Ordering & Shipping

Ordering

Phone Orders - Phone orders and questions are always welcome. Please have the Part # ready to save time. **After Hours Order Line** - If you call after store hours (**Monday through Friday 9-5:30pm Sat. 9-Noon**) you can leave your order as a phone message. Leave your **Credit Card** information.

Mail Orders

Ordering from our catalog is simple. Just send the enclosed order form along with your payment to:

Classic Parts of America
1 Chevy Duty Drive,
Kansas City, MO 64150

Online Orders

You can use our online store to order your parts. Just go to www.ClassicParts.com, find the items you want, and place them in the shopping cart. The parts will be delivered to your shipping address.

Shipping

(OS) Oversized - Please call for approximate cost. These items require additional handling or may need to be shipped Truckline. **US Orders - \$9.95 minimum**

Fitment

Many parts arfor 1/2 ton only unless otherwise specified. Please inquire about fitment for 3/4 ton trucks and up.

Foreign Orders

We do ship foreign orders. Call for approximate shipping cost.

Prices

Prices listed are each unless otherwise specified. Also, prices are subject to change without notice.

Payment

Money Orders, Discover, American Express, MasterCard and Visa are accepted. Personal checks are welcome and require a drivers license number for processing, but please expect a delay for bank clearance.

Sales Tax

If your order is shipping to a location in the state of Missouri, you will be charged Missouri state sales tax at the current rate of 6.6. Due to the June 21st, 2018 Supreme Court ruling that allows states to require online retailers to collect internet sales taxes, we may be required to collect state sales tax for the following states, AL, CA, CT, CO, GA, IL, IN, IA, KY, LA, ME, MD, MI, MN, MS, NE, NV, NJ, NY, NC, ND, OH, OK, PA, RI, SC, SD, TN, TX, UT, VT, WA, WV, WI & WY.

Damages & Shortages

If parts are damaged in shipping, please notify Classic Parts as soon as possible so that we can take care of the claim. Shortages & damaged merchandise must be reported within **5 days**.

Returns

The returned item should be in the original condition and you must call us for an **RMA# (Return Authorization Number)**. Please include reason for return and a copy of the invoice with the returned item. Returns must be received within **30 days**. We will not accept returns without a Return Authorization Number.

Drop-Shipped (DS) products will be subject to a **20%** restocking fee. Some items in the catalog may be drop-shipped, but are not indicated as such. Classic Parts of America reserves the right to add this charge on any drop-shipped item that is returned.

NON-RETURNABLE ITEMS

The following items **may not** be returned for refund or credit: Carburetor kits, Books, Literature, Decals, Electrical items, and all **Special Order** items. Should you receive a defective item, we will be happy to replace it.

Warranty

The following is made in lieu of all warranties expressed or implied. Seller's & manufacturer's only obligation shall be to replace such quantity of the product proved to be defective. Neither seller nor manufacturer shall be liable for any loss, injury or damage, direct or consequential arising out of the use of or the inabilities of the product. After use, the user shall assume all risk and liability whatsoever in connection there within.

Drop-shipped Items

Please allow additional time on all drop-shipped items as the time differs depending on the supplier. There is a 20% restocking fee on drop-ship returns.

Shipping Rates

Within the USA, shipping costs are calculated based on the dollar value of your order and the shipping method you choose. There is an \$9.95 minimum shipping charge. Orders must ship by "ground" service within the 48 contiguous US States. (This excludes Alaska, Hawaii, and Puerto Rico. Normal carrier rates apply.) Domestic Air and International service is not included... normal carrier rates apply. Some of our items are oversized and are subject to additional shipping fees. This fee varies based on the individual product and it's size. These additional shipping fees will be added to our Flat Rate Shipping. *Shipping charges are subject to change.

Order Total From \$	Order Total To \$	Shipping Charge
\$0.00	\$24.99	\$9.95
\$25.00	\$74.99	\$12.95
\$75.00	\$149.99	\$14.95
\$150.00	\$249.99	\$19.95
\$250.00	\$349.99	\$24.95
\$350.00	\$449.99	\$27.95
\$450.00	\$549.99	\$29.95
\$550.00	\$749.99	\$39.95
\$750.00	\$999.99	\$49.95
\$1,000.00	\$1,999.99	\$79.95
\$2,000.00	and Up	\$99.95

* OS (Oversized), AH (Additional Handling), or Truckline items such as, but not limited to; Tailgates, Bumpers, Fenders, Grills, Bed wood, Bed strips, Hoods, etc...will incur an additional product specific shipping charge due to their size and/or weight. Orders that will be shipped outside of the 48 contiguous states, (Alaska, Hawaii, Puerto Rico and all other Countries including Canada) do not qualify for "Flat Rate Shipping". Shipping charges will be calculated based upon Ground or Truckline Freight actual rates and the ship to zip code for those items only. Please contact us regarding shipping for OS, AH, or Truckline items. (1-800-741-1678)

Please note: All orders are subject to shipping charges verification before processing.

--------	------	----------

Blazer & Jimmy Limited Edition Extra

Most SUVs were based on existing truck chassis with the result that early examples were pretty basic but were strong and powerful and soon became symbols of a new lifestyle. One of the first in the market was the Blazer which quickly established itself as one of the biggest selling vehicles in North America because of its go-anywhere capabilities and roominess. The other plus was a range of accessories such as airconditioning, automatic transmission, carpets, etc. The Blazer soon became a symbol of a new breed of buyer in North America as it was a big seller for GM and generated huge profit per unit. Large interest clubs have been formed by people who enjoy getting away and out into remote areas of the country where they can exploit the off-road capabilities of the Blazer to the fullest extent.

Bed Side Panel

(*Additional shipping charges will apply.)

(TRK) (Oversize item-Inquire for approx. shipping costs, ships truckline.)

Stamped steel, proper gauge and bends, as original. Complete with stake pockets & angle strips welded in place. Ready for paint & installation. Consider all the time and expense involved in repairing your old bedsides and you'll agree that new is the only way to go. Shortstep bedsides come with the fender holes pre-drilled. On fleetside bedsides, no hole, round hole and square hole refers to the style of gas tank filler hole in bedside. Shortbed is 6½' bed. Longbed is 8' bed.

Bed Parts & Tailgates

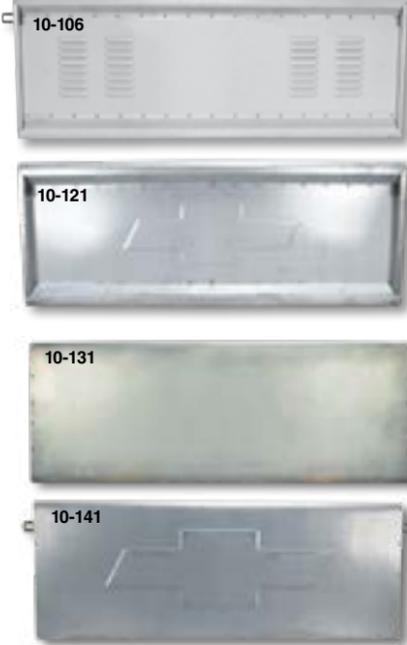

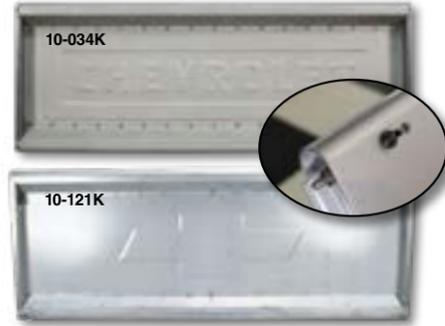

Embossed Tailgate with Latches & Links

(*Additional shipping charges will apply) (OS) (Inquire for approximate shipping charges)

Stamped steel with correct bends, welds & lettering as original. This is usually the most damaged part of a truck & the most difficult to repair. This is a complete tailgate, not just a cover. Available for stepside beds only. The latches are inside the tailgate with only the knob visible on the inside. This tailgate is perfect for those who want the traditional tailgate without the chains, which are noisy and sometimes damage the paint finish. Included with the tailgate is a customizing kit to convert stock bed sides to work with the hidden latches and links.

