 12 ounce can covers 6 square feet. Call or go online and order yours today!

RetroSound Radios ... Original Looks with Modern Features

RetroSound Radios require mounting kits, sold separately.

Each RetroSound Radio looks like the original radio – down to the authentic push-button styling – but is packed with all the features of a modern stereo. Featuring a patented InfiniMount adjustable shaft system, this radio is made to fit virtually any dash opening.

Long Beach Radio

Features built-in Bluetooth technology to stream music or phone calls wirelessly; subwoofer output with variable crossover; high-quality RDS AM/FM tuner; 32,000 color illumination; dual rear-mounted USB and auxiliary ports; high power 25 watts x 4-channels RMS amplifier; front and rear RCA pre-outs; and 30 AM/FM pre-sets. Long Beach radio

is Sirius-XM ready (A Sirius-XM connect tuner and subscription are required. For more information, visit www.siriusxm.com). Available in chrome with chrome push buttons or black with black push buttons. 3-1/2" x 5-1/2" x 1-1/2" installation size.

Mounting kits sold separately.

Note: "A" For models NOT originally equipped with stereo.

Cabs are predrilled from the factory for mounting rear speakers.

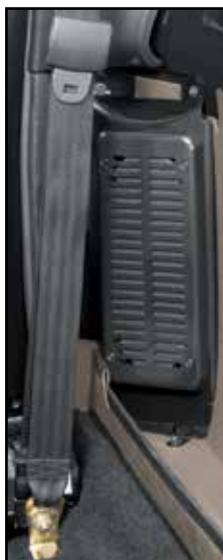

Dual Voice Coil Speaker

1-Year Warranty

38-8565
\$62.99

Dual Voice Coil Speaker looks like original design but features today's cutting edge technology. It provides the best possible sound from the original speaker location and is pre-wired to plug into the radio instantly. It connects both channels of the stereo to one speaker and has 70% more cone area than dual cone speakers, allowing better sound quality especially in lower bass frequencies. Features large cobalt ferrite magnets and foam surrounds and can handle 80 watts of power.

Replacement Dash Speakers

1-Year Warranty

38-8519 Chevy GMC 85-87
38-8519 Crew Cab 88-89
\$49.00

These high-quality Replacement Speakers are designed to replace factory stereo speakers. They feature a high-quality textured paper cone for better sound imaging, a dense foam surround resistant to drying and cracking and a high frequency response and can handle 60 watts of power. They also utilize large cobalt ferrite magnets with galvanized steel mounting brackets. *For use on models originally equipped with factory stereo.*

Dual Front Speakers

1-Year Warranty

38-8517
Chevy GMC
\$47.00

Dual Front Speaker Assembly installs in original single speaker location and is pre-wired to plug instantly to the radio, providing quality stereo sound to your truck. It features large cobalt ferrite magnets, foam surrounds and a high frequency response that can handle 80 watts of power. Base plate is made of duron with coaxial speakers riveted in place and is cloth covered. *For use on models not originally equipped with stereo.*

Full Range Speaker Set

1-Year Warranty

38-8599
\$213.99

Full Range Speaker Set is the perfect upgrade to add more thump behind the seat. Speaker enclosure is wedge shaped, made from MDF and protected by durable carpet. Enclosures are a mirror image of each other with each box containing one 8" woofer with port and a soft dome tweeter for 175 watts power handling, 60-22,000 Hz frequency response and 4 ohms impedance. Acoustic batting is used to increase sound quality and performance. Chrome spring loaded terminals for easy wire installation. Dimensions: 16-1/4" wide, 13-1/2" high, 7-1/2" deep at bottom, 3-3/4" deep at top.

8" Powered Subwoofer

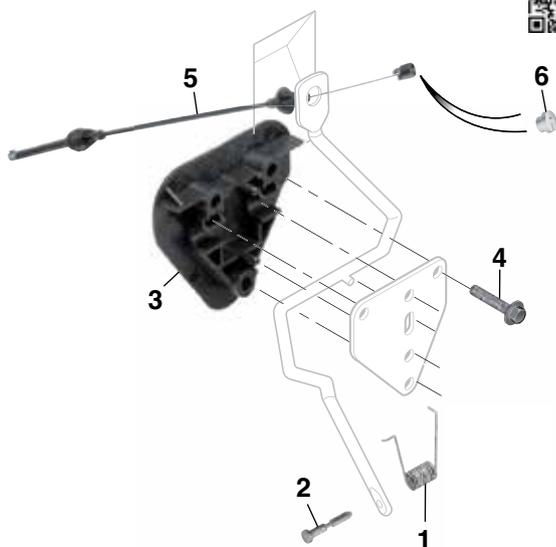

38-8527
\$189.99

This 8-inch powered subwoofer is housed in a rigid die-cast aluminum chassis for better heat dissipation and powered by a built-in 100-watt amplifier with 200 watts max output. Has frequency response of 35-100Hz and total harmonic distortion of 0.08%.

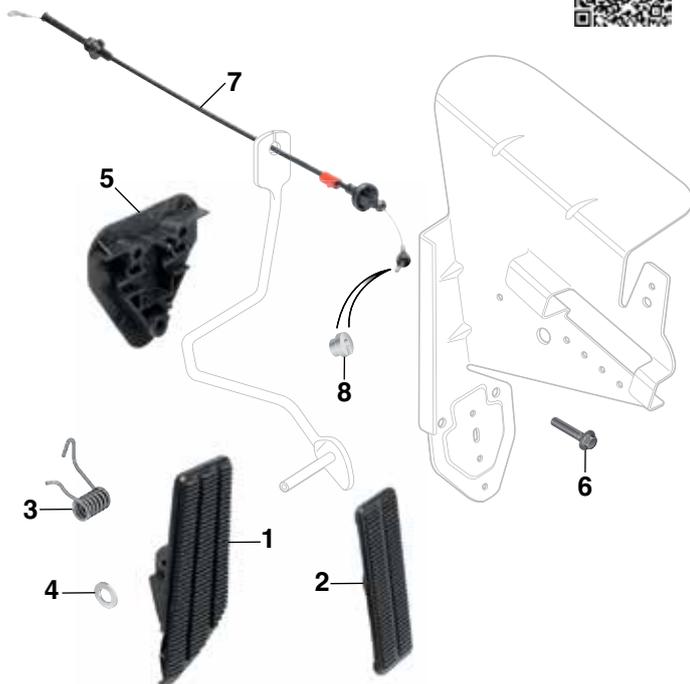

Features include a fully adjustable crossover network between 50-100Hz, independent gain (volume) and 0 or 180-degree phase control. Subwoofer can be connected to radio with low level input RCA connectors or wired directly to radio through the high level input using supplied wiring harness. Includes mounting brackets, wiring harness and wired remote bass control. Compact 9" x 2.75" x 13.75" size weighing 9 lbs.

Gauge Needle Paint is a specially formulated fluorescent orange paint that comes in a .5 oz. bottle and includes an in-cap brush for easy application. No need to mask off any parts or worry about overspray.

PART	DESCRIPTION	PRICE
38-0761	GAUGE NEEDLE PAINT-ORANGE	\$9.95

1973-89 Rear Mount Gas Tank

Replacing a side frame rail gas tank with a rear frame rail mount aluminum tank moves the fuel's weight, adding traction to the rear wheels of the truck. Gas tank could also be used as an auxiliary tank for extra fuel reserve.

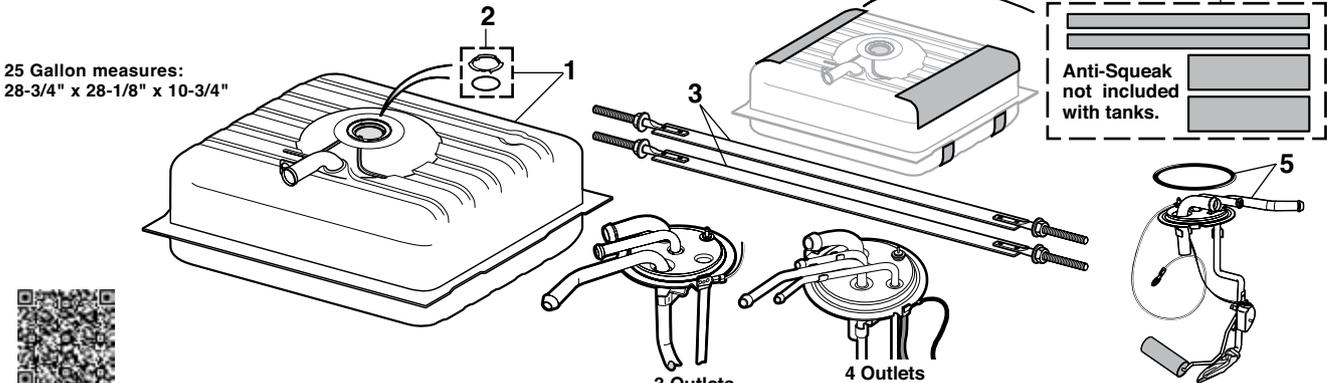

This baffled 18-gallon bed-fill aluminum gas tank is flanged for frame rail mounting and includes fuel line fittings. Additional parts will be necessary to complete the installation. A sending unit, flush-mount fuel filler, filler hose, anti-squeak kit and mounting kit will need to be added; each sold separately. A hole cut in the bed floor for the fuel filler, an extension of the fuel feed line and sending unit wires and relocation of

the frame mounted spare tire will be needed. Flush-mount fuel fillers are available in polished finish with keyed cap or pop-up twist knob. Order the filler hose for connection between the fuel filler and rear mount tank.

1979-89 Gas Tank Filler Door Components

Premium parts are produced from new tooling using 18-gauge, OE quality steel as original for strength and durability to outperform current collision damage quality parts. Professional EDP (Electro Deposit Primer) coating offers a smooth surface ready for prep and paint.

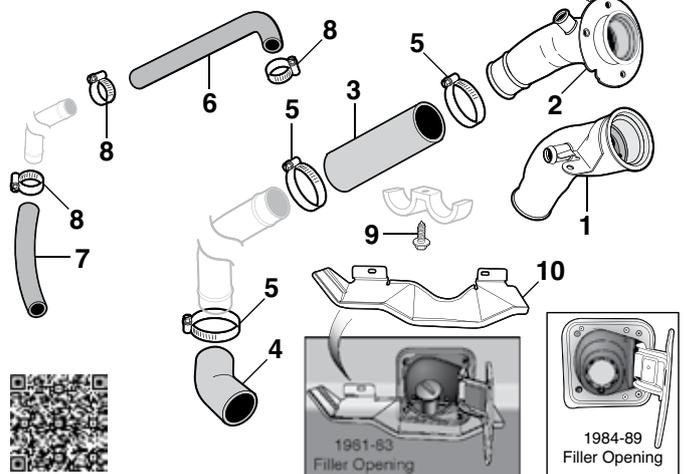

Gas Tank Filler Door replaces standard and auxiliary gas tank doors.

32-5984	EFI GAS TANK KIT-20 GAL	CHEVY GMC 82-87	(1)	\$316.35

Replacement Parts

32-5987	FUEL PUMP HANGER	CHEVY GMC 73-87	(1)	\$75.95
32-5988	SENDING UNIT	CHEVY GMC 73-87	(1)	\$79.95
32-5989	ROLL OVER VALVE	CHEVY GMC 73-87	(1)	\$14.95

This Electronic Fuel Injection (EFI) Gas Tank conversion kit includes all necessary gas tank parts to swap your truck to fuel injection. This tank is the same shape and dimensions as your original tank, so it will mount same as original.

The outside of the tank has been modified to accept a new military style sending unit that frees up the existing sending unit location on the tank. This location now features a baffle to ensure your new fuel pump hanger assembly stays submerged while driving.

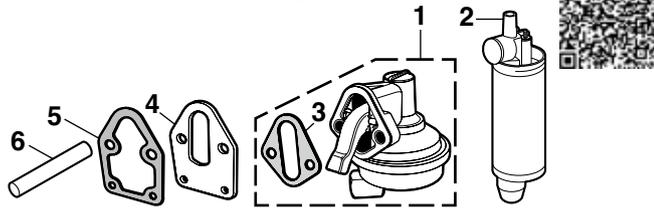

The new fuel pump hanger comes complete with fuel feed, return port, and vent. It includes all necessary hardware for installation.

Simply pick a GM-style fuel pump (not included) that will support your horsepower range and run your fuel feed and return lines.

Holley Sniper 2 EFI and EFI Fuel System Kit See Page 185

NotchHead Line Clamps

NotchHead Line Clamps organize both hard and soft lines and clamp them in place to keep from being chafed on sharp edges or crushed under moving components. Easily secure lines without marring paint. Can also be used as separators for running hoses in parallel by bolting two line clamps together. Flexible lines easily snap in for quick installation and mock-ups. Mounting hardware included in each kit.

Fuel Pump Control Module

Updating your truck to an electric fuel pump? Wiring the pump to an on-off switch or to a simple ignition switched source isn't the best idea. If an accident occurs, your pump would run as long as the switch is active. With the Fuel Pump Control Module, when the key is turned, the fuel pump turns on to prime the system in a three-second cycle, just like modern vehicles. Then the module uses the tach signal so the pump only runs when engine is running, giving you quicker start-ups and improved operating safety.

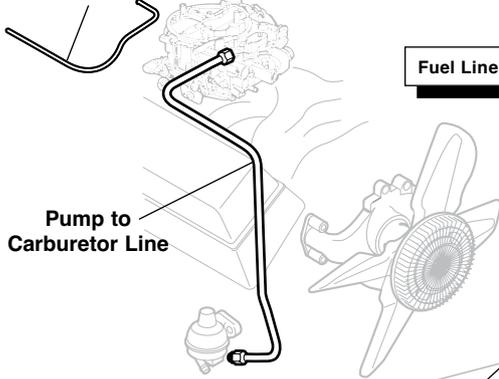

PART	DESCRIPTION	PRICE
36-0906	FUEL PUMP CONTROL MODULE	\$62.95

1973-89 Pre-Bent Original Material Fuel Lines and Vacuum Advance Line

Fuel hoses are not included with fuel lines and must be purchased separately.

Fuel hoses are two feet long and come with four clamps. They must be sized and cut to fit.

* Or ** after the sell price means your order will incur an Oversize Part Charge for each oversized part. * Means extra charge will be \$20. ** Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

Flare Tool Set

SAE Flare Tool Set allows quick repair of Fuel, Brake, Oil and Transmission lines, taking the guesswork out of creating single and double flares. Will work with 3/16", 1/4", 5/16", 3/8" and 1/2" tube. Capable of creating single flares in copper, aluminum and brass tubing, double flares in soft steel tubing.

PART	DESCRIPTION	PRICE
38-1374	SAE FLARE TOOL SET	\$34.95

Mini Tube Cutter

Mini Tube Cutter allows quick and simple cutting of Fuel & Brake lines from 1/8" to 5/8" OD. The compact design ensures easy access to even the tightest of spots. Cutter will cut through Steel, Aluminum, Plastic, Copper and Brass line.

PART	DESCRIPTION	PRICE
38-1372	MINI TUBE CUTTER	\$9.65

1973-89 Performance Sway Bars Give You Bolt-On Handling and Control ... Drive Faster Through Turns with Improved Traction

34-2515	SWAY BAR-REAR 1"	2WD 1/2T	73-87 (1)	\$225.95

* Or ** after the sell price means your order will incur an Oversize Part Charge for each oversized part. * Means extra charge will be \$20. ** Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

Note: "A" For models not originally equipped with factory sway bar.
 "B" For models originally equipped with factory sway bar. Factory sway bar frame brackets must be reused.
 "C" If your truck is equipped with a large muffler tipped up on its side, use #34-2515 for 2WD 1/2 ton trucks.

Improve the handling ability and cornering traction of your vehicle with a Performance Sway Bar. Too much weight transfer in a corner destroys a vehicle's road-holding ability, causing the wheels to "drift" or "creep" sideways in the turn, resulting in poor handling and excessive tire wear.