Door Panels

Door Panels

New door panels correctly embossed. See the following descriptions for the various types and styles available. Most door panels listed below are the panels only. You will need to reuse your old trim, armrests and other attachments or purchase new ones if available.

REPRO, Silverado, Cheyenne, High Sierra or Sierra Classic Models

These style panels are for deluxe model trucks with trim, woodgrain, carpet, etc. on panels. Prices for panels only, no trim. Paint as required to match your interior. Reproduction. Like original.

- 19-225B (77-80)Black\$209.95pr
- 19-225LR (77-80)Red\$229.95pr
- 19-225DB (77-80)Dark Blue\$229.95pr
- 19-225S (77-80)Saddle\$249.95pr
- 19-225G (77-80)Gray\$249.95pr

REPLACEMENT - All Models

These are replacement door panels, not reproductions of the originals. Original trim and moldings cannot be reused with these panels. Reuse your original armrests or order new ones for use with these panels. These style panels have been produced to give your interior a new look at a lower cost than the original panels. Inner window weatherstrip is attached to top of panel. Installation hardware and instructions are included. Fronts are for front doors on pickups, blazers, suburbans and crew cabs. Rears are for rear doors on suburbans and crew cabs. When ordering front door panels with power windows and power locks, specify Pickup/Blazer or Suburban/Crew cab.

When ordering add the following letters to end of part number for color:
B=Black, L=Blue, R=Red, S=Saddle, G=Gray
*Price may vary depending on color

- 19-251 (73-76)Front\$229.95pr

Speed/Tach Signal Interface Module

Classic Instruments is pleased to announce a revolutionary speed signal interface, the SN74Z. The SN74Z, is the perfect complement to your Classic Instruments speedometer or tachometer. It has the ability to function as either a speedometer or tachometer interface and it works with many standard aftermarket gauges.

- 24-954A.....\$135.95ea

Fuel Link Module

Classic Instruments has just released their all new FuelLink. Inspired by their Zeus Speedometer Technology, this device corrects fuel ohm rangemismatch and erratic pointer movement due to fuel slosh.

- 24-953.....\$149.95ea

GPS Interface Module

This was completely Designed and Built in the USA, specifically made for the custom automotive market and the unique challenges which exist.

LED Dash Light Dimming Kit Classic Instruments

Universal Dimmer Switch by Classic Instruments®. This top-grade LED Light Dimming Switch by Classic Instruments is expertly made in compliance with stringent industry standards to offer a fusion of a well-balanced design and high level of craftsmanship

- 24-952.....\$72.95ea

Pull Up Resistor

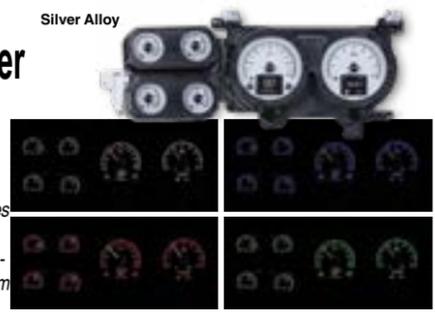

If you have a Classic Instruments tachometer and an LS engine, you will need to boost the power of the tachometer signal from the ECU in order for it to work. This is because the tachometer signal from the ECU is a 5V square wave and some Classic Instruments tachometers are designed to work on 8V and higher square wave signals. To get the 5V ECU signal to work, a special pull-up resistor that installs between the +12V gauge power and the signal terminal in order to boost the signal strength to work with the tachometer.

- 24-957.....\$15.95ea

HDX Speedometer & Gauge Kit

The HDX series is the latest in aftermarket automotive instrumentation technology. HDX takes personalization and usability to a whole new dimension while retaining your favorite features from the wildly popular VHX-series such as LED backlighting for the numbers, tick marks and dead-faced dash indicators (turn signals, high beam, check engine, cruise control engaged and parking brake). Illuminated needles and a lifetime warranty are still part of the deal as well. These features add up to a clean, easy to read instrument system in all conditions. Precision stepper motors provide accurate needle movement along with a full-sweep at key-on, and the needle hubs are black nickel plated spun-aluminum. ***Bezel not included***

- 24-946A (73-87) Black Alloy\$1420.95*ea
- 24-946B (73-87) Silver Alloy\$1420.95*ea

VHX Speedometer & Gauge Kit

For GM Truck enthusiasts, the curvy lines of this model made it an instant classic just begging for modern upgrades like the VHX Series. Fully lit needles, backlit faces, and highly visible LCD message centers are a few of the things that you can see which set the VHX Series apart from yesterday's traditional approach to instrumentation. A few of the features which you don't normally see are the micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy, and user-customizable display feedback, all supported by an unrivaled limited lifetime warranty. ***Bezel not included***

RTX Speedometer & Gauge Kit

The RTX series is the latest from Dakota Digital, focused on retaining that stock look without sacrificing the late-model features you love. Every effort has been put forth to incorporate OEM design elements regarding the layout, face styling and indicators. A casual glance may dismiss these as original equipment, but once you hit the switch and the LED backlighting comes on in your favorite color scheme, all doubts will be removed.

Lap Seat Belt - Push Button

These seat belts are equipped with chrome push-button buckles featuring a starburst design, and webbing color-matched to its stitching. Our seat belts meet or exceed Federal Motor Vehicle Safety Standards. Many vehicles manufactured prior to the late 1960's were not equipped with seat belts. Adding seat belts is a wise investment in the safety of yourself and your family. Mounting hardware is available. Price is per each seat belt. Available in Black, Blue, Burgundy, Dark Blue, Gray, Powder Blue, Red and Tan.

- 28-051.....\$22.95ea

Seat Belt Retractor

Keep those seat belts from hanging out of your door. This retractor fits our 2" seat belt and will roll the belt into a neat bundle.

- 28-121.....\$7.95ea

Shoulder Seat Belt Guide Covers

Reproduction of the original 1976-89 GM truck and SUV shoulder seat belt bolt cover.

- 28-129.....(76-89).....\$19.95pr

Dash, Interior, & Cab Parts

Interior & Cab Parts

Vinyl Prep & Soap

Vinyl soap is a first step cleaner for all repair and refinishing procedures. The soap gravitates into the pores of the substrate and floats contaminants to the surface. It also contains a slight abrasive to open the substrate for greater adhesion. Vinyl prep cleans soil, wax and grease from vinyl substrates while it softens and prepares the surface for adhesion of topcoat. HAZMAT MATERIAL. SHIPS POST OFFICE. ADDITIONAL FREIGHT APPLIES.

- 31-824Prep\$25.95ea
- 31-825Soap\$22.95ea

Interior & Cab Parts

Vinyl Upholstery Dye

Specially formulated in the original colors. Priced per 12 oz. spray can. One can will do 2 armrests & dash pad. Two cans will do complete interior. *HAZMAT MATERIAL. SHIPS POST OFFICE. ADDITIONAL FREIGHT APPLIES.

Carpet

The highest quality new carpet, cut, sewn & molded for a perfect fit. We supply loop style trucks and cut-pile carpet for 1973-1974 trucks and cut-pile carpet for 1975-1987 trucks, as original. Heavy jute backing included to reduce heat and road noise. Edges are sewn to prevent fraying and heel pad is installed to prevent wear. You may be required to use your old carpet to locate and cut out the floor shift hole if necessary. Small Hump fits 2WD's with column shift. Large Hump fits 2WD's with floor shift and all 4WD trucks. Other colors available on a non-returnable special order basis.

Truck Acoustic Kit

Introducing a multi-stage, automotive insulation and sound damping system to give older Cars and Trucks the "quiet riding comfort" found in today's new vehicles coming off automotive assembly lines. Acoustic-SHIELD kits are designed on current, "state-of-the-art" auto acoustic technology, to insulate and control the noise, vibration and heat in the passenger cabin. These kits are pre-cut and ready-to-install in a couple of hours, with easy-to-follow illustrated instructions - everything you need to do the job right. Kits Include: Fully illustrated instructions for an easy, painless, two-hour installation; Pre-Sized Sound Damper Pads; Pre-Cut, Ready-to-Install Heat Shield Absorber/ Barrier Panels; Spray Adhesive and Aluminum Sealing Tape.