Sway bars give your vehicle the balance and stability it needs in curves, passing situations and uneven surfaces.

Performance Sway Bars are fully forged from hardened, high carbon steel and powder coated black for durability. Sway bars come with urethane end link and frame bushings. Brackets included for end link style attachment.

Urethane End Link Bushing Set is a replacement for end link style bushings. These non-compressing bushings allow sway bars to exert maximum control and do not collapse like normal rubber bushings.

34-0120

PART	DESCRIPTION	APPLICATION	REQD	PRICE
34-0120	URETHANE END LINK BUSHING SET	SET OF 8	(1)	\$10.95

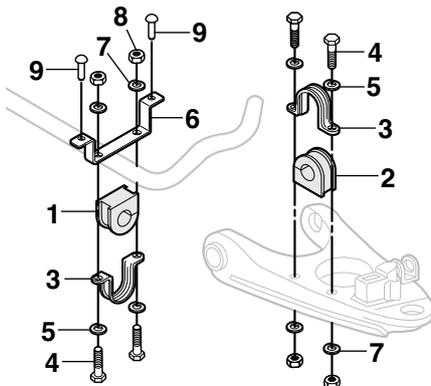

Urethane Frame Bushing Set includes heavy-duty brackets and urethane bushings that reduce "give" compared to rubber bushings. Applicable to almost all sway bars that attach with standard style frame bushings and brackets.

48-2240-C

-T after a part number means that part must be shipped Truck Freight. An additional \$150.00 will be charged to your order for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted. Additional delivery time required.

Coil Spring Compressor

Remove and install coil springs with convenience and safety. Features safety U-bolt set, Acme threaded rods and ductile alloy cast hooks for safe and easy operation.

PART	DESCRIPTION	PRICE
34-2808	COIL SPRING COMPRESSOR	\$54.95

1973-87 Tubular Front Control Arms

Tubular Control Arms are made of fully welded, heavy-wall tubing that is much stronger than the original design. New ball joints, bump stops, preassembled cross shafts and self-lubricating bushings are included. The upper control arms have 5° of additional caster for a more positive road feel and quicker return to center steering. The lower control arms provide increased ground clearance and work with end-link style sway bars. Control arms are a simple bolt-in installation and can be installed with either factory uppers or lowers, or as a full set.

1973-87 3" Body Lift Kit ... Makes Room for Larger Tires

PART	DESCRIPTION	APPLICATION	REQD	PRICE
1973-87 STD Cab 1/2 Ton & 3/4 Ton				
37-6501	3" BODY LIFT KIT W/O DSL STD CAB	FLEETSIDE 73-87	(1)	\$160.00
37-6502	3" BODY LIFT KIT W/O DSL	STEPSIDE 73-87	(1)	\$245.00

Read This: Installation of a body lift will change the center of gravity and the handling characteristics of the vehicle. Because of the higher center of gravity and larger tires, the vehicle will handle and react differently both on and off road. You must drive it safely! Extreme care must be taken to prevent vehicle rollover or loss of control, which could result in serious injury or death. Avoid sudden sharp turns or abrupt maneuvers and always make sure all vehicle occupants have their seat belts fastened.

A Body Lift spaces the body away from the frame to make room for larger tires without altering the suspension. Body Lift Kit includes reinforced nylon spacers, compression tested to 50,000 psi and plated grade 5 hardware. Since the stock suspension is not affected, and larger tires are normally part of the plan, new shocks are recommended.

1973-87 Lowering Kits

Coil Spring Lowering Kit

Kit contains:

- 2" Drop Coil Springs
- 2" Drop Rear Spring Hangers
- 2" Drop Rear Spring Shackles. Requires notching of the cross sill for clearance.

Spindle Lowering Kit

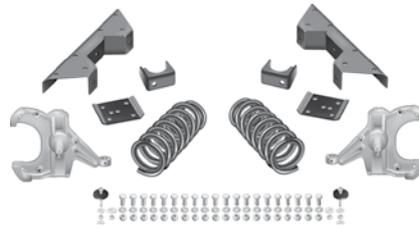

Kit contains:

- 2-1/2" Drop Spindles
- 2" Drop Rear Spring Hangers
- 2" Drop Rear Spring Shackles. Requires notching of the cross sill for clearance.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
1973-87 STD Cab 1/2 Ton				
37-8561	SPINDLE LOWER KIT-2-1/2"/4" "A"	2WD 1/2T 73-87	(1)	\$499.95
37-8562	SPINDLE LOWER KIT-2-1/2"/4" "B"	2WD 1/2T 73-87	(1)	\$499.95

Note: "A" For models equipped with 1" wide front brake rotors.
"B" For models equipped with 1-1/4" wide front brake rotors.

Coil and Spindle Lowering Kit

Kit contains:

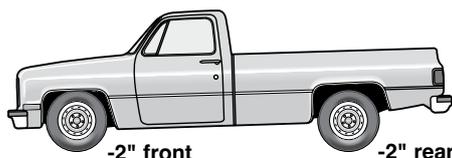

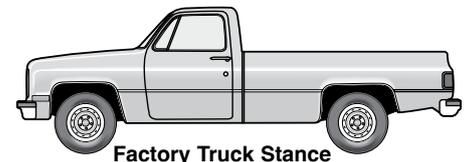

- 2-1/2" Drop Spindles
- 2" Drop Coil Springs
- 6" Drop Axle Flip Kit
- Frame C-Notch Kit

PART	DESCRIPTION	APPLICATION	REQD	PRICE
1973-87 STD Cab 1/2 Ton

Note: "A" For models equipped with 1" wide front brake rotors.
"B" For models equipped with 1-1/4" wide front brake rotors.

3 Ways to Lower Your Truck

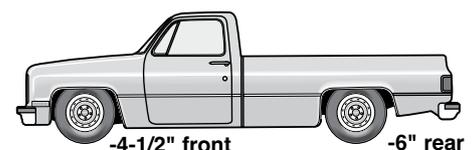

Drop is based on the original factory ride height as measured from the top of the wheel arch to the ground. Original ride height is approximately 2" higher in the rear. The stance (difference in height between the front and rear) is not affected when you lower the front and rear an equal amount. To make your truck look level you need to lower the rear approximately 2" more than the front.

LOWER - Lower your truck with shorter Drop Coil Springs in the front and Spring Shackles in the rear. This is the most economical way to lower your truck.

DROP - Drop the front of your truck with Drop Spindles and the rear with Spring Hangers and Shackles. Drop Spindles are the best way to lower your truck because they do not affect other suspension components. Original front suspension geometry and ride quality are maintained.

SLAM - Combine Drop Spindles and Springs in the front with an Axle Flip Kit and C-Notch in the rear to take your truck as low as possible. We have the parts you need to slam your truck for a great look and a smooth ride. Take your truck to the maximum possible "lowness".

1973-87 Drop Spindle Sets

Drop Spindles are the best way to lower the front of a truck without changing or affecting other components. Original ride quality, wheel offset and suspension geometry are retained. Drop Spindles can be used with Drop Coil Springs for an even lower ride.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
1973-87 STD Cab 1/2 Ton				
37-8505	DROP SPINDLE SET-2-1/2"	"A" 2WD 1/2T 73-87	(1)	\$279.95
37-8506	DROP SPINDLE SET-2-1/2"	"B" 2WD 1/2T 73-87	(1)	\$279.95

Note: "A" Models equipped with 1" wide front brake rotors.
 "B" Models equipped with 1-1/4" wide front brake rotors.

1973-87 Drop Shackles and Spring Hangers

The Drop Shackle Set lowers the rear of your truck 1" or 2". This is the simplest way to lower the rear and is an easy way to make your truck look more level. Requires notching of cross sill for clearance.

The Drop Spring Hanger Set replaces the original front hangers and drops the rear of your truck an additional 2". Combined with the Rear Spring Shackle Set, you can drop the truck a total of 3" to 4". If you are dropping the rear 4" or more then you need shorter rear drop shocks listed below.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
1973-87 STD Cab 1/2 Ton				
37-8526	DROP SHACKLE SET-1"-2"	REAR 2WD 1/2T 73-87	(1)	\$56.95
37-8525	DROP SPRING HANGER SET-2"	REAR 2WD 1/2T 73-87	(1)	\$89.18

1973-87 Drop Shocks ... For Lowered Trucks

If dropping the front of a truck 2" or more with coil springs then shorter front shocks are needed. Drop Spindles do not affect suspension and do not require shorter shocks. If dropping the rear 4" or more then shorter rear shocks are needed.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
1973-87 STD Cab 1/2 Ton				
37-8581	DROP SHOCK-FRONT	2WD 1/2T 73-87	(2)	\$49.95
37-8591	DROP SHOCK-REAR	2WD 1/2T 73-87	(2)	\$54.95

1973-87 Crossmembers ... For Lowered Trucks

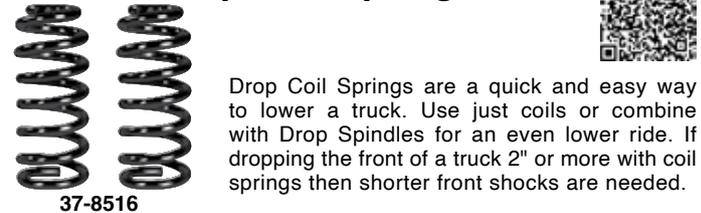

Tubular Transmission Crossmember is designed specifically for lowered trucks with stock or custom exhaust systems. Crossmember bolts into existing holes on lower frame rail and matches up to all factory engine and transmission combinations. Low-profile design provides plenty of room to tuck exhaust up over the crossmember and keep it from hanging below the frame rail. Made with a durable black powder coat finish and includes installation hardware.

Crossmember is lighter and stronger than original and is designed for TH700-R4, 4L60, 4L60E, 4L80, and 4L80E automatic transmissions.

1973-87 STD Cab 1/2 Ton & 3/4 Ton 1973-87 Crew Cab 3/4 Ton				
37-8459	TUBULAR TRANSMISSION CROSSMEMBER	CHEVY GMC 73-87	(1)	\$99.95

1973-87 Drop Coil Spring Sets

Drop Coil Springs are a quick and easy way to lower a truck. Use just coils or combine with Drop Spindles for an even lower ride. If dropping the front of a truck 2" or more with coil springs then shorter front shocks are needed.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
1973-87 STD Cab 1/2 Ton				
37-8515	DROP COIL SPRING SET-1"	FRONT 2WD 1/2T 73-87	(1)	\$182.95
37-8516	DROP COIL SPRING SET-2"	FRONT 2WD 1/2T 73-87	(1)	\$182.95

1973-87 Axle Flip Kit and Frame C-Notch Kit

The Axle Flip Kit repositions the rear leaf spring below the axle for a 6" drop. You will also need the Frame C-Notch Kit for suspension travel. The C-Notch Kit requires cutting and drilling your frame.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
1973-87 STD Cab 1/2 Ton				
37-8535	AXLE FLIP KIT-6" DROP	2WD 1/2T 73-87	(1)	\$139.95

Pitman Arm Puller

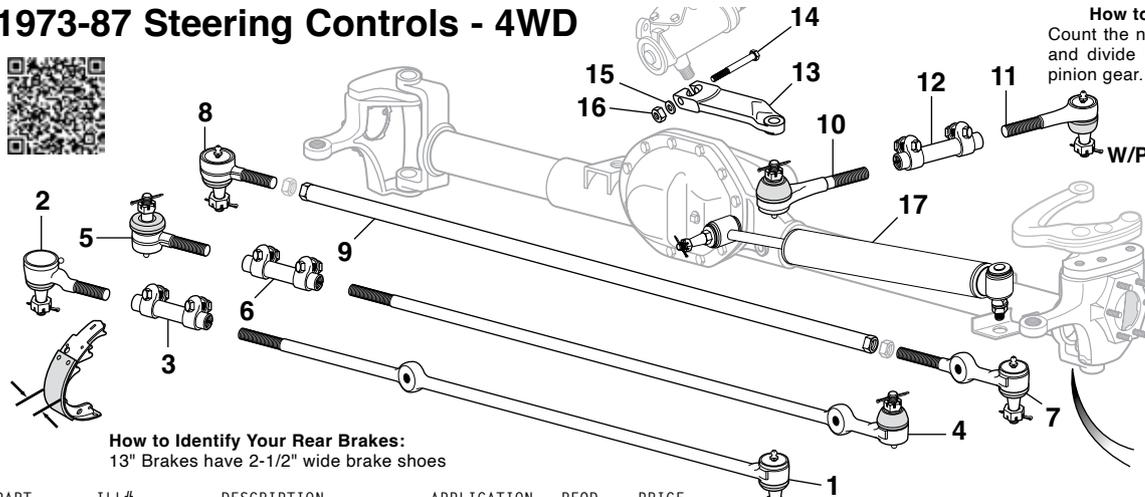

The Pitman Arm Puller features a forged, heat-treated steel yoke that is designed to wrap securely around the pitman arm to allow for easy removal. Heavy-duty center screw has pointed tip and 3/4" hex head. Opening: 1-5/16" (33mm). Depth: 2-1/2" (64mm).

PART	DESCRIPTION	PRICE
34-2202	PITMAN ARM PULLER	\$20.95

A Steering Stabilizer Kit is basically a horizontal shock absorber that helps to stabilize the steering system. The kit not only helps to stabilize the steering, but can also help in the prevention of "Bump Steer", when the steering wheel jerks suddenly as a result of hitting a pothole or object in your path. These kits will also help to reduce normal wear on vital suspension pieces, and make tires last longer. This kit is especially helpful for trucks whose original equipment tires have been replaced by larger or wider ones.

1973-87 Steering Controls - 4WD

How to I.D. Your Rear Axle Ratio:
Count the number of teeth on your ring gear and divide by the number of teeth on your pinion gear. The result is your rear axle ratio.

W/PS = With Power Steering

How to Identify Your Rear Brakes:
13" Brakes have 2-1/2" wide brake shoes

In-Line Power Steering Filter Helps Prevent Power Steering Failure

Power Steering Filter is a serviceable magnetic filter element that helps prevent contamination from dangerous metal particles and installs easily in the return hose of the power steering pump. Measures 1-1/4" diameter x 3" long and fits power steering return hoses with a 3/8" inner diameter. Check yours before ordering. Includes hose clamps and instructions.

1973-89 Heavy-Duty Steering Shaft Assemblies

34-0870

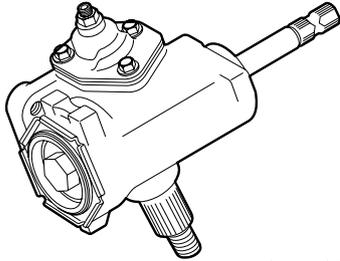

Heavy-Duty Steering Shaft Assemblies are made from chrome moly steel billets and incorporate needle bearings for precise road handling. The universal joint uses sealed, permanently lubricated needle bearings making it maintenance free. This Assembly adds a measure of safety to the steering system with needle bearing U-joints and a telescoping shaft. If there is play in the steering system, your truck will have loose and vague steering. You may feel a looseness when you hit a bump or truck may wander in crosswinds. Order yours today!

1973-76 Quick Ratio Power Steering Gear

Trucks Without Hydraboost or Diesel Engine

34-0748

34-1021

Improve the steering response and handling of your truck with a Quick Ratio Power Steering Gear. The Quick Ratio Gear only requires 3-1/4 turns lock-to-lock compared to the factory gear that requires 4-1/2 turns.

PART	DESCRIPTION	APPLICATION	REQD	PRICE

38-1214	PIVOT PIN REMOVER	\$8.25

1973-79 All New Quick Ratio Power Steering Gear

34-1012

34-0743

The 500 series power steering gearbox is manufactured using all new components and features a 14:1 sport ratio to provide superior directional control, steering response and road feedback. A nice performance upgrade from the stock 800 series power steering box, it requires only 3-1/4 turns lock-to-lock vs. 4-1/2 turns for the stock gearbox. Bolt-on installation works with the stock pitman arm and power steering hoses. Requires use of steering coupler #34-0743, sold separately, see below.

Steering Wheel Puller

38-1199

Steering Wheel Puller features forged, milled yoke and center screw with pointed/removable adaptor. Includes five sets of bolts in standard and metric sizes. Can also be used to remove pulleys, flanges and gears.

PART	DESCRIPTION	PRICE
38-1199	STEERING WHEEL PULLER	\$33.95

1973-87 Power Rack and Pinion Kit

A bolt-on Power Rack and Pinion Steering Kit for a square body truck. Rack mounts using the same mounting locations as original steering gear and idler arm. The rack has been made with the correct ball center dimensions to eliminate bump steer, reduce steering effort, and greatly improve handling and overall feel. Kits are designed to fit trucks with small block Chevy V8 engines without air conditioning.

Kit includes:

- Power Rack and Pinion – with mounting bracket
- Power Steering Pump Kit – includes pump with reservoir, mounting brackets and hoses
- Steering Shaft Kit – includes steering shaft and U-joints
- Mounting hardware and instructions

1973-78 Tilt Wheel Steering Column ... For Your Classic Truck

This is a new adjustable tilt wheel steering column built specifically for your truck, not a universal column that requires modification. Column includes a built-in ignition switch and is available in ready-paint brushed steel or show-quality chrome. Two wiring plugs are included but not hard wired; use the plug that matches your wiring. Installation is easy. The original under dash mount bolts directly to the column, and the original floor support is used. The original turn signal harness plugs into the column. The ignition uses the terminals from your original ignition switch plug. Simply remove the terminals from the original plug, and snap them into the new mating plug included with the column. Column is backed by a 3 year warranty. If you have a 1974-78 truck, your original steering wheel will fit this column. If you have a 1973 truck or want a different steering wheel, you will need one of the steering wheels listed on page 143 and either a #38-1182 or #38-1186 Install Kit, or choose the Chromed Billet Steering Wheel listed on page 142.

A Column Install Kit is required if you are replacing a non-tilt column. You will also need a Shift Indicator listed below.

Paintable Floor Shift

Paintable steering columns are bare steel and must be painted to protect from rust.

A Column Install Kit is recommended if you are adding a tilt-column to your truck. The kit includes a u-joint to connect to the tilt column, a collapsible shaft and a coupler to connect to the steering gear. Order the steering shaft that matches the size and splines on your steering gear.

Note: "A" With 11" rear brakes.
"B" With 11-5/32" rear brakes.
Note: "C" With 13" rear brakes.
"D" With 10-1/2" diameter ring gear.
"E" 2nd design - used with 6-3/8" wide brake drum.
"F" With 9-1/2" diameter ring gear.

1973-89 Rear Drum Brake Components

How to Identify Your Rear Brakes:

- 11" Brakes have 2" wide brake shoes.
- 11-5/32" Brakes have 2-3/4" wide brake shoes.
- 13" Brakes have 2-1/2" wide brake shoes.

Drum Brake Pliers

PART	DESCRIPTION	PRICE
38-1288	DRUM BRAKE PLIERS	\$9.95

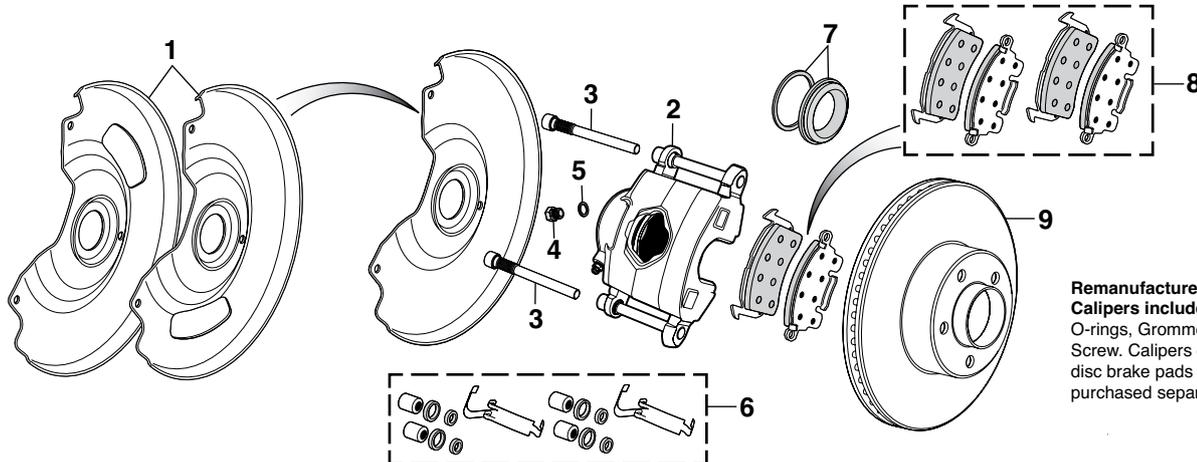

Brake Shoe Adjustment Tool

Brake Shoe Adjustment Tool adjusts the clearance between the brake drum and the brake shoe through the backing plate (providing the manufacturer has made provisions). Simply remove the rubber plug to access the star adjustment bar without having to remove the drum.

1973-87 Rear Disc Brake Conversion Kit

37-8468

Rear Disc Brake Conversion Kit converts rear drums to 12" rotors with single piston calipers. Rear disc brakes improve your truck's braking system and provide reliable, all-weather performance. Kits are available with either standard or cross drilled/slotted rotors for better performance, longer life and cooler braking temperatures.

Rear Disc Brake Kit will work with 15" or larger wheels. Disc Brake Proportioning Valve #37-8546 is also required.

Kit contains 11" standard or performance cross drilled/slotted rotors, single piston calipers with semi-metallic pads, parking brake cable extenders, brake hoses, pre-bent rear brake lines, mounting brackets and hardware.

1973-87 Hydraulic Brake Assist Kit

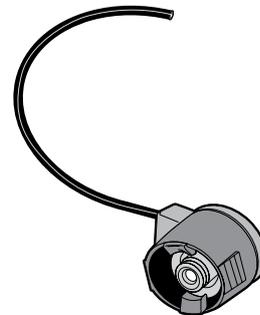

Replace your manual or vacuum-assisted brakes with a powerful and compact modern hydraulic assist unit that puts out 1,800 psi at the wheels for improved braking performance and safety. Kit will work on any motor with a power steering pump, since vacuum to the booster will no longer be required.

Street Beast Kit contains a direct fit hydraulic brake assist unit, master cylinder, firewall mounting bracket, high pressure and return lines, pedal rod and mounting hardware.

1973-89 Stainless Steel Brake Hose Sets

Stainless Steel Brake Hoses feature stainless steel braided hose with factory assembled, zinc-plated fittings. These hoses increase braking performance and reduce pedal travel by eliminating hose expansion common to rubber hoses. Each set comes with all necessary hardware and fittings.

1973-84 Rod End Clutch Linkage Kit

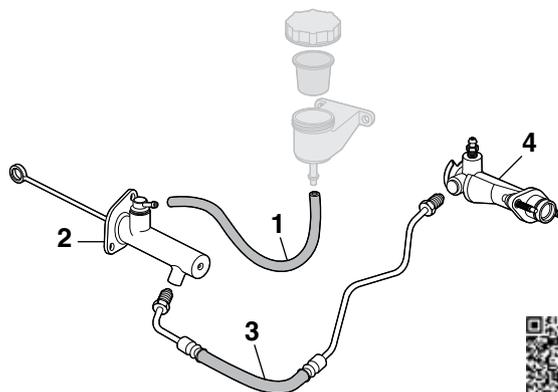

A new Rod End Clutch Linkage Kit replaces a worn factory clutch linkage that has failed due to metal-to-metal contact. Adjustable linkage rods feature a spherical bearing end for smooth and maintenance-free clutch operation. The durable, teflon-lined bearings are self-cleaning and require no lubrication.

For off-road applications, the rod end design allows up to 15 degrees of pivot to accommodate for frame flex, thus reducing the risk of the clutch bellcrank coming off of the factory pivot points. Kit includes upper pushrod, lower pushrod, hardware and instructions. Call or go online and order yours today!

Wheel Bearing Grease Packer

Wheel Bearing Grease Packer quickly flushes out old grease and repacks the bearing with less the mess. The Wheel Bearing Grease Packer works on bearings up to 3 1/2" outer diameter. The grease stays in the tool cavity, not on your hands. To pack a bearing, simply place the bearing on the piston, press down on the cap until the old grease is forced out and the new grease shows on top of the bearing.

1973-89 Auxiliary Transmission Oil Cooler

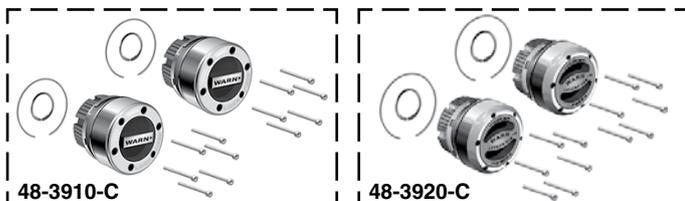

Auxiliary Transmission Oil Cooler reduces the operating temperature and extends the life of a truck's transmission. Pressure tested at 150 PSI with ultrasonically soldered aluminum tube and fin construction for reliability, this transmission cooler is compatible with OEM cooler systems and has an 18,000 lb. GVWR capacity when installed in line with existing transmission cooler. Features 3/8" push-on hose barb connections for quick and easy installation. Core dimensions are 7-1/2" x 8-3/4" x 3/4". Includes mounting hardware, hose and clamps.

Note: "A" Models with automatic locking front hubs require the use of auto to manual hub conversion kit #48-3921-C.

4WD Transfer Case Components

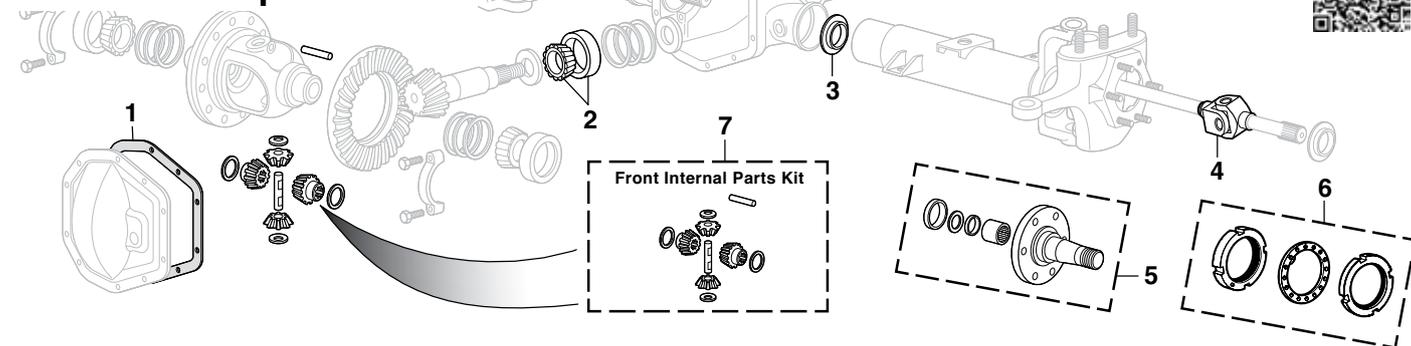

Transfer case chains can stretch due to heavy use or high mileage and cause damage to the transfer case housing increasing the chance of expensive repairs.

Transfer case shift fork pads allow smooth shifting between 2WD and 4WD modes by engaging the shift collars inside the transfer case. Pad failure can prevent shifting between drive modes, possibly damaging the gears inside the transfer case.

1973-80 Front Differential - DANA 44 - 10 Bolt with 8-1/2" Ring

Gear and 26 Spline Pinion

How to ID a DANA-SPICER Axle

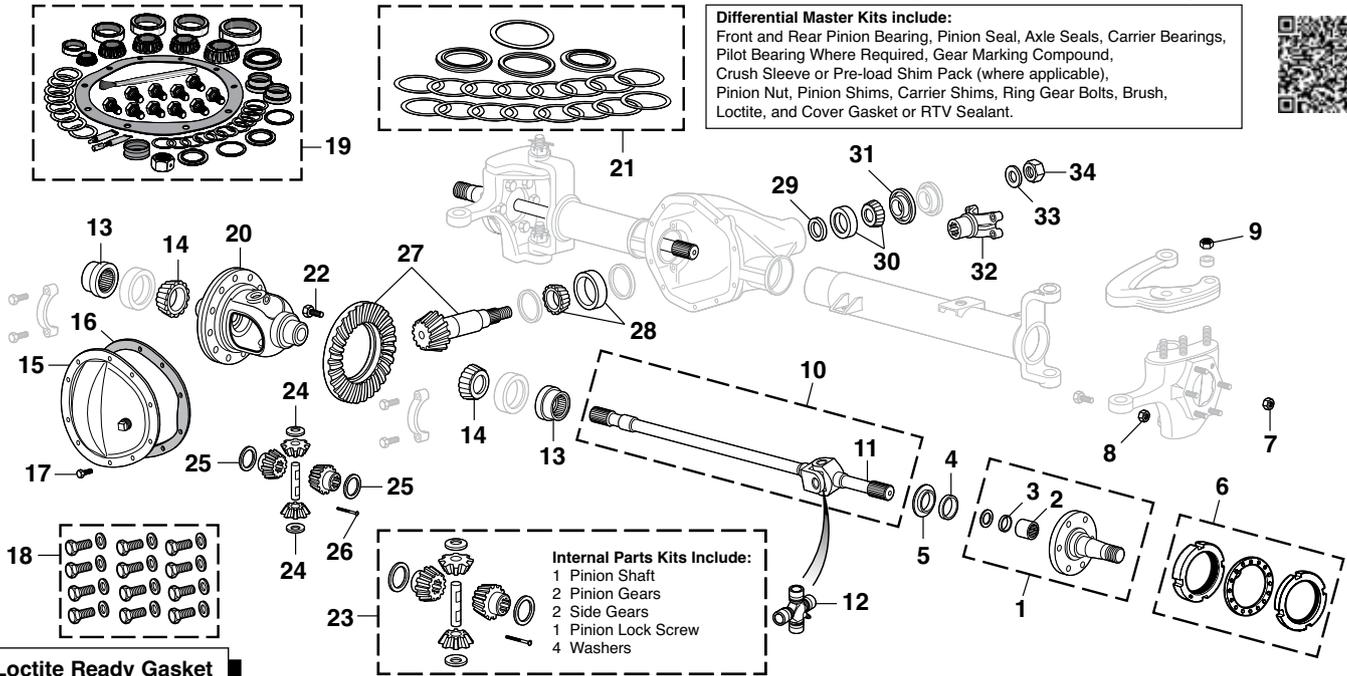

All Spicer axles are identified with a manufacturing date and Bill of Material Number stamped on the right or left hand tube. The axle model number will be cast into one of the webs as shown or it can be on the nose. The Bill of Material Number will always contain six digits followed by a dash number. Bill of Material Numbers are listed where necessary for axle identification. When a Bill of Material Number is listed, it means the item will only fit axles stamped with that Bill of Material Number, e.g. 610320-1.

Kits may differ from illustration depending on your truck's model. Numbers Noted as Being Spicer are Original Equipment Spicer Parts

1973-87 Mile Marker Hub

Mile Marker Hubs have superior quality and are built to exacting standards with improvements over the latest patents to give years of trouble-free service. Limited Lifetime Warranty.

Street Master Hub - Features a contrasting look of chrome with a virtually unbreakable black nylon reinforced fiberglass dial.