Battery Parts & Gas Tanks

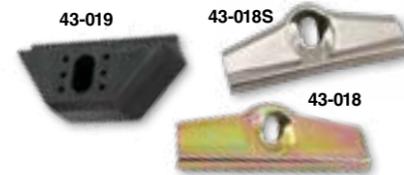

Battery Storage & Maintenance Charger

The Battery Butler Battery Storage/Maintenance Chargers are specifically designed for the maintenance of 6 or 12 Volt batteries that are stored or only used periodically. These chargers will prevent the normal self-discharge of your battery, while extending the life of rechargeable 6 or 12 volt batteries by providing a minimum current, regulated output.

Gas Tank & Fender Parts

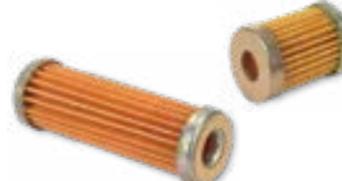

Fuel Filter

- 84-2151 (85-98) \$9.99ea

Fuel Filter Bracket

- 84-2171 (85-91) \$6.95ea
- 84-2172 (85-91) Bolt for Bracket \$3.99ea

Fuel Filter - Paper Type

Small paper type filter that goes behind the inlet fitting on carb.

- 84-210 (73-74) Short \$1.99ea
- 84-211 (75-76) Long \$9.95ea

Fenders

(*Additional shipping charges will apply.) (OS) (Front Fenders Ship UPS) (TRK) (Rear Fenders must be shipped truckline. Inquire for approximate shipping costs.)

Body panels are quality steel parts. They are packaged and handled with great care. Having been shipped by truck, there will most likely be a few scratches or small dents. This cannot be avoided and should be expected. A small amount of repair may be required. We carry a variety of fenders for your pickup. Available in quality foreign made steel or a limited supply of original GM fenders.

Original GM: Made from original GM tooling but are limited in supply!
Foreign: These are a high quality steel replacement part at considerably less cost than original GM fenders.

- Front**
- 37-155 (73-80) Left, Foreign \$199.95*OS
- 37-156 (73-80) Right, Foreign \$199.95*OS
- 37-157 (81-91) Left, Foreign \$199.95*OS
- 37-158 (81-91) Right, Foreign \$199.95*OS
- 37-161 (73-80) Left - No Side Marker \$249.95*OS
- 37-162 (73-80) Right - No Side Marker \$249.95*OS

Hoods

(*Additional shipping charges will apply.) TRK* (This item must be shipped truckline. Inquire for approximate shipping costs.) Available in quality foreign reproduction, or a cowl induction version. These hoods are made from high quality steel. They are packed and handled with great care. Having been shipped by truck, there will most likely be a few scratches and small dents. This cannot be avoided and should be expected. A small amount of repair may be required. The hood shown is a high quality reproduction hood with twin cowl induction hump in center for a high performance look!

Wiring Harness- Universal

Wiring is one of the most difficult parts of auto repair and restoration. These kits are designed with this in mind. They are designed so almost anyone can completely rewire their truck from front to rear. This harness is a generic type street rod style harness meaning when you are building a car from scratch starting with nothing this is the harness you need so you can wire it the way you want with the options you have. THIS IS NOT A DIRECT REPLACEMENT HARNESS!!!!!!

52-09113 Circuit Version\$364.95st
52-09220 Circuit Version\$389.95st

Highway 15 Plus Wiring Harness

American Autowire just made some upgrades to the Highway 15 Universal Wiring System that you need to know about! The Highway 15 Plus will include all of the best features of the original version with these upgrades:

- A built-in LED flasher to support LED turn signals without the need to purchase an additional item.
- A back up light feed and power wires to make the harness easier to install in a more modern vehicle.
- Improvements to our instructions to cite a wider range of examples and real-world scenarios. The panel labeling has also been updated along with the above physical changes, including wording modifications for enhanced clarity. Our new high amp alternator and main power connection kit. This allows for the use of high amp alternators, and provides an even better level of fuse protection for the panel and charging system. This new connection kit utilizes 6ga wire and two 175amp Megafuses.
- Extra connectors and wiring to more easily support a 4-headlight system without an additional add-on purchase.
 - Longer neutral safety wires for cars with console shifters.
 - An additional ignition circuit to support aftermarket components.
- Improved ignition switch with mating connector and 4 additional accessory and ignition terminals. Uses a square GM-style key.

52-094\$509.95ea

Highway 22 Plus Wiring Harness

Our Highway 22 has long been the flagship universal system for wiring high-tech, high-end custom vehicles.

To this point, we've seen and heard evidence of customers installing the kit in just about every make or model vintage (and some modern) vehicle, off-road trucks and even industrial equipment.

We're exceptionally grateful to be part of so many builds, and have taken note of some suggestions from over the years to make a great product even better. With those thoughts in mind, American Autowire is pleased to introduce the Highway 22 Plus! Our goal with the changes in the Highway 22 Plus is to preserve the same feel as the original, with some modernization and ease of use improvements for both backyard and professional builders.

The full list of new features is below:

- Each kit will now include a built-in LED flasher to support LED turn signals without the need to purchase an additional item.
- We've added back up light feed and power wires to make the harness easier to install in a more modern vehicle.
- The pre-installed 20 amp relay can now be easily changed to function as either a keyed 12 volt or ground triggered item.
- We've improved our instructions to cite a wider range of examples and real-world scenarios. The panel labeling has also been updated along with the above physical changes, including wording modifications for enhanced clarity.
- The wiper circuit has been upgraded to a 20 amp fuse to support all aftermarket wiper systems. This has been made an accessory circuit for more adaptability.
- The AC/Heat fuse has also been moved to an accessory circuit to eliminate draw from the blower motor while the vehicle is being started.
- All kits will feature our new high amp alternator and main power connection kit. This allows for the use of high amp alternators, and provides an even better level of fuse protection for the panel and charging system. This new connection kit utilizes 6 ga wire and two 175 amp Megafuses.
- Extra connectors and wiring have been added to more easily support a 4-headlight system without an additional add-on purchase.
- Longer neutral safety wires for cars with console shifters.

52-095\$579.95ea

Classic Wiring Update Kit

What makes the Classic Update series harness kit better than the competition? The Classic Update Series design philosophy is to build complete "full function" systems and engineer them for easy access, easy installation, and connectivity with common update accessories. All while allowing for future expansion. Each kit is a completely new design engineered around the specifications and physical dimensions of the 1973-82 trucks as well as the space constraints imposed by many after market accessories vying for the limited space under the dash. Superior design has given the builder complete flexibility to use original stock switches and components as well as custom update accessories, such as; DAKOTA DIGITAL instruments, heat and air conditioning systems, IDIDIT and FLAMING RIVER steering columns, and late model GM tilt steering columns. The fuse box was chosen for its adaptability in mounting configurations and its ability to handle the increased current loads demanded by power accessories such as power windows, power seats, power door locks, cruise control, etc. It is a proven GM design that incorporates heavy duty circuit bussing. There is no circuit board in this high power fuse box assembly as the potential power demands are too high for a circuit board design. It is this attention to detail that removes the engineering exercise from the builder and makes installation much smoother. The 1973-82 Chevy and GMC Truck kit is the most complete system of its type in the industry boasting 19 features including: new ATO fusebox, compatible with most aftermarket accessories, cluster harness disconnect system, dimmer, headlight switches and much more.

57-237	(73-87)	12" Long - Replacement Style	\$14.95ea

Inside Mirror Bracket Plate

Mirror retainer bracket which glues to windshield.

57-311	(73-91)		\$1.99ea
--------	---------	--	----------

Billet Rear View Mirror

Using 6061-T6 aluminum we crafted these mirrors to out perform any original factory mirror with the amount of articulation, style and sophistication.