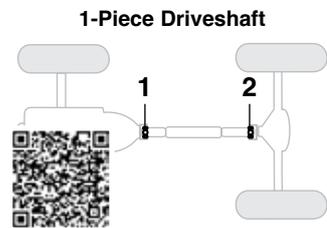

Supreme Hub - Features the latest patented technology and smooth operation making it the ultimate in style and service.

Supreme Stainless Hub - Features a "full metal jacket" cap with stainless steel exposed to the elements. Made using a new process of die-casting aluminum into a pre-made stainless jacket, it provides strength, is lightweight and corrosion resistant.

1973-81 Rear Differential - GM 12 Bolt with 8-7/8" Ring Gear and 30 Spline Pinion

Loctite Ready Gasket See Page 224

- Internal Parts Kits Include:**
- 1 Pinion Shaft
 - 2 Pinion Gears
 - 2 Side Gears
 - 1 Pinion Lock Screw
 - 4 Washers

Kit components may vary from illustration depending on your truck's model.

(8) Differential Master Kits
Differential Master Kits include: Differential Bearing Kit Plus Ring Gear Bolts, Pinion Shims, Carrier Shims.

(9) Differential Bearing Kits
Differential Bearing Kits include: Front and Rear Pinion Bearing, Pinion Seal, Carrier Bearings, Pilot Bearing Where Required, Gear Marking Compound, Crush Sleeve or Pre-load Shim Pack (where applicable), Pinion Nut, Brush, Loctite, and Cover Gasket or RTV Sealant.

How to choose the correct Ring & Pinion: Each ring and pinion gear set sold below is for replacement use only. Gear ratio changes are possible as long as the ratio selected is within the range of ratios available for the carrier. See chart below for carrier/case breaks by differential model.

Truck 12 Bolt
Series 2 = 2.73 - down (smaller numerically)
Series 3 = 2.76 - 3.42
Series 4 = 3.73 - up (larger numerically)

How to I.D. Your Rear Axle Ratio: Count the number of teeth on your ring gear and divide by the number of teeth on your pinion gear. The result is your rear axle ratio.

$43 \div 14 = 3.07$ Rear Axle Ratio

Ring Gear 43 Teeth Pinion Gear 14 Teeth

Transmission Mounts are soft enough for smooth operation on the street, yet strong enough for use at the drag strip, off-road and circle track. #34-0360 has a unique built in safety locking feature, for added confidence. This Transmission Mount will work for trucks that have a single stud that mounts to the crossmember or two studs that mount to the crossmember.

1973-89 Front Engine Mount Insert

Hyper-Flex performance polyurethane mounts insert into existing metal shells. Must reuse existing outer shells and drill out welds or rivets to separate for installation.

#34-0382 is 3 bolt style.

Manifold Vacuum Fittings and Plugs

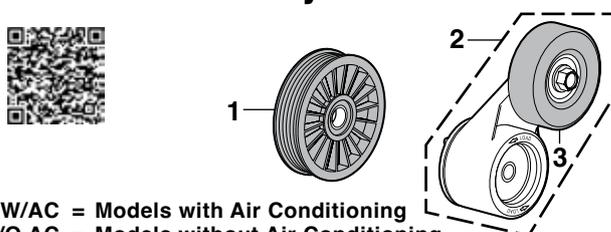

Manifold Vacuum Fittings are used to connect to engine vacuum operated components such as power brake booster, transmission modulator, vacuum advance, HVAC components, etc. These are often overlooked or broken during attempted transfer when swapping engines or intake manifolds. Manifold Vacuum Fittings are available in a 90° or T-style fitting. The 90° fitting has a single 3/8" vacuum port and the T-style fitting has a 3/8" and 1/4" vacuum port. Both styles are available in zinc-plated steel or chrome-plated aluminum.

For those simply needing to plug the vacuum port in the intake manifold, order #30-1434. To plug the water ports in the intake manifold or water pump, order #30-1435.

1973-79 Full-Time to Part-Time 4-Wheel Drive Conversion Kit

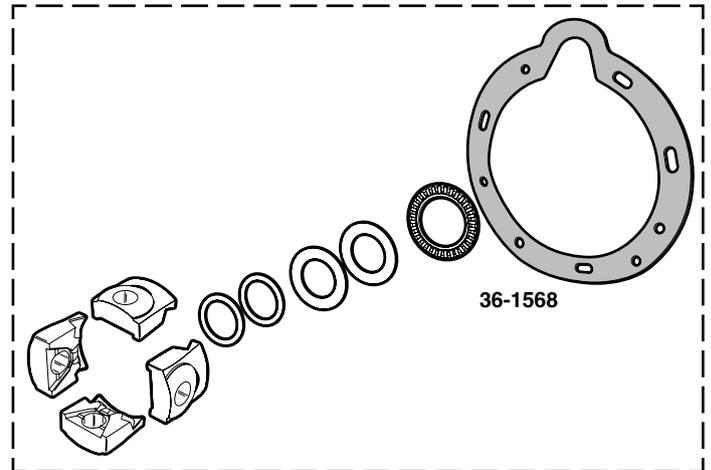

This 4x2 Conversion Kit converts a New Process 203 full-time transfer case to part-time operation. Benefits include reduced front driveline wear, better gas mileage, improved on-road driveability and decreased turning radius. Once installed, the kit provides for low and high range operations in both 2WD and 4WD modes. To ensure proper lubrication of the transfer case, it is recommended the vehicle be driven in 4WD mode for a few miles each week. Installation instructions included. Requires use of locking hub set, sold separately.

A Full-Time to Part-Time Conversion Kit enables the transfer case to operate in the following modes: 4 Lo, 2 Lo, Neutral, 2 Hi (Normal Street Use) and 4 Hi.

W/NP203 = Models with Full-Time 4WD

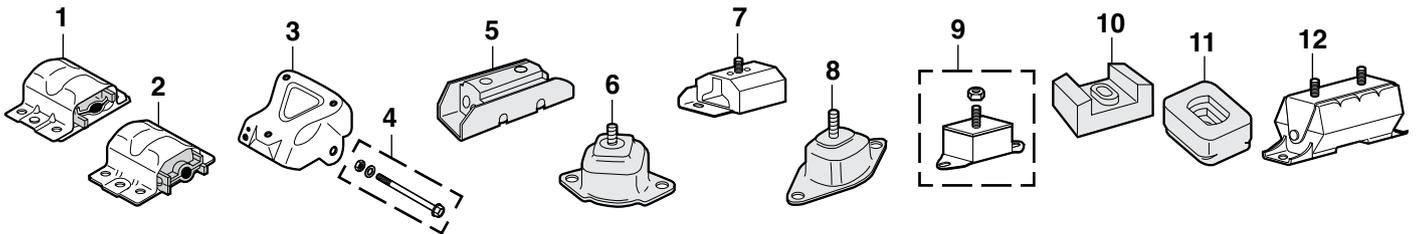

Locking Hubs Required - See Pages 158 & 159

EZ Oil Drain Valve

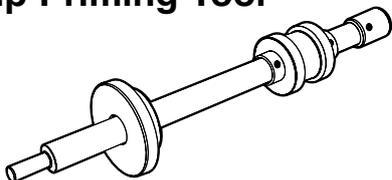

EZ Oil Drain Valve allows quick oil changes with little to no mess. Compact design has no lever to catch on obstacles. Adaptors are not required and easily installs with socket or wrench. Aluminum crush washer (included) ensures tight, leak-free seal.

Simple operation; push in cap, twist to the right and drain. Once drained, push in and twist to left to close. Spring-tensioned, double o-ring seal guarantees a long, leak-free life.

Oil Pump Priming Tool

Before starting a new or rebuilt motor for the first time, it's critical to prime the lubricating system to prevent premature wear. Failure to pressurize the oil could result in a dry start that can cause camshaft, bearing and/or piston ring failure. An Oil Pump Priming Tool makes this process easy — just remove the distributor, insert the priming tool and turn it clockwise with a 3/8" drill. The tool has a machined aluminum collar that simulates the distributor and helps to eliminate damaging side loading of the oil pump drive while priming.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
38-1308	OIL PUMP PRIMING TOOL	V6 V8 CHEVY GMC 73-87	(1)	\$21.95

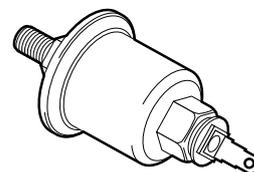

Oil Pan Snap-Ups

Oil Pan Snap-Ups hold the oil pan in position and line up the mounting holes, saving you the trouble of trying to get the bolt threads started to hold the pan up. It saves time and frustration by holding oil pan and gasket in place for quick and easy bolt installation.

Chrome Oil Filter Cover

Installs in seconds; simply slip it over your oil filter and secure it with the set screw on the cover. Fits most oil filters. Be sure to measure your oil filter before ordering. Because of some filter locations, it may be difficult to slip this over an installed oil filter; be sure to check for clearance before ordering.

PART	DESCRIPTION	REQD	PRICE
38-1878	CHROME OIL FILTER COVER 4-1/4"H X 3-11/16"W	(1)	\$16.95

Chrome Air Cleaners

To determine the size of filter you need, measure the outside diameter of the carburetor neck where the filter mounts. 5-1/8" filters fit most popular 4BBL carbs including OE, Edelbrock and Holley. Smaller filters fit 1BBL and 2BBL carbs. Check yours before ordering.

1973-89 LS-Series Engine and Drivetrain Swap Components

Two of the more challenging aspects of an engine swap are engine mounting and exhaust routing. Worry no more.

The Adjustable LS Engine Mount Plate Set and the Hedman LS Swap Headers are designed to work together to eliminate a lot of the guesswork of component selection when installing a Chevy LS1/LS6 or Vortec 4.8/5.3/6.0L V8 into a 2WD truck.

LS Engine Mount Plate Set

The **LS Engine Mount Plate Set** will install an LS engine into a truck that is originally equipped with a small block V8. There are two variations to choose from: one set mounts the LS engine in the original chassis mounting position and the other mounts the engine back 1" for better weight distribution and additional clearance for engine driven accessories. Engine Mount Plates accept small block Chevrolet engine brackets and mounts; sold separately.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
36-6011	PLATE SET 2WD	CHEVY GMC 73-87	(1)	\$79.95
36-6013	PLATE SET 2WD-1" BACK	CHEVY GMC 73-87	(1)	\$114.25

Gauge Sending Unit Adaptor Kit

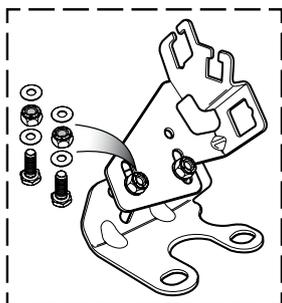

Gauge Sending Unit Adaptor Kit provides the necessary adaptors for connecting gauge sensors when swapping to an LS-Series engine.

Kit contains 12mm x 1.5 to 1/8" NPT adaptor for water temperature; low profile water temperature sensor; 16mm x 1.5 to 1/8" NPT adaptor for oil pressure; resistor for tachometer correction; and detailed instructions.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
34-0344	GAUGE SWAP ADAPTOR KIT	CHEVY GMC 73-87	(1)	\$52.95

1973-87 Throttle Cable Bracket

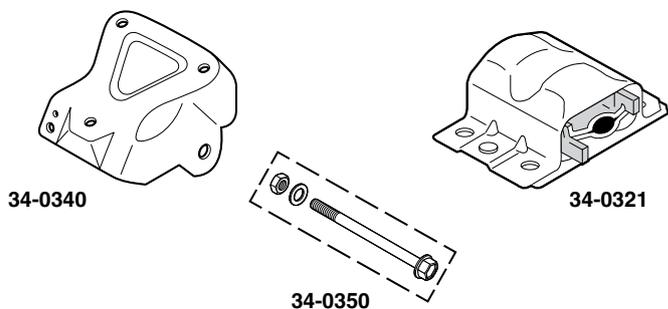

Ideal for use in vehicles that have undergone engine and/or transmission swaps. Fits 1995 and earlier GM small block and big block V8 engines. Includes provisions for throttle, detent/throttle valve and cruise control cables. It mounts using the two rear intake manifold bolts and is adjustable for use with varying cable lengths and intake manifold heights. Call or go online and order yours today!

PART	DESCRIPTION	APPLICATION	REQD	PRICE

1973-87 LS Swap Header Set

Limited-Lifetime Warranty

The **LS Swap Header Set** is available in a black painted, shortie, block-hugger design and an uncoated mid-length design, both allowing for easier installation and exhaust routing.

The block-hugger headers feature 1/4" thick mounting flanges and 1-5/8" primary tubes flowing into a 3" flange type collector. The mid-length headers feature 3/8" thick mounting flanges and 1-3/4" primary tubes flowing into a 3" weld-on ball and socket-type collector. They are supplied complete with mounting hardware, gaskets and installation instructions. O2 sensor bungs are available separately. Not legal in California for use on emission controlled vehicles. 1966 and newer U.S. manufactured California Certified vehicles are considered emission controlled vehicles.

36-6075

36-6078

Fits models with floor shift linkage. Column shift linkage may require modifications for clearance. Installations using 4L80 transmission require bell housing tabs to be trimmed for header clearance.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
36-6075	LS HEADERS BLOCK-HUGGER 2WD	CHEVY GMC 73-87	(1)	\$339.95
36-6015	OXYGEN SENSOR BUNG-WELD ON	CHEVY GMC 73-87	(AR)	\$2.95
36-6078	LS HEADERS MID-LENGTH 2WD	CHEVY GMC 73-87	(1)	\$392.95

1973-87 Crankshaft Spacer and Flexplate

34-0346

34-0347

34-0348

Slotting of torque converter holes may be required on some models.

The crankshaft spacer, flexplate and flexplate bolts allow you to retain your existing automatic transmission when swapping to an LS-series engine. For use with GM Powerglide, TH350, TH400, 200-4R and 700R4 automatic transmissions.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
34-0346	FLEXPLATE	CHEVY GMC 73-87	(1)	\$72.95
34-0347	SPACER-FLEXPLATE	CHEVY GMC 73-87	(1)	\$66.95
34-0348	BOLT-SPACER	CHEVY GMC 73-87	(6)	\$9.25

1973-87 LS Swap Exhaust Manifolds

These cast iron LS Swap Exhaust Manifolds are available in a black painted finish. The low-profile design allows much easier fitment than conventional tubular swap headers, while retaining the ability to support up to 500 horsepower. Exhaust Manifolds come complete with cylinder head to manifold gaskets and exhaust flanges.

Will not fit LS7, LS9 or aftermarket LSX454 engines.

Not legal in California for use on emission controlled vehicles. 1966 and newer U.S. manufactured California Certified vehicles are considered emission controlled vehicles.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
36-6077	LS SWAP MANIFOLDS-BLACK	CHEVY GMC 73-87	(1)	\$399.95

Stand-Alone LS / Vortec Swap Engine Harnesses

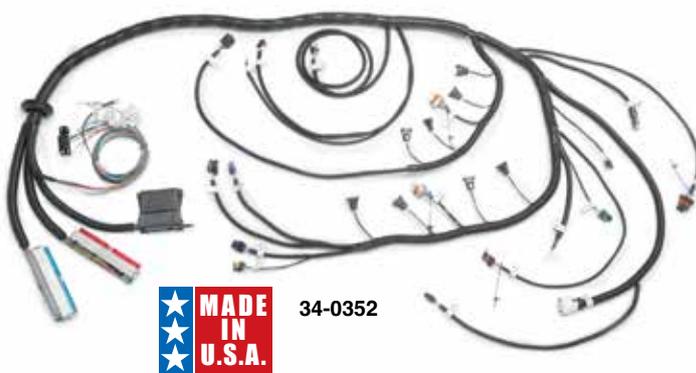

Simplify your 4.8, 5.3, 5.7 or 6.0L swap with a new Stand Alone LS Swap Wiring Harness from BP Automotive. Eliminates hours spent sorting through a used wiring harness or tracking down components to build your own harness.

Every BP harness is color coded to factory colors and includes labeled factory-style connectors, convoluted tubing, firewall grommet and heat wrap where needed. After making a few simple chassis connections, it's truly as easy as laying out the harness and plugging it in. Harnesses do not have provisions for EGR, A.I.R. EVAP or rear O2 sensors.

W/O Trans means without electronic transmission or with manual transmission.

Thermal Spark Plug Boot Sleeve Sets

Thermal Spark Plug Boot Sleeves provide thermal protection against hot exhaust headers. Double-layer gray fiberglass sleeves are non-conductive and can directly contact hot surfaces without harmful effects. Chemically-resistant 3/4" diameter braided sleeves easily slip over any spark plug wire and boot configuration to protect from temperatures up to 1,200°F.

PART	DESCRIPTION	APPLICATION	PRICE
36-6190	SPARK PLUG BOOT SLEEVE SET	2 PIECE	\$10.95
36-6204	SPARK PLUG BOOT SLEEVE SET	4 PIECE	\$22.55
36-6206	SPARK PLUG BOOT SLEEVE SET	6 PIECE	\$32.95
36-6208	SPARK PLUG BOOT SLEEVE SET	8 PIECE	\$42.95

Header Wrap

Increase performance by keeping hot exhaust gasses inside the headers for maximum velocity, improved exhaust scavenging and protecting sensitive engine components from high temperatures.

Header Wrap is able to withstand temperatures up to 1,200°F and is made from vermiculite-coated, textured fiberglass yarn woven into a strong, flexible wrap that can easily be cut with scissors.

Available in 25 or 50-foot rolls of 1" or 2" widths. Two 50-foot rolls of 2" wide are generally enough to wrap standard V8 headers. Stainless steel locking cable ties keep the wrap securely in place. *Header Wrap can void warranty of some headers. Check header manufacturer's warranty before installing.*

Headers with tight bends should use 1" wide wrap for coverage. Overlap wrap 1/4" for optimum heat dissipation.

PART	DESCRIPTION	APPLICATION	PRICE

1973-89 Exhaust Headers ... Bolt On up to 20% Horsepower Increase

Spark Plug Boot Sleeve
Set See Page 176

**Bolt On
Up To
20% MORE
Horsepower**

36-6003

36-6010

Hedman Headers have 3" collector tubes for excellent exhaust flow, reducing back pressure and improving performance. Includes hardware, gaskets and instructions needed for installation. Headers are painted black. Tests have shown a 1.1 second improvement in 0 to 60 second times. Expect up to a 20% increase in horsepower and up to a 10% increase in gas mileage. Call or go online and order yours today!

Increases in fuel efficiency and horsepower are based on a truck operating at factory specifications. Increases may vary according to the condition of your truck and driving habits.

New mid-length headers provide maximum ground clearance for lowered trucks and allow exhaust pipes to be tucked so they don't extend below the frame rails.

When installing headers it will be necessary to cut the existing exhaust pipes to attach the included exhaust reducers. In most cases, new lead pipes will need to be fabricated. For trucks with power steering, a Power Steering Spacer Kit #36-6023 is needed for proper belt alignment.

Not legal in California for use on emission controlled vehicles. 1966 and newer U.S. manufactured California Certified vehicles are considered emission controlled vehicles.

* Or ** after the sell price means your order will incur an Oversize Part Charge for each oversized part. * Means extra charge will be \$20. ** Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

1975-89 Cat-Back Performance Dual Exhaust System with Resonator Tips

Exceptional Sound with Increased Horsepower

36-5553

This system is designed for clearance of an original size spare tire mounted underneath the bed. If you have an oversize spare, it will have to be removed to use this system.

Cat-Back Systems do not fit models equipped with two catalytic converters or single catalytic systems equipped with a catalytic converter that has a 3" diameter exit.

These are longbed systems; front extension pipes will need to be cut to fit shortbeds.

Cat-Back Exhaust Systems have a straight-through design that reduces back pressure for more low-end torque, increased horsepower and better fuel economy. Replaces the stock exhaust system from the catalytic converter back. Manufactured from 16-gauge, mandrel bent aluminized steel, increasing flow up to 20% more than stock. Exhaust systems have 3-1/2" diameter resonator tips that replace the original muffler. Easy bolt-on installation, no welding required. Hangers, fasteners and steel clamps are included. Exhaust exits the rear of truck.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
36-5553	DUAL CAT-BACK SYSTEM W/BLACK POWDER COAT BLUNT TIPS	305-400	75-87 (1)	\$399.95*

* Or ** after the sell price means your order will incur an Oversize Part Charge for each oversized part. * Means extra charge will be \$20. ** Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

With 2-1/4" tailpipes, these Dual Exhaust Systems reduce exhaust restriction and back pressure for increased horsepower and better fuel economy. Complete with bolt-on connectors that adapt to your stock manifolds ... no welding necessary! All parts and hardware for standard installation are included. The standard stock exhaust system of a truck with a 350 engine is a single 2-1/2" pipe. This means that you will be getting an 80% increase in exhaust flow, increasing horsepower by up to 18%, improving fuel efficiency and low-end torque at the same time. Increases in fuel efficiency and horsepower are based on a truck operating at factory specs.

Increases may vary according to the condition of your truck and driving habits. Manufactured from 16-gauge aluminized steel. Lasts up to twice as long as conventional plain steel systems. Made with modern tube benders utilizing mandrel bends, ensuring each bend is smooth flowing, increasing exhaust flow by up to 20% over stock systems. Call or go online and order yours today!

Rear exit exhaust systems are designed for clearance of an original size spare tire mounted underneath the bed. If you have an oversize spare, it will have to be removed to use these systems.

1975-89 Replacement Catalytic Converters

Limited Manufacturer's Warranty

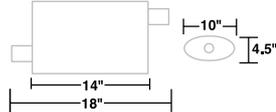

In August 1986 the U.S. Environmental Protection Agency issued strict new guidelines regulating aftermarket Catalytic Converters. Our Replacement Catalytic Converters are designed and manufactured to meet EPA emission requirements proven and tested to be legal for road use in 49 states and Canada and are reasonably priced. Replacement converters are not legal for sale or use in California.

HEDMAN HEDDERS Turbo Mufflers

Turbo Mufflers are specially designed to reduce and control noise without excessively restricting power. They are made from the finest quality materials and can be used as OE replacements as well as on custom exhaust systems.

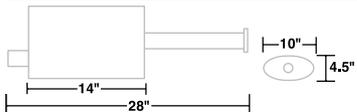

Part #	Inlet	Outlet
36-6030	2"	2"
36-6031	2-1/4"	2-1/4"

36-6030

Turbo Mufflers have a galvanized, double wrapped muffler casing for maximum rust protection. Louvered baffles eliminate vibration and spun end caps provide a gas tight seal. Reverse flow design allows muffler to be inverted.

PART	DESCRIPTION	APPLICATION	PRICE
36-6030	HEDMAN TURBO MUFFLER	2" X 2"	\$107.95
36-6031	HEDMAN TURBO MUFFLER	2-1/4" X 2-1/4"	\$107.95

Part #	Inlet Flange	Inlet	Outlet
36-6040	3" 3-bolt	2-1/4"	2-1/4"

36-6040

Turbo Header Mufflers have the same features as Turbo Mufflers and they have a 3" 3-bolt flange to bolt-up to most headers.

PART	DESCRIPTION	APPLICATION	PRICE
36-6040	HEDMAN TURBO HEADER MUFFLER	2-1/4" X 2-1/4"	\$122.95

Stainless Steel Exhaust Deflector

Exhaust Deflector is made from stainless steel for extended life and includes hardware.

GM Official Licensed Product is purchased from an authorized GM Licensee.

Flo-Tek Aluminum Performance Cylinder Heads

38-4564

Flo-Tek premium alloy castings are inspected and assembled in the USA.

Note: Chevy small block heads are a straight plug design and tapped for use on valve covers with either center bolt or perimeter bolt pattern.

	38-4564
Intake & Exhaust Port Volume	200 / 78cc
Combustion Chamber	64cc
Intake & Exhaust Valve Size	2.02" (+.100") / 1.60" (+.100")
Maximum Valve Lift	.550"
Valve Spring Diameter	1.46"
Rocker Stud Size	3/8"
Guideplates	Yes

With Flo-Tek Aluminum Cylinder Heads, you no longer have to choose between performance, quality and price. Out of the box, these heads deliver exceptional flow numbers – power ideal for the street and strip. Cylinder heads include phosphorous bronze valve guides, high-quality valves with high-nickel valve seats, and premium springs. Heads are drilled and tapped for accessories.

Edelbrock Aluminum Performance Intake Manifolds

38-4572

PERFORMER RPM: A dual-plane, high-rise manifold designed with a 180° firing order produces incredible top-end horsepower while retaining great throttle response. Their larger plenums and runners match high-lift cams, free flowing exhausts and other modifications of a performance engine. Great for street or strip.

RPM AIR-GAP: The RPM Air-Gap offers the same proven qualities of the Performer RPM but with the addition of Edelbrock's patented Air-Gap. The Air-Gap design features an open air space that separates the runners from the hot engine oil for a cooler, denser charge for more power.

	38-4572	38-4573
RPM Range	1,500 - 6,500 RPM	1,500 - 6,500 RPM

#38-4440 - 600 cfm Electric Choke with square flange - Includes timed vacuum ports, EGR and fuel vapor outlet. Metering Jets: Primary .098, Secondary .095; Metering Rods: .073 x .047. Step-up Spring: Orange (5" Hg)

Bolts on and performs right out of the box - a direct replacement for stock Quadrajets. Calibrated to match Edelbrock Manifolds and others of similar design for a no-hassle combination.

These dependable carbs are made of durable components with no plastic parts or power valves to blow. Their two-piece design with no gaskets below the fuel level means no leaks and easy adjustments without taking the carb off of the motor.

Comes with installation kit and instructions. Includes both timed and full vacuum ports for ignition advance.

The Fuel Line and Filter Kit designed for Edelbrock Performer Series carbs includes a chromed hard steel line and Russell fuel filter. The Chromed Steel Fuel Line comes with a 3/8" barbed end and no filter.

#38-4445 Edelbrock Square-bore Carb to Spread-bore Carburetor Adaptor allows installation of the Edelbrock Performer Series carburetor on trucks with the stock spread-bore intake manifold.

1973-78 Performer Carbs require the use of #38-4708 Throttle Bracket. Performer Carb with #38-4692 Performer Manifold or cast iron center bolt head requires the use of #38-4701 EGR Spacer.

Wire Loom Sets

Wire Loom Sets keep ignition wires organized and help protect them from crossfire and excessive engine heat. Separators fit up to 9mm diameter ignition wires and are available in black or chromed plastic. This 6-piece set includes (2) 2-hole separators, (2) 3-hole separators and (2) 4-hole separators.

High Performance Spark Plug Wire Set

36-2871-BL

Upgrade current spark plug wires to these low resistance, high performance 8mm silicone wire sets with eight pre-terminated spark plug boots. Due to varying exhaust manifold and header styles, ignition wires must be cut to length and terminals must be crimped with an ignition wire crimp tool; sold separately. Choose the application based on the spark plug boot configuration (straight, 45° or 90°) that will work best for your truck. Distributor end terminals, boots and detailed instructions are included. Call or go online and order yours today!

1973-74 HEI Conversion Kit ... When It's Better to Be Pointless

36-2880

PART	DESCRIPTION	APPLICATION	REQD	PRICE
36-2880	HEI CONVERSION KIT-STRAIGHT BOOT	V8 73-74	(1)	\$181.95
36-2881	HEI CONVERSION KIT-45DEG BOOTS	V8 73-74	(1)	\$181.95
36-2882	HEI CONVERSION KIT-90DEG BOOTS	V8 73-74	(1)	\$181.95

HEI Conversion Kit converts a mechanical breaker point ignition system into an electronic ignition for improved performance and reliability. The higher voltage output of an HEI distributor allows larger spark plug gaps for added power, smoother throttle response and better fuel economy. Just locate a 12V power source, make the wiring connection to the included HEI powerlead with OE style connector and then plug in to the cap. HEI distributor is ready to install and features heavy-duty cap and rotor with brass terminals; 4 terminal ignition module and a 50,000 volt coil; low resistance, high performance 8mm black silicone ignition wire set with pre-terminated spark plug boots; all necessary distributor end terminals, boots and detailed instructions; and 1 wire hookup to ensure easy installation.

Due to varying exhaust manifold and header styles, ignition wire sets must be cut to length and the distributor end terminals must be crimped with the included ignition wire crimp tool. Choose your application based on the spark plug boot configuration (straight, 45° or 90°) that will work best for your truck. Call or go online and order yours today!

Not legal in California for use on emission controlled vehicles. 1966 and newer U.S. manufactured California Certified vehicles are considered emission controlled vehicles.

Replacement HEI Distributor

1973-86 JET Stage 2 Quadrajet Carburetors

JET Performance starts with a complete disassembly of a hand-selected Quadrajet carburetor core that has been cleaned and inspected. The casting plugs are sealed with epoxy to prevent leak-down into the intake manifold. All circuits are checked for proper sizing and the calibration is checked for proper jets, primary metering rods and secondary metering rods. The carburetor is then reassembled using the highest quality components with a new float, choke pull-off and bronze throttle shaft bushings.

All Stage 2 Quadrajet carburetors undergo the following upgrades: fully recalibrated idle, off idle, main, accelerator pump and high speed circuits to match any modifications done to the engine such as intake manifold, headers, ignition or mild cam change. A Stage 2 carburetor delivers improved idle quality, instant throttle response and maximum torque and horsepower.

1987 Powr-Flo Throttle Body Spacers

Powr-Flo Throttle Body Spacers are CNC-machined from billet aluminum and feature a bore engineered to increase velocity of airflow into intake manifold. This allows more air to reach combustion chamber for denser air charge and increase in fuel efficiency. The result is improved throttle response and power gains in mid-range and upper rpm operating ranges. Includes gaskets, hardware and instructions for a simple, bolt-on installation with no other vehicle modifications required.

1987 JET Fuel Pressure Regulator Kit

JET Performance Adjustable Fuel Pressure Regulator Kit is a direct replacement for factory unit and contains a billet adjustable fuel pressure regulator with a steel insert on adjuster to prevent stripped threads. Includes gaskets and a heavy-duty replacement diaphragm. The fuel pressure regulator kit allows for precise tuning of fuel pressure to accompany other performance modifications such as performance air filters, air intake kits, exhaust system modifications, throttle body spacers, performance camshafts and intake manifold upgrades, etc. Restores lost performance due to a worn out stock regulator. Kit reuses factory spring.

Holley In-Tank Retrofit Fuel Modules

38-4598

With over 100 years of expertise in fuel systems, Holley is unrivaled in the industry. Holley In-Tank Retrofit Fuel Modules allow you to easily convert your truck's original fuel tank into a fuel-injection compatible tank with basic tools and no complexity. The universal, return-style systems fit fuel tanks up to 12" deep, and Holley's brilliant HydraMat (included) virtually eliminates any chance of fuel starvation or poor running conditions due to air entering the fuel system. The innovative billet bracket system ensures a corrosion-free life in a low-profile design that can be rotated to fit in any position needed for your application. Available with either a 255 or 450 lph (liters per hour) fuel pump.

Not legal in California for use on emission controlled vehicles. 1966 and newer U.S. manufactured California Certified vehicles are considered emission controlled vehicles.

Holley Sniper 2 Electronic Fuel Injection System

Holley Sniper 2 EFI is a self-tuning, easy-to-install Electronic Fuel Injection conversion for common 4-barrel (4150 flange) style carburetors. Make your classic truck drive like a modern fuel-injected vehicle, including easy cold starts, smooth drivability, and improved fuel economy!

If you're looking for a high-performance fuel injection system that delivers power, efficiency, and ease of use, look no further than the Sniper 2 EFI.