57-286B	(72-87)	Black	\$229.95ea
57-286F	(72-87)	Flat Black	\$239.95ea
57-286M	(72-87)	Matte	\$219.95ea
57-286P	(72-87)	Polished	\$214.95ea

Inside Mirror Plate Adhesive

Primer & adhesive kit to glue bracket plate to windshield.

57-351	(73-91)		\$3.99ea
--------	---------	--	----------

Billet Outside Mirror Assembly

Based off of a 73-87 GM design but with infinite flexibility for mounting and vehicle options. Crafted with 6061-T6 Aluminum. Sold in Pairs.

58-123B	(73-87)	Black	\$629.95pr
58-123F	(73-87)	Flat Black	\$649.95pr

Billet Outside Mirror Assemblies (Continued)

58-123M	(73-87)	Matte	\$599.95pr
58-123P	(73-87)	Polished	\$589.95pr

Outside Mirror Assembly - (D49)

This is the original style standard door mirror. GM called this style "Dual Bright D49." Comes complete with gasket and mounting hardware.

58-123	(73-87)	Reproduction - RH or LH	\$42.95ea
58-124	(73-87)	Reproduction - Convex - RH	\$39.95ea
58-123L	(73-87)	Reproduction - Left - LED Arrow	\$52.95ea
58-124L	(73-87)	Reproduction - Convex - Right - LED Arrow	\$54.95ea

Outside Mirror Adapter Plates Polished

Precision CNC machined from billet aluminum, these adapter plates fasten to the mounting holes of the large, stock, three bolt GM mirrors. They are blind hole tapped and mounted with studs (included). The plates are also drilled and tapped to accept the small 1973-87 GM mirrors (sold separately). Made in the USA.

58-321	(73-87)		\$94.95pr
--------	---------	--	-----------

Outside Mirror Assembly - Below Eyeline (D45)

This is the original style oversize door mirror. GM called this style "Below Eyeline D45." Like original. Includes mounting gasket & hardware. Available in stainless steel and chrome(ABS). Fits left or right.

58-125	(73-87)	Stainless Steel	\$44.95ea
58-126	(73-87)	Chrome(ABS)	\$44.95ea
58-127	(73-87)	Black	\$39.95ea

Outside Mirror Arm Gasket

Fits OEM D45 Below Eyeline Mirror Assy. Fits L or R. 73-87 pickup trucks and 88-91 Blazer, Suburban, & Crew Cab R/V series.

58-318	(73-87)		\$3.99ea
--------	---------	--	----------

Peep Mirror

Chrome plated, 4" mirror & bracket, clamps on top edge of door. Adjustable for viewing blind spot. LED version has an LED arrow that flashes when signaling. When the signal isn't activated, it appears like a normal mirror. Fits left or right.

58-502		Curved Arm, Round Head Wide angle	\$21.95ea

Grills & Molding

Grills & Molding

GRILLS

(*Additional shipping charges will apply)
Brand new, show quality grill parts replace your old rusted, dented & cracked ones perfectly. Available in either Original GM or reproduction. (See previous page.)

Chevrolet Grills - Reproduction

(*Additional shipping charges will apply) Quality reproduction grills available at considerable savings over original GM grills. 61-236 will accept original grill emblems. All others will not accept grill emblems. 1977-80 grill may be used to replace 1973-74 by drilling mounting holes in grill support and removing small section of inner grill to allow hood release access.

Selecta Speed Wiper Motor Kit

This kit provides you with the performance and convenience of a late model wiper system in a package that easily and cleanly mounts in your truck. The wiper kit contains a low profile, 7-speed wiper motor (5 delays, low speed, and high speed), rotary switch, adapter plate, and wiring harness. The laser-cut steel adapter plate mounts the wiper motor to the stock firewall bolt pattern and requires no permanent modifications to the vehicle.

Radios

Radios

Radios

Late model AM/FM/Cassette or CD stereo systems designed to fit the old Chevy & GMC pickups without cutting up your dash. Available for Chevrolet or GMC, add a C to the end of part # for a Chevy or add a G to the end for a GMC. Available in the following versions:

USA-230

Features chrome face, electronic tuning, scan, seek, L/LD select button, separate bass and treble, left and right balance, fader, auto reverse, radio intercept, 200 watts, digital clock, 18 FM, 12 AM pre-sets. Dual RCA Outputs & Inputs for iPod, MP3, DVD, Satellite, etc. No Cassette.

- 69-773C.....Chevrolet\$209.95ea
- 69-773G.....GMC\$209.95ea

USA-630

This radio has large OEM style push-buttons that give a perfect look in a classic dash. Although it looks classic it has the latest modern features. USB input on the back of the radio allows you to plug in a USB flash drive for playback of MP3/WMA song files. This jack is on an 14" extension which allows you to place it in the glove box or ash tray for easy access (no unsightly wires or plugs hanging out of the front of the radio). The new alpha numeric display (30% larger than previous models) shows the song/artist/album (id3) titles during playback of MP3/WMA files. With the built in CD controller you have complete control (no FM modulation) of CAM's 6 disc CD changer. This same CD controller also facilitates the optional iCAMKIT iPod® interface that turns your iPod on/off and charge it while giving you control to advance songs or play list from the buttons on the radio. A great feature so you can keep the iPod hidden away in your glove box or console.

- 69-778C.....Chevrolet\$279.95ea
- 69-778G.....GMC\$279.95ea

USA-740

The USA-740 offers the same classic look that Custom Autosound has been known for with today's latest features. Now you can stream music from your Bluetooth compatible device or talk hands free on your Bluetooth phone. A handy microphone is included. A solid 300-watt peak power should be all the power you need, yet the USA-740 has HI 4-volt, 4 channel RCA pre-outs and a subwoofer RCA per-out for additional amplifiers. The USB input allows you to plug in USA flash drive for playback of MP3/WMA/FLAC/WAV song files. A front mini jack auxiliary audio in and a rear RCA auxiliary audio in put provide versatility for additional options like satellite radio, iPod or any portable player you wish to use. Match the dominant color of your instrument cluster with user selectable multiple LCD color choices with LCD dimmer control. The AM/FM RDS tuner shows station, song and artist on LCD display. Classic style with today's sound and performance taking every road and curve with you in your vintage vehicle.

Late model AM/FM stereo system designed to fit the old Chevy pickups without cutting up your dash. Inquire for GMC

All control is from the buttons on your USA-630 or Secretaudio

radio. Plays CD/CD-R/CD-RW/DVD audio/WMA/MP3s, Small enough to hide under the seat or in glove box, ESP Electronic Shock Protection, Repeat/ Program/Random/ Intro Function, Multi-Angle Playback, Last Position Memory, 9' Cable for connection to CAM head unit, Dimensions: 7" wide x 1" high x 6-3/4 deep

- 69-792USA-1 Disc Changer.....\$194.95ea

Bluetooth Interface

Wireless interface for Custom Autosound CD controller radios

(USA-630, Secretaudio (SST & SRMS), USA-66). This adapter plugs into the CD changer port of your Custom Autosound radio and gives you the ability to do hands free calling from your bluetooth capable phone.

Also listen to music stored on your A2DP enabled bluetooth device. If you have a CD changer or CD1 single player you can still use it with the adapter plugged in (there is a CD changer port on the control box of the Bluekit).

Main control box has a 1.5' cord that goes to radio CD port, 6.5' cord to answer button and 3.5' cord from answer button to microphone.

- 69-790\$109.95ea

Secret Audio

SecretAudio SST is a hidden audio system that offers great flexibility for mounting in any type vehicle. The main Receiver/Amplifier unit is usually hidden under the seat or behind the dash. The 10' cord from this unit goes to an LCD display, which offers unlimited mounting options. The LCD can be mounted in the glove box, ash tray, sun visor, console or wherever you choose! Included with the system is a flush mount bezel for console or dash mounting and a swivel bracket for under dash or surface mounting. Included is the wireless RF remote which you don't have to point at the display in order to operate. You can control the radio or even a CD changer from up to 40 ft away with the wireless remote. Features include: AM/FM Stereo 200 watts (4x50w), USB MP3/WMA Flash Drive Player iPod direct connect, Satellite Radio input, 4 Channel RCA Pre-outs, Subwoofer pre-out, Electronic Equalizer, Auxiliary audio input, and Alpha Numeric LCD that displays Artist/Song information when using iPod or Satellite options.