- Replaces 4-barrel (4150 flange) carburetors.
- Available in black or polished finishes.
- 4 wiring connections required: Battery+, Battery-, Switched Ignition, and RPM.
- Variety of tuning and gauge display interfaces: from a 3.5-inch full color LCD Handheld, 5-inch Digital Dash, or the Bluetooth dongle, which allows you to connect either an iOS or Android based cell phone to the Sniper 2.
- Inputs and outputs consist of: 2x Ground Inputs, 2x Ground Outputs, 1x TPS Output (0-5v), and 1x Tach Output.
- Onboard contactless magnetic TPS sensor ensures an accurate TPS reading.
- The included genuine Bosch LSU 4.9 wideband oxygen sensor provides real-time fuel map learning.
- Redesigned throttle shaft and plate geometry for a smoother throttle feel.
- Supports up to 650hp naturally aspirated or 575hp on boost with four 100 lb/hr injectors.
- Next generation ECU features improved RF noise and interference resistance.
- "Hidden Harness" wiring harnesses exits from the rear of throttle body for a clean appearance.
- Redesigned injector connector for improved reliability.
- Main harness includes plug-and-play HyperSpark distributor support, for integrated timing control, making your ignition setup hassle free.
- Included clamp-on oxygen sensor kit ensures a leak free oxygen sensor installation.
- Integrated transmission kick down provisions for GM TH350/400, 200-4R/700R4 and Ford C4/C6 applications.
- Calibration wizard only requires that you answer a few simple questions about your engine to create a base map and begin self-tuning – No laptop required.

1973-89 Air Conditioning

A/C Hose Assemblies may vary in appearance from illustration depending on your truck's model.

Blower Motor/Fan Note: Replacement blower motors and fans are "Bolt-on" type; the fan is attached to the motor shaft with a nut. Many of the original GM fans and motors were a "Press-on" type and cannot be used with "Bolt-on" fans and motors, both the motor and fan must be replaced if your original configuration was "Press-on". (All replacement motor shafts are 5/16" diameter.)

1973-84 Air Conditioning Compressor Upgrade

Air Conditioning Compressor Upgrade is an all new, bolt-in aluminum 10 cylinder compressor that replaces the cast iron, 6 cylinder axial A6 style compressor originally equipped. Features an aluminum body that is 52% lighter than original material and has a more efficient design that yields less engine drag thus increasing fuel efficiency and improving

engine and cooling system performance. Fits original axial compressor mounting brackets and hose assemblies and is compatible with R12 and R134A refrigerant.

DESCRIPTION APPLICATION REQD PRICE

1973-84 STD Cab 1/2 Ton & 3/4 Ton

---------	---------------------------	-----------------	-----	----------

1973-87 Air Conditioning Systems

32-0561

Increase the cool factor of your truck by installing an A/C System. Kits with compressor are designed for use with small block Chevrolet engines. Order the corresponding compressor mounting bracket and engine pulleys based on water pump length and desired compressor mounting location. Kits supplied without compressor are ideal for vehicles that have swapped engines and/or already have installed an A/C compressor as part of the engine's accessory drive system. All systems are designed for use with R134A refrigerant.

These are complete A/C, heat and defrost systems that are controlled by a custom electronic slide control that fits into the factory dash opening. The evaporator unit is interior mounted under the dash and installs to the firewall. Custom metal block-off plates for the underhood

side of the firewall eliminate the bulky original evaporator/heater box and provide a clean, smooth appearance. A/C and heater fittings pass through the mounting plates with a custom rubber grommet. Condenser assembly attaches to the original mounting locations in the core support. Receiver drier is mounted to the front of condenser with custom tubes designed to fit neatly through the core support to allow for clean, simple hose routing. Step-by-step, fully detailed illustrated instructions included.

Kits for non-A/C cabs include dash vents, dash vent panel and templates for cutting existing instrument bezel and glove box. Kits for factory A/C cabs include duct/vent adaptors to work with existing dash vents.

LWP = Long Water Pump
SWP = Short Water Pump.

1973-89 Radiator

Radiator Core Size: The height and width of the central part of the radiator that consists of parallel rows of tubes and fins.

Transmission Oil Coolers: These radiators are equipped with automatic transmission oil coolers. The oil cooler portion of the radiator is not used on manual transmission trucks.

Rows: The number of parallel rows of tubes in the radiator core.

There are many factors that determine which radiator is used in your vehicle. Measure the tube and fin area of your radiator and match it up to the Radiator Core Size Chart to find out which one you need.

Radiator Part #	Radiator Core Size

Electric Cooling Fan Kit Keeps Your Engine Cool

Electric Cooling Fan and high-performance motor give maximum air delivery while working off the electrical system. Fan blade and shroud are constructed of glass-filled nylon for strength and durability; includes mounting hardware as well as easy-to-follow instructions.

Fan Mounting Bracket Kit is recommended for optimum mounting strength and performance on all electric cooling fans.

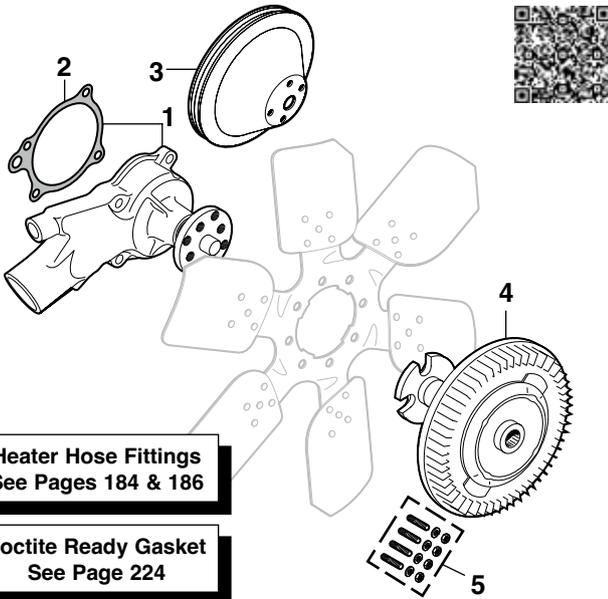

#38-4894 Adjustable Thermostat, sold separately, operates fan only when needed. Adjustable Thermostat is adjustable from 150°-240°F.

Quick Re-Installation Kit contains everything needed to reinstall cooling fan if removed.

1973-89 Dual Electric Cooling Fan Assembly ... For Improved Cooling, Fuel Economy and Power

38-4889

IMPROVES

GAS MILEAGE

Dual Electric Cooling Fan Assembly provides increased horsepower and improved MPG. Electric fans provide increased cooling at idle when needed most and eliminate the draw of a mechanical engine-driven fan. Increased airflow across A/C condenser gives cooler, more consistent A/C temperatures at low engine speeds.

Dual Electric Fan Assemblies have a quiet S-blade design and include a wiring harness, relay, adjustable fan temperature switch, mounting brackets and installation instructions.

38-4898

A/C Cooling Fan Harness activates the electric cooling fan when the A/C compressor clutch is engaged. Kit includes heavy-gauge wire harness, relay, 30 amp fuse, electrical connections and installation instructions.

Part #	Size	Motor	CFM	Amp Draw
38-4889	26"W X 15"H X 3.23"D	2 X 130 watt	2310	14.4
38-4890	26"W X 15"H X 3.62"D	2 X 160 watt	2600	24.8

Cut to Fit Battery Cables

Chevy & GMC

36-2540-BL

36-2540-RD

36-2542-BL

36-2542-RD

Tired of having to use pre-made lengths of battery cables, having way too much left over or just plain too tight after it's installed? Then try these new cut to fit battery cables that you can route as you see fit for a cleaner look, rather than an "it is what it is" look. Simply cut the outer sheath back, solder which terminal you need for your truck (solder pellet and terminals included) and finish the cable off with the shrink tube provided.

These cables are not OEM replacements, they are made for gas applications only and provide one cable with a top or side mount battery end.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
36-2540-BL	CUT TO FIT CABLE-NEGATIVE-60"	TOP POST BLACK	(1)	\$18.95
36-2540-RD	CUT TO FIT CABLE-POSITIVE-60"	TOP POST RED	(1)	\$15.95

36-2542-RD	CUT TO FIT CABLE-POSITIVE-60"	SIDE POST RED	(1)	\$18.95

Battery Disconnect Switches

36-0809

36-0813

36-0814

36-0811

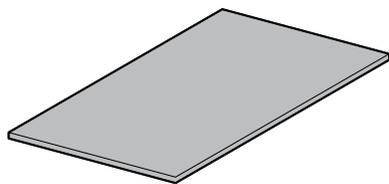

36-0709

36-0909

Battery Disconnect Switches are easy to install and stop battery drain and reduce the risk of fire while your vehicle is parked. With key or knob style disconnects, the key or knob can be totally removed as an additional deterrent against vehicle theft. A 15-amp Bypass Fuse is available to maintain memory on your radio, clock, etc., while your battery is disconnected.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
36-0809	BATTERY DISCONNECT-KNOB STYLE	TOP POST	(1)	\$6.95
36-0813	BATTERY DISCONNECT-KNIFE STYLE	TOP POST	(1)	\$30.95

Ground Straps

Many electrical problems can be traced to poor engine and body ground. Protect yourself from these problems by installing a ground strap between the engine and frame of your truck, this will ensure you have a proper ground for your coil, spark plugs and computer control module. For complete protection, add a ground strap from the frame to the body. Straps are made of tin coated stranded copper braid for durability and are simple to install.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
36-2592	GROUND STRAP-8" ENGINE TO FRAME		(1)	\$6.75
36-2594	GROUND STRAP-12" ENGINE TO FRAME		(1)	\$7.35

Universal Windshield Washer Kit

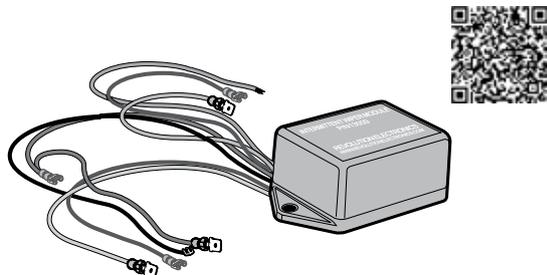

Universal Windshield Washer Kit includes everything needed to replace worn or broken windshield washer system and adapts to any 12V vehicle. Washer bottle holds 1.5L of fluid and fluid levels can easily be read without removing the cap.

36-4083

The kit includes washer bottle with attached cap, washer pump, 6-1/2 feet of washer hose, push-button switch with wire harness, nozzles and T-connector. Mounting brackets with hardware are also included.

PART	DESCRIPTION	REQD	PRICE
36-4083	WINDSHIELD WASHER KIT	(1)	\$17.95

1973-77 Intermittent Wiper Module

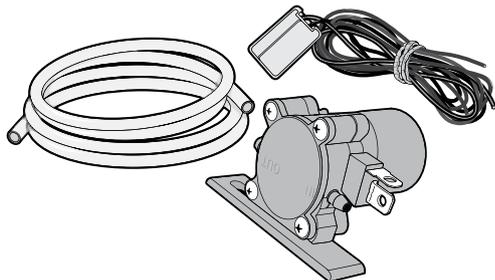

This wiper module provides intermittent settings for 3, 5 and 8 second delay intervals. You can retain original wiper switch and motor for a factory look. Installs between the wiper switch and switch harness; includes detailed instructions for easy installation.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
36-0902	INTERMITTENT WIPER MODULE	"A" CHEVY GMC 73-77	(1)	\$72.95

Note: "A" Fits trucks with two-speed wiper motors.

Universal Windshield Washer Pump

This pump adapts to any 12-volt vehicle and installs in minutes with simple household tools.

Features a gear-driven positive replacement pump to ensure a constant spray under all conditions. All necessary parts and instructions are included with pump.

PART	DESCRIPTION	PRICE
36-4081	UNIVERSAL WASHER PUMP	\$12.45

Heated Windshield Washer Kit

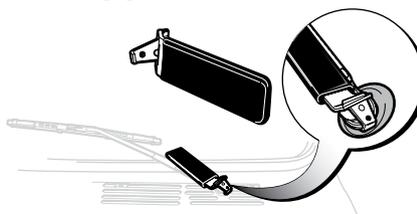

Heat your washer fluid to a temperature of 125-135°F for quick, effortless removal of frost, snow and ice this winter. Provides improved visibility for all driving conditions, while extending the service life of your windshield wipers by minimizing unnecessary wear. Ensures clog-free wiper spray nozzles for consistent spray pattern. Can also be used year-round to remove bird droppings, bugs, grime, road film and streaks.

Installs inline between windshield washer reservoir and spray nozzles. Connects directly to your battery with the included ground cable and fused power cable. Order yours today and see what a difference the Heated Windshield Washer Kit can make! Kit includes mounting bracket, hardware and instructions.

More amperage is needed to run today's modern accessories. High amp alternators are direct replacements for original alternator and will give your truck the charging power it needs.

Features include high output with excellent idle performance; hand-wound, custom-designed stators; gold-plated battery post for better electrical connections; and "Proof of Performance" tag.

Note: "A" Does not fit 1985 models with 454 engine.
"B" Alternator includes a V-Belt pulley. Serpentine pulley must be ordered separately.

**American
Autowire**

1973-87 Universal Wiring Harness ... Finish the Job Right the First Time

Wiring Harness is designed for single headlight systems only. Can be adapted for use on dual headlight models with additional wire and original sockets. Harness will not work with an ammeter gauge. Does not include resistance wire for points ignition systems. For use on carbureted models only.

36-3662

This quality Universal Wiring Harness from American Autowire is a comprehensive approach to rewiring your truck's electrical system. Factory assembled harness features a prewired fuse block with modern blade-type fuses and built-in additional circuits. Wiring Harnesses are available in 13 circuit and 20 circuit assemblies.

Highest quality terminals and color coded and labeled GXL/XLPE wire (cross-linked polyethylene, -60°F to 275°F abrasion resistant) are used. Includes conventional, GM SI internal regulated and 1-wire alternator leads; HEI distributor wiring; GM column mounted ignition switch connectors; headlight and floor mounted dimmer switches. Terminals are provided to make adapting to any aftermarket steering column easier. Standard features include starter wiring, tachometer lead, single headlight plugs, third brake light, horn relay, turn signal and 4-way hazard flashers, fuses, terminal ends and wire ties. Easy-to-follow instructions and schematics are included.

13-Circuit Wiring Harness includes two accessory, air conditioning/heat, brake/courtesy lights, CB radio, cooling fan, gauges/instruments, hazard, headlights, parklights, radio, turn signal and wiper.

20-Circuit Wiring Harness includes all of the features of the 13 Circuit Harness plus clock/lighter, cruise control, dash lights, fuel pump, power locks, power seats and power windows.

**American
Autowire**

1973-87 A Wiring Harness Designed Specifically for Your Classic Truck

Note: This harness will not work on 1973-75 models with factory ammeter. Does not include resistance wire for points ignition systems on 1973-74 models.

36-3670

Wiring harness from American Autowire will rewire truck from headlights to tail lights and is able to add many options and accessories. The new ATO style 18-fuse, 29-circuit fuse panel fits in the original location and requires no modifications to firewall. Easy-to-follow installation manual and mounting hardware are included.

Harness is designed to accommodate truck's original switches and connections and work with many aftermarket components such as custom steering columns, electric fans, gauges, HEI distributors, stereos and more. The instrument cluster wiring disconnects from the main harness to assist service.

36-3671	WIRING HARNESS	CHEVY GMC 83-87	(1)	\$1015.55

Standard features include headlight connectors, parklight connectors, front harness grommets, dome light wiring, underdash courtesy light wiring, original style rear light sockets with weatherproof boots. A/C wiring harness is not included.

14-Circuit Fuse Center Connects to Your Existing Wiring

14-circuit pre-wired fuse block can be connected to existing vehicle wiring or used as a starting point for custom wiring. Factory assembled and completely terminated fuse block includes wiring provisions for starting, air conditioning/heat, brake lights, coil (anti-theft feature), dome light, electric fan, emergency flasher, gauges/dash instruments, headlights, horn, radio (ignition hot), turn signals, wipers and alternator.