Kicker Panel For Speakers

Designed for 81-87 Chevrolet and GMC Pickup Trucks, Blazers, Suburbans, and Crew

Cabs with factory A/C and full panels. These will work for all 73-87 with factory AC, non AC, full or half panels with slight modifications *All years, no-air trucks will require the use of a half panel on the drivers side to hold the vent. Kick Panels with 5/8" Speaker Holes with option for tweeters. Speakers not included.

- 69-879 (81-86)\$119.95pr

Full Range Speaker System

The RetroSound® R-TB8 is a ported full-range 1973-87 Chevrolet C/K Series Truck speaker enclosure. These wedge shaped speaker boxes work great behind the seats of trucks, SUV's, hatchbacks and coupes. They feature an 8-inch bass driver for great low frequency response and soft-dome tweeters for smooth, clear highs. They are finished in a durable gray carpeting and have chrome speaker terminals. Power handling is 175 watts. Price is per two speaker boxes, one for the driver's side and one for the passenger side.

- 69-866 (73-87)\$219.99ea

Radio, Glass & Brake Parts

Antenna - Hidden

Powered 12 volt hidden antenna. A patented electronic in-car antenna that is designed to perform as well as a standard rod antenna with no external rod or aerial showing. No external rod or pickup device. No drilling necessary. No grounding necessary. Totally non-directional (360 degrees). Concealed mounting prevents radio theft. Physical dimensions: antenna length 3.5", thickness .75", cable length 9'.

Brake Parts

Brake & Chassis Parts

Rear Disc Brake Kit - 5 Lug

We now have a 5 lug rear disc brake kit for 71-87 two wheel drive trucks. Kit includes rotors, calipers, caliper brackets, rubber & hard brake hose kit and all mounting hardware. Emergency brake cables included. *Additional shipping charges will apply. These kits are heavy - Shipping costs range from \$30-\$80 per kit depending on your delivery area. This item may be drop shipped from the manufacturer and could take 2-4 weeks for delivery. **Drilled and slotted rotors are a \$75 upgrade. A 20% Restocking fee may apply on drop shipped items that are returned.**

- 71-982B.....(73-87).....5 Lug 1/2 ton 2WD\$599.95ea*
- 71-982C.....(71-72).....5 Lug 1/2 ton 2WD\$599.95ea*

Complete Big Brake Kit

The 13" front system uses a 13" cross-drilled, gas slotted and zinc washed rotor, mounted to a 2024 T6 billet aluminum CNC machined anodized hub and a PBR C15 caliper that attaches to the spindle with custom caliper mounting brackets. PBR C15 calipers have twin 52mm pistons and a larger brake pad surface area that offers about 60% more stopping power in the caliper than the popular C5 caliper at half the cost. Big Brake kits requires a 17" diameter disc brake type wheels. The rear kit utilizes a 12" rotor and Lincoln caliper. Kits are complete and include front and rear rotors, front and rear loaded calipers, hoses, front bearings and seals, front and rear mounting brackets, forged aluminum hubs, all necessary hardware and include a 4-wheel master cylinder and proportioning valve kit. Available with a choice of Black, Blue, Plain, Red or Silver calipers. *Item is drop shipped from the manufacturer and could take 2-4 weeks for delivery.

- 71-961D.....(73-87).....5 Lug - Plain or Red.....\$2039.95ea*

Big Brake Wheel Kit - Front

Classic Parts of America introduces a new modular 2" drop spindle and drop spindle wheel kits for 1960-87 Chevy pickups. The new design gives you 1-1/8" more clearance at the fender and helps solve tire to fender interference commonly found with lowered trucks. Lowered trucks with big tire and wheels this is the spindle and Brake Kit you have been waiting for. For a HIGH Performance option you can combine the Spindle with the NEW 13" Rotor Twin 52mm Piston Brake Kit. (60-0 in 132 feet) The Modular Spindle offers many benefits available for the first time, installs easy with out modifications, works with factory ball joints and tie rod ends, lowers your truck a full 2 inches, offers adjustable steering stops, provides 1-1/8" more fender to tire clearance, allows use with standard factory brakes and PERFORMANCE after market "BIG" Brake Kits. Available with a choice of Black, Blue, Plain, Red or Silver calipers. This item may be drop shipped from the manufacturer and could take 2-4 weeks for delivery.

Control Arm Shaft Bushing Kit - Polyurethane

Kit includes 4 upper & 4 lower polyurethane bushings with inner metal sleeves. Must reuse your original outer sleeves.

74-325 (73-87)C5, C10\$74.95st

Tubular Control Arms

Our Totally Tubular™ Control Arm sets are designed to add 5° of caster while providing full wheel travel and minimal friction possible. They are made from thick tubing to eliminate distortion from welding and hard use. The bushings are made from self lubricating non-squeak patented plastic that will out last any rubber or urethane. The billet 4140-alloy steel cross shafts and sleeves are zinc plated for lasting performance. The sleeves have an interlocking design that prevents the hardware from ever working loose. Simple bolt-in installation with no modification required. They work with all factory and replacement power steering systems, and with or without O.E. bump stops. Note: Ball joints are included. Please specify year when ordering. Lower arms only work with end link style sway bar. Sold in Pairs. This item may be drop-shipped from the manufacturer and could take 2-4 weeks for delivery.

Steering Column - Tilt

(*Additional shipping charges will apply.)

Add the convenience and reliability of a new column built specific for your GM Truck. This steering column is not a universal column that requires modification of your original vehicle to install. Simply remove your old column, saving your original under-dash mount, as well as the original floor mount.

Using one of our installation kits (see table below), install your new steering column in place of the old. The column has been modified to put your aftermarket wheel in the same location as the original. The column comes complete with a neutral safety switch, however an indicator is not included. The shift pattern on the column will allow you to use either a 3-speed or 4-speed automatic transmission. A shift linkage is required for installation and will attach to the lower shift arm provided on the column. Standard features: self-canceling turn signals, 4-Way flashers, knobs and handles, 3/8" wiring plug 1973-78 has 1" 48 lower shaft.

- 77-151 (73-78) Floor Shift - Paintable \$964.95*ea

Tilt Steering Shaft & Coupler Assembly

This has the 3/4"-30 spline rag joint for use with 1977-86 truck manual steering box. **FOR FACTORY STEERING COLUMNS**

- 77-872 (77-86) \$134.95ea

Steering Sector Shaft

- 77-883 (47-91) 1" DD X 36" \$44.95ea

Steering Box Thrust Bearing Kit

- 76-862 (67-78) \$49.95ea

Radiators

Radiators

(*Additional shipping charges will apply on Radiators)

Brand new radiators, complete & ready to install. Radiators listed below are composed of copper and brass as original for a perfect fit. Follow the instructions below to find the correct radiator for your truck.

1. Locate Year of Truck.
2. Locate Engine Size.
3. Determine the Core Dimensions of your original radiator.

(Core size is determined by measuring the finned portion of your radiator and does not include the top and bottom brackets or the left and right side tanks. Dimensions below are width x height x thickness.)

4. Number of Rows.
(This is the number of water passage tubes inside the radiator hat determines the thickness of your radiator core. Look inside the radiator cap and count the rows of tubes from front to back. This will determine the number of rows thick of your radiator core.)

5. See the Notes Column.
(Use this column to further determine which radiator is correct for your truck. Refer to the following abbreviations in Notes column.)

Part #	Year	Engine	Core Dimensions	# of Rows	Mounts	Trans.	Inlet	Outlet	Notes	Price
78-380	(73-77)	V8	28 3/8" x 17" x 2"	3	2 3/4"	Automatic	1 1/2"	1 1/2"	w/ Heater Hose Connection	\$664.95*ea

Water Shut Off Valve

Manual shut off valve that fits in line with the heater hose. 3/4" and not as original.