Features include blade-type fuses, flasher, horn relay, large selection of terminal ends and anti-theft feature to deter theft. Measures just 4-1/2" x 5". Includes easy-to-follow instructions. Call or go online and order yours today.

WeatherPak Wire Extractor Tools

These WeatherPak Wire Extractor Tools will save you time and hassle when servicing your vehicle's wiring system. Tools are engineered to easily release and remove OEM terminals from their WeatherPak housings, as well as releasing the lock tab on Packard 56 and Pak-Con terminals. This 3-piece set comes with a narrow pick (.05" wide), wide pick (.09") and tubular-shaped extraction tool. Handles are color-coated for easy identification.

PART	DESCRIPTION	REQD	PRICE
38-1296	WEATHERPAK WIRE EXTRACTOR TOOLS	(1)	\$9.95

Wire Terminal Extractor Tools

This Wire Terminal Tool Kit is designed to release and extract wires from terminals without damage. The single blades have a bevel ground onto the end for working on small terminals found on newer vehicles. Red is specially designed for Pak-Con and WeatherPak terminals. Silver has prongs to depress the 'barbs' on conventional terminals. The handle slips over the probes to protect your hand as well as provide extra leverage. This complete kit comes in a sturdy blow-molded case for protection and long life and is a must-have for any do-it-yourselfer's toolbox.

PART	DESCRIPTION	PRICE
38-1297	WIRE TERMINAL TOOL KIT	\$57.95

CirKit Boss Fuse Center

CirKit Boss Fuse Center provides the only available solution in the marketplace where additional electrical circuits are required or accessory equipment requires ignition hot and constant hot capabilities. Safety feature ensures that add-on circuits will only work if ignition key is on. This 3-circuit center features two ignition hot circuits and one constant hot circuit.

PART	DESCRIPTION	PRICE
36-3611	CIRKIT BOSS FUSE CENTER	\$72.95

Crimper Tool Set

This Crimper Tool Set offers a simple way of crimping the ends in your wiring harness project. The single crimper is used for wire sizes ranging from 20 to 14 gauge and the double crimper is used for sizes from 10 to 18 gauge or terminals receiving a two wire connection.

PART	DESCRIPTION	PRICE
36-3777	CRIMPER TOOL SET LARGE-SMALL	\$199.95

Wiring/Tubing Grommet Assortment

This 10-piece assortment of high-quality black rubber grommets protects wires and tubing from chafing when passed through sheet metal holes. Assortment contains: one each of 1/8", 3/8", 1/2", 5/8" I.D. and two each of 3/16", 1/4" and 5/16" I.D. grommets.

PART	DESCRIPTION	PRICE

Split Braid Flex Loom and Wire Loom Installation Tool

36-2600

Unique black flexible braided construction features a 25% edge overlap that will allow for the sharpest of bends without distorting or splitting open. Lateral split design of the flex loom allows for easy installation of multiple wires. Self-wrapping feature ensures the flex loom will return to its original size and shape without the need to use fasteners or tape. Protect your vehicle's wiring, cables, hoses and tubing from unnecessary wear while adding a clean look. Available in three sizes: 1/4", 1/2" or 3/4" diameter.

use fasteners or tape. Protect your vehicle's wiring, cables, hoses and tubing from unnecessary wear while adding a clean look. Available in three sizes: 1/4", 1/2" or 3/4" diameter.

Halogen Blue-Coated Headlight Bulbs

Halogen Bulb Tech Tip: Always handle halogen bulbs by the plastic base to prevent contaminants on the glass from shortening the life of the bulb.

Replace the white halogen bulbs with a halogen blue-coated bulb. Blue-coated bulb creates an intense white light, giving the cool look of HID (high intensity discharge) lighting without the high price; call or go online and order yours today!

LED Bulbs

LED bulbs have no filament, making them less sensitive to vibrations, and illuminate 140 times faster while lasting up to 20,000 hours, much longer than conventional incandescent bulbs. They emit less heat and use only 15% of the energy required by incandescent bulbs, reducing the load placed on a vehicle's electrical system.

Superwhite Bulb Set Produces 30% More Light

Superwhite headlight bulbs produce 30% more light while retaining the street legal wattage. Superwhite bulbs use a proprietary mixture of premium gases that includes Xenon, which cools the light filament, improving the efficiency and light output of the bulb, unlike standard halogen bulbs which use less efficient argon gas.

Superwhite bulbs operate in the Kelvin color temperature range of 4000-4200K, producing a brighter, white light. Traditional halogen bulbs operate at 2600-3000K, emitting a more yellowish appearance. Sold in sets of two. Call or go online and order yours today!

1973-91 Custom Headlights ... Brighter Light for Greater Distance

These OE-quality headlights feature an aluminum die-cast housing with a protective finish coating, making the housing corrosion free. Maximum light output is produced by brighter light focused on the road for a greater distance.

The strong, semi-hardened, crystal clear glass lens does not diffuse the light like traditional headlight lenses. A high-efficiency white halogen 12V 60/55 watt replaceable bulb is included. DOT and SAE approved.

73-80 Round 7" LED Headlights

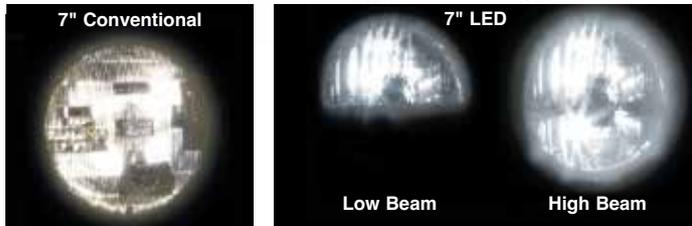

LED headlights dramatically improve safety and visibility with a bright white light output for superior night-time driving. Features a cast aluminum powder-coated housing with an impact-resistant polycarbonate lens and rugged aluminum reflector. Solid state bulb-free design is resistant to damage from shock and vibration.

DOT approved headlight is energy efficient and lasts longer than conventional bulbs.

Headlight Mount may require modification for installation.

Underhood Lamp

36-4503

Underhood Lamp adapts to any 12-volt truck and helps illuminate the engine bay. No need for wiring into a switch, bulb socket base is gravity activated; lamp comes on when hood is raised and goes out when hood is lowered. Mount underneath hood and connect lamp wire to any constant 12-volt source. Moisture proof in-line fuse is integrated into the wire for protection.

Installation Tip: Since all hoods and mounting locations are different, a slight adjustment to mounting bracket may be needed to assure light goes out when hood is closed. After mounting bracket and wires have been installed, apply pressure to the mounting bracket to change the angle as needed for proper operation.

**LED Tailgate Running Light Kit ...
For Added Visibility**

LED Tailgate Running Lights provide added visibility to following vehicles and have a distinctive styling popular for big Dually tailgates. A good alternative location for these lights is above the rear window. Lights are a two-piece design with the lens snapping to a chrome-plated plastic body. Concealed mount screws and neoprene gasket ensure a clean, easy installation. Five light kit comes complete with wire harness and mounting hardware.

36-0222	REPLACEMENT BULB-CLEAR	\$1.25

Driving Light Set

38-1274

Driving lights provide a longer, more focused beam pattern for improved long-range vision. Features include reinforced steel housing with black finish and adjustable chrome mounting bracket with 10mm mounting stud; and state-of-the-art reflector which gives maximum light output from a 4-1/2" diameter light. Lights are complete with illuminated push button switch, 12-volt relay, all necessary wiring, mounting hardware, protective lens covers and high efficiency halogen 12V 55W replaceable bulbs.

For added style, replace the white halogen bulb with a halogen blue-coated bulb. The blue-coated bulb creates an intense white light which gives the cool look of HID (high intensity discharge) lighting without the high price.

1973-80 LED Parklight Sets

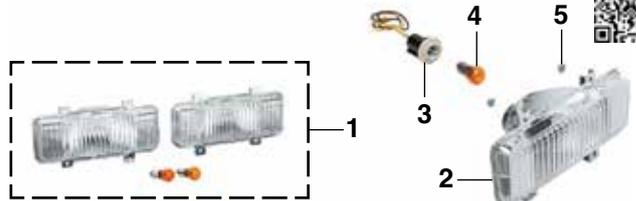

These LED Parklights quickly alert other drivers of your intentions with LED bulbs that illuminate 140 times faster than conventional incandescent bulbs, which translates to a gain of 20+ feet of reaction distance.

Fits models with single round headlights.

1973-87 LED Tail Lights

37-0346

37-0344

55-2657

New technology previously only on high-end luxury cars is now available for trucks! These tail lights quickly alert other drivers of your intentions with LED bulbs that illuminate 140 times faster than conventional incandescent bulbs, which translates to a gain of 20+ feet of reaction distance.

Additional LED benefits:

LED lights have no filament, which means they are less sensitive to vibrations, and they can last up to 20,000 hours. They use only 15% of the energy required by incandescent bulbs, reducing the load on the truck's charging system, and less heat is emitted. An Electronic Flasher is recommended when upgrading to LED bulbs or light assemblies. Due to the lower current draw of LED lighting, the factory flasher may cause inconsistent flash rates, no flash or indicate that a bulb is out.

55-2657 and 55-2658 tail lights require cutting and splicing wiring for installation.

1973-91 Cab Roof Light Kits ... Add Visibility and Big Rig Style

Cab Roof Light Kits are available in amber or clear. Kits meet SAE specifications when used with included bulbs. The two outside lights (clearance lights) and three inner ones (marker lights) give oncoming traffic a visual fix on the truck for additional safety.

All kits come complete with lights, bulbs, wire harness, quick splice connectors and a dash mount panel with toggle switch plus indicator light which allows the Cab Roof Lights to be operated independently of the headlights.

Stacey David's Gearz Project Planning Book

Stacey David's Gearz Project Planning Book is a comprehensive guide to help you plan, budget, document and archive a complete project build from start to finish. This guide will help you stay more organized by planning ahead while keeping you on track and inspiring you to reach your project goals.

Each fill-in-the-blank section allows you to document the specific parts used, part numbers and costs involved. A table of contents breaks down the 22 color-coded sections. The 8 1/2" x 11" wire-bound book has 144 pages with a clear sleeve for receipts and photos.

REAR ASSEMBLY 3-42

Fig. Method One (See Notes)

1. Holding axle or cone with a rag to prevent rotation.
2. Disconnect shock absorber from axle brackets.
3. Disconnect coil spring upper eye at the differential housing (Fig. 3).
4. Remove lower "C" bolts from axle in segment with coil and lower shock.
5. Rotate truck to allow axle assembly and coil from axle to lower shock.
6. Cleanse brake lines in these brake lines that have been used before.
7. Break connecting rod to mounting pin.
8. Remove coil mounts and lower front of track.
9. Assemble complete shaft in front axle differential.
10. Lower vehicle to floor.

Notes: Make an 800 or 820 size adjusting bolt for removal of broken drive cone with a large adjusting bolt assembly, before starting the assembly of the front axle assembly.

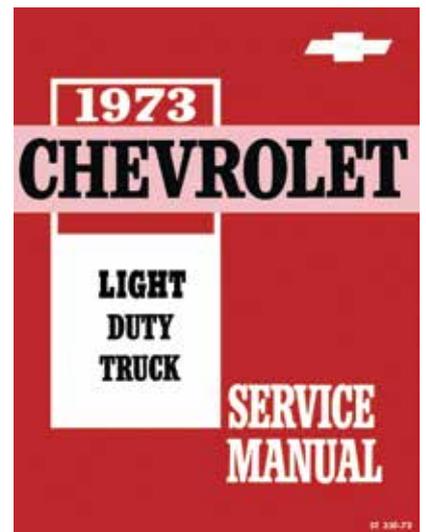

Installation:

1. Place axle in coil spring with in front spring.
2. Insert "C" bolts attaching axle to front spring.
3. Break shock absorber in axle brackets.
4. Connect brake lines in these brake lines that have been used before.
5. Break connecting rod to mounting pin.
6. Assemble complete shaft in front axle differential.
7. Lower vehicle to floor.

CAUTION: Do not install on page 2 of the manual, depending on the pressure obtained in page 2, 3 and 4.

Notes: Make an 800 or 820 size adjusting bolt for removal of broken drive cone with a large adjusting bolt assembly, before starting the assembly of the front axle assembly.

1. Place axle in coil spring with in front spring.
2. Insert "C" bolts attaching axle to front spring.
3. Break shock absorber in axle brackets.
4. Connect brake lines in these brake lines that have been used before.
5. Break connecting rod to mounting pin.
6. Assemble complete shaft in front axle differential.
7. Lower vehicle to floor.

Loctite Ready Gasket makes leak-proof gaskets for temperatures from -75°F to 450°F. Blowout resistant, sensor-safe and ideal for sealing differential covers, valve covers, water pumps, thermostat housings and more. Applies with a standard caulking gun, dries black.

PART	DESCRIPTION	PRICE
38-0767	5 OZ TUBE	\$17.95

Loctite RTV Red is a high-temperature silicone gasket maker and adhesive. It forms a tough, flexible seal that is resistant to most chemicals without hardening, shrinking or cracking. RTV Red has a temperature range of -75°F to +600°F and is sensor-safe.

PART	DESCRIPTION	PRICE
38-0774	2.7 OZ TUBE	\$7.55

Loctite Spray Adhesive dries clear with superior bonding strength. Excels at attaching upholstery cloth, carpeting, insulation and has many other uses. Not recommended for use on headliners.

PART	DESCRIPTION	PRICE
38-0798	10.5 OZ CAN	\$9.75

Loctite Rubberized Undercoating is a heavy-duty undercoating that seals, protects and insulates frames, floor pans, wheel wells and other body panels. Rubberized for maximum durability.

PART	DESCRIPTION	PRICE
38-0766	16 OZ AEROSOL	\$7.55

Permatex Windshield and Glass Sealant is a silicone sealant for windshields, windows and other glass. Flows into leaks like water and dries to form a flexible, tough, clear seal that is resistant to extreme temperatures, vibration and most chemicals.

PART	DESCRIPTION	PRICE
38-0783	1.5 OZ TUBE	\$6.55

Permatex Anti-Seize Lubricant is a highly refined blend of aluminum, copper and graphite lubricants. Use during assembly to prevent galling, corrosion and seizing due to weathering or chemicals. Anti-Seize Lubricant assures easier disassembly and is salt, corrosion and moisture resistant.

PART	DESCRIPTION	PRICE
38-0757	4 OZ JAR	\$8.95

Loctite Copper Anti-Seize Stick protects against high-temp seizing and galling of fasteners up to 1,800°F. Perfect for spark plugs, exhaust manifold bolts, thermostat housing bolts and oxygen sensors.

PART	DESCRIPTION	PRICE
38-0765	20 GRAM STICK	\$6.95

Permatex Weatherstrip Adhesive is a flexible, water-resistant black adhesive for bonding rubber and metal surfaces. Withstands extreme temperatures and resistant to gasoline, antifreeze and most solvents.

PART	DESCRIPTION	PRICE
38-0759	5 OZ TUBE	\$9.95

Permatex Orange Threadlocker is a hybrid formula that combines the strength of Red with the removability of Blue Threadlocker. Orange Threadlocker is ideal for heavy-duty, high vibration applications and can be removed with hand tools without heating.

PART	DESCRIPTION	PRICE
38-0749	.34 OZ TUBE	\$11.95

Loctite Dielectric Grease extends the life of electrical components by protecting them from moisture, salt and corrosion. Also prevents spark plugs from fusing to boots. Use on fuses, battery terminals, ignition components and other electrical connections.

PART	DESCRIPTION	PRICE
38-0770	.33 OZ TUBE	\$4.95

Permatex's Thread Sealant with PTFE (a thermoplastic polymer) is an economical general-purpose fitting sealant. It outperforms traditional tapes and pipe dopes while it seals and resists pressure in air, oil, diesel fuel and hydraulic systems. Thread Sealant remains pliable at higher and lower temperatures.

PART	DESCRIPTION	PRICE
38-0753	4 OZ JAR	\$8.45

Vinyl Edge Sealer Pen is an ultraviolet light-blocking, fast-drying, clear acrylic sealer that protects the edges of vinyl decals, graphics and the ends of adhesive chrome body moldings. It features a wedge applicator tip for a smooth, even application.

PART	DESCRIPTION	PRICE
38-0921	.3 OZ PEN	\$12.95

3M™ Adhesive Tape is a high-performance, double-sided tape for all types of accessories,

both interior and exterior. The tape's foam core allows it to expand and contract with temperature changes and to conform to surface irregularities and gaps. Includes three 1" x 12" strips.

PART	DESCRIPTION	PRICE
38-0788	3M TAPE	\$9.55

Strip Caulk is a non-hardening, non-shrinking waterproof black caulking material with great adhesion

properties and is temperature resistant from -400°F to +500°F. Perfect for sealing around hoses, tubing, wiring or any other hole, joint, seam, void or gap to prevent fumes, moisture or noise penetration. Easy to apply and can be painted immediately. Contains twelve 1/4" x 12" strips.

PART	DESCRIPTION	PRICE
38-0779	STRIP CAULK	\$5.95

Penetrating Graphite Powder is an extra fine graphite powder that is odorless dry powder lubricant, used to guard against sticking, wear, and corrosion. Keeps brake cables, speedometer cables, control cables, hinges, locks and other metal applications working smoothly. Helps prevent corrosion and rust.

PART	DESCRIPTION	PRICE
38-0751	.21 OZ TUBE	\$4.35

Seam Sealer provides superior adhesion and flexibility without cracking or peeling. Its self-leveling qualities make it an excellent sealer on cowl, floor, doors and wheel house seams. Skin time is 1-2 minutes and can be painted in 30-60 minutes. Applies with a standard caulking gun.

PART	DESCRIPTION	PRICE
38-0781	11 OZ TUBE	\$16.95

Paint Protection Film

Made from rugged, clear, 8-mil thick polyurethane paint protection film that features a clear-coat finish for maximum shine and durability. Once applied, this material is virtually invisible yet helps prevent chipping, scratching and scuffing to the vulnerable areas of your vehicle.

Rocker Panel Protection Film

38-9035
\$179.95

Kit contains two 9" wide x 15' rolls, installation squeegees and instructions.

Door Edge Protection Film

38-0308
\$14.55

Contains 3/8" wide x 12' roll and instructions.

Bed Rail Protection Film

38-3199
\$76.75

Kit contains 4" wide x 17' roll, installation squeegee and instructions.

Threshold Protection Film

37-8029
\$21.85

Kit contains 2-3/4" wide x 5' roll, installation squeegee and instructions.

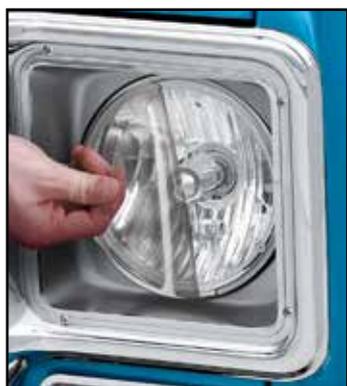

Hood Protection Film

38-0274
\$56.75

Kit contains 12" wide x 6' roll and installation instructions.

1973-88 Headlight Protection Film

36-0317

Headlight Protection Film is made from scratch-resistant, 30-mil thick press-polished PVC material that features a UV inhibitor to prevent shrinking and discoloration, combined with the strongest clear adhesive available for maximum durability and distortion-free light transmission. Proven to withstand a barrage of 1" diameter stones at speeds up to 120 mph with no damage to lens. Kit contains pre-cut film, installation squeegee and instructions. Without cutouts for headlight alignment pins where equipped.

1973-91 LMC Truck Cover ... Who Knew Protecting Your Vehicle's Finish Could Be So Inexpensive!

LMC universal fit truck covers provide protection from the elements and are not affected by temperature extremes. In summer a cover keeps the interior cooler and helps protect from the sun's damaging rays, which can cause fading and deterioration. In winter it can keep the snow and ice off your glass and finish.

Fabric will not stretch, shrink, rot or mildew. Elastic is sewn in front and rear hems to ensure snug fit. Call or go online and order your truck cover today.

Antenna must be removed or an antenna grommet attached to your cover before use. See below for more information on antenna grommet.

LMC 1000
GOOD **\$61.45**
each

For Moderate Weather Conditions

Durable synthetic fabric has the look and feel of more expensive covers. Water resistant, yet breathable and features double-stitched seams for maximum strength.

What You Need to Know About Shipping to APO and FPO Addresses

We are thrilled to be able to ship to those who are serving our country; however, there are some limitations on these shipments. We are unable to ship Truck Freight items to you at this time. All orders will be shipped complete, via Insured Priority Mail through the USPS. Size limitations will apply. Please make sure before you place your order that what you are ordering will be accepted and is deliverable to you in your location.

What You Need to Know About Shipping to Canada

Your orders will be shipped ground "Door to Door," which includes brokerage, duty and tax. Charges will be based on the value of your shipment. Document and preparation fees are included. Please call our customer service line for assistance.

What You Need to Know About Shipping to Alaska, Hawaii and the U.S. Territories

Order Parts Total	Shipping to Alaska, Hawaii & U.S. Territories
Up to \$20.00	\$ 19.95
\$20.01 to 50.00	25.95
50.01 to 75.00	36.95
75.01 to 100.00	41.95

350.01 to 500.00	79.95
500.01 and Up	Quote ❖

❖ You will be contacted with charges.

We reserve the right to ship the most economical way. If you need your order shipped in a specific manner, contact customer service for a customized quote.

Customer Service Line: (800) 222-5664
¿Habla Español? (855) 456-2288

This chart shows shipping charges on orders up to \$500. Parts must be 108 inches or less and weigh 70 pounds or less to qualify. If any part does not meet these qualifications, your order will be delivered by ground for additional charges.

All orders will ship complete. Any additional delivery charges will be added to your total as needed, including Oversize Part charges or overweight charges.

We will need a daytime phone number with your order. If there is a problem with your order, we will attempt to contact you three times. If we are unsuccessful, your order will be cancelled 5 days after that third failed attempt.

What You Need to Know When Shipping Problems Occur

Please open your package(s) as soon as possible and make certain that everything is accounted for and nothing was damaged in shipment. Damaged shipments are the responsibility of the carrier and must be reported to the carrier within 15 days of receipt.

If the package looks damaged when it arrives, open it with the delivery person present, so that they can make an immediate report of damages and discrepancies. If the damage is not obvious at the time of delivery, or if the package was left for you by the shipping company, contact their customer service as soon as possible to make your claim.

On Truck Freight shipments, it is your responsibility to check your order and have the driver note any damage on the freight bill before you sign for your item(s).

Please keep all packing, packaging and contents until your claim has been settled with the shipping company.

What You Need to Know About Shipping Internationally

All international orders ship complete. Shipping charges must be prepaid in U.S. funds. Brokerage, duties, taxes, and fees associated with the order are paid by the customer. We do not accept personal checks on international orders.

Retail Delivery Fee Notice

Some states are starting to pass legislation requiring us to collect a Retail Delivery Fee on shipments. Check with your state's department of revenue for more information.

For those customers living in states that require this, the extra fee will be added to each purchase that is taxable under the state code.

What You Need to Know Before Ordering:

We are excited that you've decided to make us a part of your journey! Whether you are rebuilding from the ground up or just adding some distinctive touches to your vehicle, we are proud to give you a hand.

In addition, we'd love to see what you've been up to with your projects, so please log on to lmctrucklife.com and share your stories and pictures.

Understand that we are not trained automotive technicians. We want you to consult with mechanics regarding technical advice. Technical information is also included in the workshop manuals shown in this catalog. Please take the time to consult these resources if you feel you need to.

On those occasions that we've run out of a part on your order, chances are that it's already on its way to us. These items are listed as backordered on your invoice and will be sent your way as soon as possible. If you're not interested in waiting for your backordered product, just call our customer service line at (800) 222-5664, and we will cancel it and refund any money that has been paid.

You can also write "No Backorders" on your order form before you send it to us, and we'll make sure only to ship the products we currently have in stock.

Some parts have extra charges. Please consult below to make sure you understand these charges and so you aren't surprised later.

Part Number Definitions

- T - After a part number means that part must be shipped Truck Freight. An additional \$150.00 will be charged to your order for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted. Additional delivery time required..
- * - After the sell price means Oversize Part Charge. Your order will incur a charge of \$20.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.
- ** - After the sell price means Oversize Part Charge. Your order will incur a charge of \$50.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery
- R - After a part number means Remanufactured Part. No core charge.

And one more thing, the part our lawyers make us say: We reserve the right to refuse service or shipment to anyone. We reserve the right to collect a service charge of \$20 for a returned check and to hold any shipments until the fee is collected.

Thank you for your support. Best of luck with all your projects!

What You Need to Know Before Returning:

If only we lived in a perfect world! Unfortunately, we don't, and things can go wrong. When that happens, we do our best to try to make things right again. But we need your help as well.

All returns must be in like new condition and in the original packaging. Please include a copy of your invoice, as that will make the process quick and easy.

We refund your payment the same way you paid. Refunds of less than \$1 will not be made except by customer request.

We can't be responsible for damages, so please package your returned items carefully.

If you can ship the item back to us ground or USPS within the 48 contiguous United States, you don't need to call for authorization. Just send it to us at:

15450 W. 108th St. Lenexa, KS 66219

If we shipped you the wrong item, send it back, and we'll send the right item and reimburse you the ground rate for your return.

We can't accept anything that has been installed (unsuccessful attempts do count), disassembled, drilled, welded, cut, painted, or modified in any way, so please make sure to check and doublecheck the fit before starting any work.

If you are returning a kit, it needs to contain all the parts you received. No partial kits may be returned.

Electronic media (CDs, DVDs) cannot be refunded once they are opened. However, if it is not working properly, it can be exchanged for the same part number.

Please call our customer service line for a return authorization if your part was delivered outside of the 48 contiguous United States.

If you want to return something you bought over a year ago, please call our customer service line for return authorization.

You must call Customer Service when returning a Truck Freight item.

Customer Service Line: (800) 222-5664

¿Habla Español? (855) 456-2288

A 20% non-refundable restocking fee will be added to anything that's over a year old (unless the extended manufacturer warranty is still in effect, of course) as well as to any unauthorized Truck Freight returns.

And the legal part again: We have the right to refuse any return we deem unfit for resale. We also have the right to refuse any shipments where the shipping charges, duties, customs, etc., are not prepaid.

California Prop 65 Warning

WARNING: This product can expose you to chemicals including lead, which is known to the State of California to cause cancer. For more information, go to www.p65warnings.ca.gov.

ADVERTENCIA: Este producto puede exponerlo a sustancias químicas, incluido el níquel reconocido por el estado de California como causante de cáncer. Para obtener más información, visite www.p65warnings.ca.gov.

Gift Cards

- Gift Cards are the perfect gift to ensure you are giving exactly what they want!
- Gift Cards don't expire.
- Orders must be pre-paid. Orders received before 3:00 p.m. Central Time will ship same day.
- Gift Cards can now be redeemed through the mail or by phone.

Managed To Keep It Through Hard Times

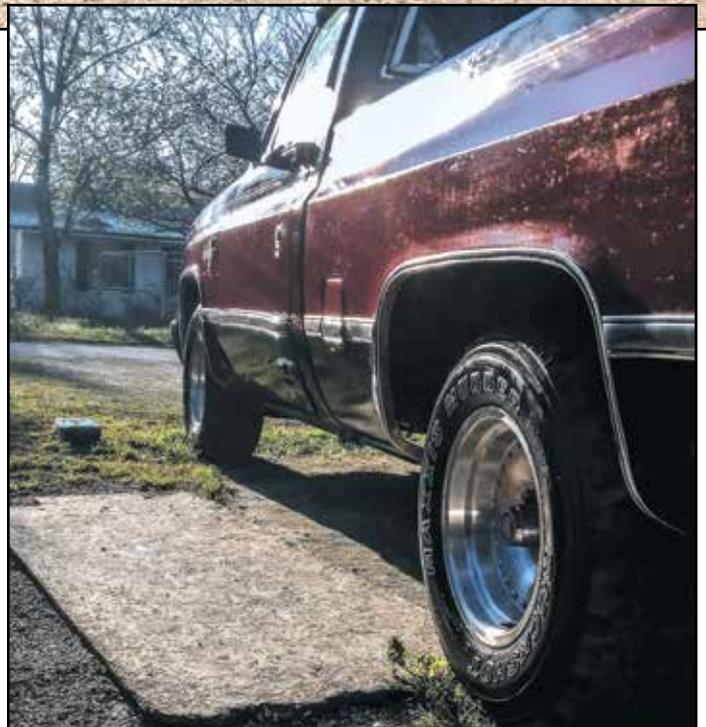

Robert Rouse and His 1984 Chevy Silverado

I bought the truck in '93 from the original owner with some help from my dad. It's a custom order third generation Chevy Silverado. It's mostly all original except the motor, wheels and pipes. Those I put on it after I bought it.

It came with dual exhaust, but it wasn't loud enough for me. So I put 12 inch glass packs and 24 inch cannons on it, which are still on it today. Then I replaced the factory rally rims with aluminum Center Line wheels. It's always had a 305 engine with Quadrajete 4 barrel carburetor. So that's what I put back in it.

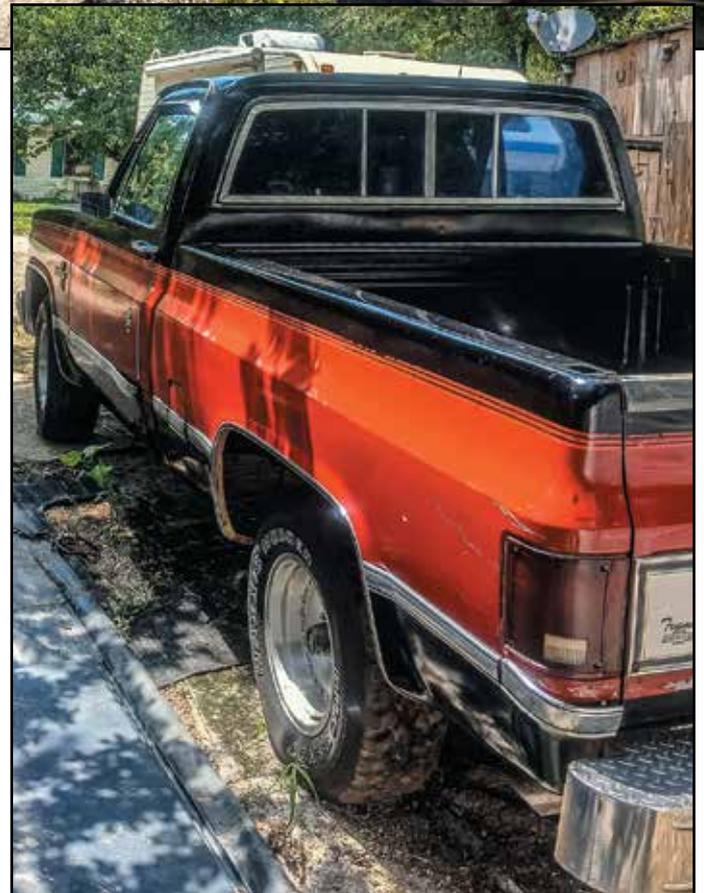

I could have sold it a million times, but I managed to keep it even though I went through a lot of hard times. It's never been wrecked or anything else.

I have 2 people who made it possible for me to have the truck. Robert Rouse, my daddy. If not for him, I wouldn't have been able to buy it. And Louis Weaver. If not for him, I wouldn't still have it.