- 82-1173/4"\$19.95ea

Weiland Action Plus Water Pump

Weiland's light weight, performance aluminum mechanical Action-Plus water pumps give a weight saving of 30% to 50% over stock cast-iron pumps. These pumps have been completely redesigned for better performance and utilize our exclusive "twisted snout" look and feature a premium quality bearing and seal that have twice the load capacity of stock pumps. Weiland's exclusive housing counterbore keeps the bearing from "walking" out. All pumps are designed with the necessary bracket bosses and water connections to fit popular street applications. (*Additional shipping charges will apply) (DS) Drop-Shipped.

GM LS Retro-fit Oil Pan

GM's popular LS engines are finding their way into a large variety of vehicles. They make great power, plus they're very durable and reliable. Unfortunately, the factory LS pans don't always fit or they hang too low for today's hot rods. Holley's new LS Retro-fit Engine Oil Pan is designed to help! It provides maximum clearance to the chassis and ground, plus provides an OEM fitment for durability and proper sealing. (*Additional shipping charges will apply)

- 80-342\$435.95ea

Hooker Competition Long Tube Headers

Hooker Competition headers offer the best value in the high performance header market. Designed for the value-conscious buyer who is running either a "stock" or "mildly-modified" engine, Hooker Competition headers offer premium features at a very competitive price. Made of durable 16 gauge mild steel tubing, the competition header design utilizes a long transition collector to reduce back pressure and increase exhaust flow. A perfect sealing surface is assured with the 5/16" machined flanges, with welded O-ring seals. Experience has proven that this flange size is ideal to maintain header integrity and be pliable enough to seal each exhaust port. Tubing is mandrel-bent to maintain metal strength and provide consistent tube diameter at radii to maximize performance. All necessary hardware included for a complete installation. Designed for easy, trouble-free fit. Industry's best welds for durability. 5/16" machined flanges for a perfect seal. (*Additional shipping charges will apply) (DS) Drop-Shipped.

Engine Parts

Hooker LS Exhaust Manifolds

Titanium Finish

Hooker cast iron exhaust manifolds have been designed to hug close to the engine block so they fit into a wide variety of replacement and engine-swap applications. Their contoured design aims the exhaust directly at the exit port for improved flow. Being cast iron means they will provide years of leak-free performance with less under hood noise than traditional headers. Plus, their shorty design means you can route exhaust tubing close to your frame/floor pan for maximum ground clearance. "Hook" up your GM LS engine with Hooker cast iron manifolds today! Intended for all GM LS (except LS7 and LS9) engine swap applications where durability, quiet operation, emissions compliance and leak-free sealing is desired. 304 stainless steel mating flanges included (mating flange fasteners are not included) 2.25-inch outlet diameter. 2 bolt exit flange configuration. (*Additional shipping charges will apply) (DS) Drop-Shipped.

350 HO Base 330HP

Forget rebuilding! Our 350 HO is assembled with all-new parts and high-flow heads, giving you more power than just about any production-spec Small-Block ever installed at the factory: 333 hp and a satisfying 381 lb.-ft. of torque. It's affordable power with dependability you can count on.

A cast-iron block with four-bolt main caps is the foundation for the 350 HO, which is topped with iron Vortec heads fitted with 1.94/1.50-inch valves. Its durable rotating assembly has aluminum pistons delivering a 9.0:1 compression ratio, while a hydraulic flat-tappet camshaft requires no periodic lash adjustments.

- TECH SPECS**
- Part Number: 19210007
 - Engine Type: Chevy Small-Block V-8
 - Displacement (cu in): 350
 - Bore x Stroke (in): 4.000 x 3.480
 - Block (P/N 10105123): Cast-iron with 4-bolt main caps
 - Crankshaft (P/N 10243070): Nodular iron
 - Connecting Rods (P/N 10108688): Powdered metal steel
 - Pistons (P/N 12514101): Cast-aluminum
 - Camshaft Type (P/N 24502476): Hydraulic flat tappet
 - Camshaft Lift (in): .435 intake / .460 exhaust
 - Cylinder Heads (P/N 12558060): Vortec iron; 64cc chambers
 - Valve Size (in): 1.940 intake / 1.500 exhaust
 - Compression Ratio: 9.0:1 nominal
 - Rocker Arms (P/N 10089648): Stamped steel
 - Rocker Arm Ratio: 1.5:1
 - Maximum Recommended rpm: 5,100
 - Balanced: External

- INSTALLATION NOTES**
- Has right-side oil dipstick
 - Designed for pre-1976 street vehicles or any off-road vehicle
 - Not intended for marine applications

EN-0102 Inquire for price

350CI - 290HP

The most affordable Chevrolet Performance Small-Block crate engine is also our best seller – and it's easy to understand why. The 350/290 Base Small-Block features four-bolt mains for strength and makes a great economical alternative to rebuilding a tired, two-bolt main core. Use it to re-power your daily driver or drop it in your budget Camaro project!

Inside the 350/290 Base are quality parts, including a camshaft and durable aluminum pistons that squeeze an 8.5:1 compression ratio. We offer the 350/290 in a base form, allowing you to add the induction and other accessories. That's great for builders swapping over the intake manifold, carburetor and other components when re-powering a vehicle.

Chevrolet Performance has all the components to build up the 350/290 Base into a high-performance, great-looking street engine, too – from an aluminum intake and carburetor (we recommend the 670-cfm Holley four-barrel, P/N 19170092) to the distributor, water pump and more. Save the time and hassle of rebuilding your old engine by ordering the 350/290 Base and finishing it to your own specifications.

TECH SPECS

- Part Number: 12499529 / 19355658
- Engine Type: Chevy Small-Block V-8
- Displacement (cu in): 350
- Bore x Stroke (in): 4.000 x 3.480
- Block (P/N 10066034): Cast-iron with 4-bolt main caps
- Crankshaft (P/N 93426651): Nodular iron
- Connecting Rods (P/N 10108688): Powdered metal steel
- Pistons (P/N 93422884): Cast-aluminum
- Camshaft Type (P/N 3896962): Hydraulic flat tappet
- Camshaft Lift (in): .450 intake / .460 exhaust
- Camshaft Duration (@.050 in): 222° intake / 222° exhaust
- Cylinder Heads (P/N 93438649): Iron; 76cc chambers
- Valve Size (in): 1.94 intake / 1.50 exhaust
- Compression Ratio: 8.0:1
- Rocker Arms (P/N 10089648): Stamped steel
- Rocker Arm Ratio: 1.5:1
- Recommended Fuel: Regular pump
- Ignition Timing: 34° Total @ 4,000 rpm
- Maximum Recommended rpm: 5,100
- Balanced: Internal

INSTALLATION NOTES

- Use neutral balance harmonic damper P/N 12551537
- Use internally balanced flexplate P/N 471529 for automatic transmission or flywheel P/N 14085720 for manual transmission(not included)
- Power ratings based on tests with Holley 670-cfm carburetor P/N 19170092 (not included)
- Does not accept Chevrolet Performance roller lifter assemblies
- Designed for pre-1976 street vehicles or any off-road vehicle
- Not intended for marine applications
- See the Valve Covers section for selection of chrome, polished and aluminum valve covers
- Pre-1986-style 2-piece rear main seal block
- Recommended for use in vehicles with 6,000 GVW or less

SP350CI - 357HP

If it's affordable performance you're looking for to power your project vehicle, Chevrolet Performance's SP350/357 delivers! With 357 horsepower and a deep reserve of low-rpm torque, it quickly reminds you why Chevrolet's original 350 Small-Block has been the industry benchmark for decades.

The SP350/357 leverages the strength of a strong rotating assembly secured in a brand-new block with four-bolt mains, along with economical Vortec iron cylinder heads. A roller camshaft optimizes drivability and airflow capability. It all adds up to a 24-horsepower gain over our 350 HO crate engine – and a great, affordable alternative to rebuilding.

TECH SPECS

- Part Number: 12677167 / 19367080
- Engine Type: Chevy Small-Block V-8
- Displacement (cu in): 350
- Bore x Stroke (in): 4.000 x 3.480
- Block (P/N 10105123): Cast iron with 4-bolt main caps
- Crankshaft (P/N 10243070): Nodular Iron
- Connecting Rods (P/N 10108688): Powdered metal
- Pistons (P/N 88894280): Cast aluminum
- Camshaft Type (P/N 12677151): Hydraulic roller
- Camshaft Lift (in): 0.473" intake / 0.473" exhaust
- Camshaft Duration (@.050 in): 215° intake / 223° exhaust
- Cylinder Heads (P/N 12558060): Cast iron; as cast with 64cc chambers
- Valve Size (in): 1.940 intake / 1.500 exhaust
- Compression Ratio: 9.0:1 nominal
- Rocker Arms (P/N 10089648): Stamped steel
- Rocker Arm Ratio: 1.5:1
- Recommended Fuel: Premium pump
- Ignition Timing: 32° Total @ 4,000 rpm
- Maximum Recommended rpm: 5,600
- Balanced: External
- Flexplate : Not Included
- Intake Manifold : Not Included

INSTALLATION NOTES

- Use the Holley 670-cfm 4-barrel carburetor P/N 19170092 to achieve the listed horsepower and torque
- Requires intake manifold, carburetor, distributor, spark plug wires and water pump to complete assembly
- Requires externally balanced automatic transmission flexplate. Requires externally balanced flywheel for manual transmission.
- Requires Externally Balanced Damper
- Designed for pre-1976 street vehicles or any off-road vehicle
- Not intended for marine applications

EN-0110 Inquire for price

Crate Engines

SP350CI - 357HP Deluxe

As the latest in Chevrolet Performance's Street Performance crate engine lineup, the SP350/357 is designed as an affordable performer to match just about any budget. Better still, it uses stronger components and modern technology to make it a better alternative to rebuilding.

Based on the value-driven 350 HO crate engine, our engineers swapped the flat-tappet camshaft for a hydraulic roller and added the latest Small-Block intake manifold design. Together, they help build more power across the rpm band – 357 horsepower and 407 lb.-ft. of tire-turning torque.

The SP350/357 leverages the strength of a strong rotating assembly secured in a brand-new block with four-bolt mains, along with economical Vortec iron cylinder heads. It's a durable assembly designed to offer years of high-performance excitement at an excellent value.

Our SP350/357 Deluxe package includes the intake manifold, distributor, damper and flexplate. Chevrolet Performance also offers the SP350/357 Base crate engine, P/N 12677167.

TECH SPECS

- Part Number: 12677170 / 19367082
- Engine Type: Chevy Small-Block V-8
- Displacement (cu in): 350
- Bore x Stroke (in): 4.000 x 3.480
- Block (P/N 10105123): Cast iron with 4-bolt main caps
- Crankshaft (P/N 10243070): Nodular Iron
- Connecting Rods (P/N 10108688): Powdered metal
- Pistons (P/N 88894280): Cast aluminum
- Camshaft Type (P/N 12677151): Hydraulic roller
- Camshaft Lift (in): 0.473" intake / 0.473" exhaust
- Camshaft Duration (@.050 in): 215° intake / 223° exhaust
- Cylinder Heads: Cast iron; as cast with 64cc chambers
- Valve Size (in): 1.940 intake / 1.500 exhaust
- Compression Ratio: 9.0:1 nominal
- Rocker Arms (P/N 12367346): Stamped steel
- Rocker Arm Ratio: 1.5:1
- Recommended Fuel: Premium pump
- Ignition Timing: 32° Total @ 4,000 rpm
- Maximum Recommended rpm: 5,600
- Balanced: External
- Flexplate (P/N 14088765): 12.750"
- Intake Manifold (P/N 12676887): Dual Plane

INSTALLATION NOTES

- Holley 4-barrel carb included but not installed on engine
- Comes with 12.750" externally balanced 153-tooth automatic transmission flexplate. Requires externally balanced flywheel for manual transmission.
- Requires fuel line from fuel pump to carburetor
- Designed for pre-1976 street vehicles or any off-road vehicle
- Not intended for marine applications

Crate Engines

Crate Engines

SP350CI - 357HP Turn Key

Chevrolet Performance's line of Street Performance engines offers great power at a great value – and the latest is the SP350/357. It leverages the strength of a strong rotating assembly secured in a brand-new block with four-bolt mains, and matches it with modern valvetrain technology to support great high-rpm capability.

Economical iron cylinder heads deliver excellent airflow, while the latest intake manifold technology and a new hydraulic roller camshaft optimize airflow to push 357 horsepower and more than 400 lb.-ft. of torque! Better still, the engine is built with a durable rotating assembly set in a brand-new block with four-bolt mains. That's a feature you won't find on most rebuildable cores.

Our SP350/357 Turn-Key package comes complete with the distributor, carburetor and balancer installed. The starter, fuel pump air conditioning pump, alternator, front-end accessory drive kit and more are also included, ready to bolt on.

Chevrolet Performance also offers the SP350/357 Base crate engine, P/N 12677167 as well as the SP350/357

Deluxe P/N 12677170.

TECH SPECS

- Part Number: 12677177 / 19367084
- Engine Type: Chevy Small-Block V-8
- Displacement (cu in): 350
- Bore x Stroke (in): 4.000 x 3.480
- Block (P/N 10105123): Cast iron with 4-bolt main caps
- Crankshaft (P/N 10243070): Nodular iron
- Connecting Rods (P/N 10108688): Powdered metal
- Pistons (P/N 88894280): Cast aluminum
- Camshaft Type (P/N 12677151): Hydraulic roller
- Camshaft Lift (in): 0.473" intake / 0.473" exhaust
- Camshaft Duration (@ .050 in): 215° intake / 223° exhaust
- Cylinder Heads: Cast iron; as cast with 64cc chambers
- Valve Size (in): 1.940 intake / 1.500 exhaust
- Compression Ratio: 9.0:1 nominal
- Rocker Arms (P/N 12367346): Stamped steel
- Rocker Arm Ratio: 1.5:1
- Recommended Fuel: Premium pump
- Ignition Timing: 32° Total @ 4,000 rpm
- Maximum Recommended rpm: 5,600
- Balanced: External
- Flexplate (P/N 14088765): 12.750"
- Intake Manifold (P/N 12676887): Dual Plane

INSTALLATION NOTES

- Front-End Accessory Drive included but not installed for shipment
- Comes with 12.750" externally balanced 153-tooth automatic transmission flexplate. Requires externally balanced flywheel for manual transmission.
- Requires fuel supply line from fuel pump to carburetor
- Designed for pre-1976 street vehicles or any off-road vehicle
- Not intended for marine applications

NOTE: Distributor with melonized steel gear MUST be used with long-blocks and Partial engines with steel camshafts, or engine damage will occur.

EN-0112 Inquire for price

ZZ6 EFI Deluxe 420HP

The ZZ6 EFI crate engine combines the drivability advantages of electronically controlled fuel injection with the versatility of the 350 Small-Block, pumping out 420 hp @ 5800 rpm and 408 lb-ft torque @ 4500 rpm. A traditional air filter option blends together horsepower and appearance without the need for third-party tuning, and its proven Fast Burn design and 2.00/1.55-inch valve springs support great performance and durability, resulting in a high rev while making the most out of every cubic inch. *Engine Does Not Include : Air Cleaner / Filter , Starter , Spark Plug Wires

EN-0120\$9,070.80ea

ZZ6 EFI Turn-Key - 420HP

The ZZ6 EFI Turn-Key crate engine offers modern performance balanced with traditional style that looks period perfect in your vintage Chevy!

Chevrolet Performance engineers adapted a unique, electronically controlled port fuel injection system to the ZZ6 350, using an aluminum intake manifold that has the appearance of a carbureted intake. A fuel injection throttle body mounted in place of the carburetor allows a traditional air cleaner to be installed on the engine.

A simple plug-and-play control system rounds out the package to get the engine running in your project without the need for third-party tuning.

Our Turn-Key crate engine kit includes the distributor and damper installed, with the throttle body, starter, air conditioning pump, alternator, single-belt Front-End Accessory Drive Kit and more also included. Chevrolet Performance also offers the ZZ6 EFI Deluxe kit, which includes the installed distributor and damper (P/N 19368149).

TECH SPECS

- Part Number: 19368150
- Engine Type: Chevy Small-Block V-8
- Displacement (cu in): 350
- Bore x Stroke (in): 4.000 x 3.480
- Block (P/N 10243870): Cast iron with 4-bolt main caps
- Crankshaft (P/N 12670965): Forged steel, shot peened
- Connecting Rods (P/N 10108688): Forged powdered metal
- Pistons (P/N 10159436): Hypereutectic aluminum
- Camshaft Type (P/N 10185071): Steel hydraulic roller
- Valve Lift (in): .474 intake / .510 exhaust
- Camshaft Duration (@ .050 in): 208° intake / 221° exhaust
- Cylinder Heads (P/N 19300955): Fast Burn aluminum; 62cc chambers
- Valve Size (in): 2.000 intake / 1.550 exhaust
- Compression ratio: 9.72:1 nominal
- Rocker Arms (P/N 19210724): Aluminum; roller-style
- Rocker Arm Ratio: 1.5:1
- Recommended Fuel: Premium pump
- Ignition Timing: 36° total @ 4,000 rpm
- Maximum Recommended RPM: 5,800
- Balanced: External
- Flexplate (P/N 14088765): 12.750"

INSTALLATION NOTES

- Crate engine kit includes pre-programmed, self-learning control system
- Comes with 12.750" externally balanced, 153-tooth automatic transmission flexplate. Requires externally balanced flywheel for manual transmission
- Not intended for marine applications

EN-0121 Inquire for price

LS3 - 430HP

As the standard engine in the fifth-generation Camaro SS and C6 Corvette, the high-revving, deep-breathing LS3 6.2L is poised to go down in history as one of Chevrolet's best and most versatile engines. It's no surprise that enthusiasts and builders have made it one of the most popular LS swap engines.

The LS3 is filled with components designed for high performance and longevity. The aluminum block is filled with a sturdy reciprocating assembly that combines with L92-type rectangular-port heads to deliver a 10.7:1 compression ratio. A high-lift, hydraulic roller camshaft complements the LS3's tremendous airflow capability and enhances its broad torque curve. Out-of-the-crate Horsepower is 430, with an impressive 425 lb.-ft. torque.

Our LS3 crate engine comes complete from the SS-specific oil pan to the ignition system. It also includes the intake manifold assembly with injectors and throttle body, exhaust manifolds, water pump, balancer, 58x reluctor wheel and 14-inch automatic-transmission flexplate. The SS oil pan doesn't suit all applications. Use the vehicles specific oil pan for original LS-powered vehicles or Chevrolet Performance's Muscle Car Oil Pan Kit P/N 19212593 for older vehicles.

TECH SPECS

- Part Number: 19370416
- Engine Type: LS-Series Gen IV Small-Block V-8
- Displacement (cu in): 376 cu in (6.2L)
- Bore x Stroke (in): 4.065 x 3.622 (103.25 x 92mm)
- Block (P/N 12623967): Cast-aluminum with 6-bolt, cross-bolted main caps
- Crankshaft (P/N 12597569): Nodular iron
- Connecting Rods (P/N 12649190): Powdered metal
- Pistons (P/N 19207287): Hypereutectic aluminum
- Camshaft Type (P/N 12623063): Hydraulic roller
- Valve Lift (in): .551 intake / .522 exhaust
- Camshaft Duration (@ .050 in): 204° intake / 211° exhaust
- Cylinder Heads (P/N 12629063): Aluminum L92-style port; as cast with 68cc chambers
- Valve Size (in): 2.165 intake / 1.590 exhaust
- Compression Ratio: 10.7:1
- Rocker Arms (P/N 12669995 int): Investment-cast, roller trunnion
- Rocker Arms (P/N 12669993 exh): Investment-cast, roller trunnion
- Rocker Arm Ratio: 1.7:1
- Recommended Fuel: Premium pump
- Maximum Recommended rpm: 6,600
- Reluctor Wheel: 58x
- Balanced: Internal

INSTALLATION NOTES

- Assembly does not include any electronics
- Use LS3 Controller Kit, EN-0166 for engine operation. Kit includes electronic throttle pedal, which is required for throttle input to the ECU.
- Includes Chevy SS wet sump oil pan
- Intended for pre-1976 street vehicles or any off-road vehicle
- Not intended for marine applications
- Front-End Accessory Drive Kits are available in several configurations.

EN-0165 Inquire for price

LS3 - 495HP

Our engineers took a production LS3 6.2L (376 cubic inches) and swapped the stock camshaft for the racing-inspired LS Hot Cam (P/N 88958753), which delivered a stunning 495 horsepower and 473 lb.-ft. of torque. That's nearly 14 percent more power and torque from a simple camshaft change!

We wasted no time in adding that terrific combination – dubbed LS376/480 – to our crate engine portfolio. The key to the power boost is the Hot Cam's 0.525-inch lift on both the intake and exhaust sides, along with 219-degree/228-degree duration specs. That's less lift on the intake side than the stock LS3 cam, but considerably more duration, allowing the valves to stay open longer to draw in more air from the rectangular-port L92-style heads.

The crate engine package includes the intake manifold, throttle body and fuel rail, along with the ignition system and exhaust manifolds. Use it with the LS376/480 controller kit P/N 19354330, which includes a special pedal for use with the engine's electronically controlled throttle.

TECH SPECS

- Part Number: 19370411 / 19301358 / 19301358
- Engine Type: LS-Series Gen IV Small-Block V-8
- Displacement (cu in): 376 cu in (6.2L)
- Bore x Stroke (in): 4.065 x 3.622 (103.25 x 92mm)
- Block (P/N 12623967): Cast-aluminum with 6-bolt, cross-bolted main caps
- Crankshaft (P/N 12597569): Nodular iron
- Connecting Rods (P/N 12649190): Powdered metal
- Pistons (P/N 19207287): Hypereutectic aluminum
- Camshaft Type (P/N 88958753): Hydraulic roller
- Valve Lift (in): .525 intake / .525 exhaust
- Camshaft Duration (@ .050 in): 219° intake / 228° exhaust
- Cylinder Heads (P/N 12629063): Aluminum L92-style port; as cast with 68cc chambers
- Valve Size (in): 2.165 intake/ 1.590 exhaust
- Compression Ratio: 10.7:1
- Rocker Arms (P/N 12669995 int): Investment-cast, roller trunnion
- Rocker Arms (P/N 12669993 exh): Investment-cast, roller trunnion
- Rocker Arm Ratio: 1.7:1
- Recommended Fuel: Premium pump
- Maximum Recommended rpm: 6,600
- Reluctor Wheel: 58x
- Balanced: Internal

INSTALLATION NOTES

- Assembly does not include any electronics
- Use LS376/480 Controller Kit, EN-0168 for engine operation. Kit includes electronic throttle pedal, which is required for throttle input to the ECU
- Includes Chevy SS wet sump oil pan
- Intended for pre-1976 street vehicles or any off-road vehicle
- Not intended for marine applications
- Front-End Accessory Drive Kits are available in two configurations.

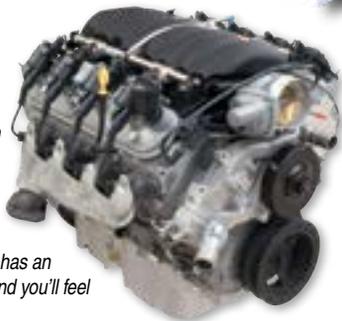

EN-0167 Inquire for price

Crate Engines

LS3 - 525HP

With Chevrolet Performance's aggressive ASA camshaft – developed for the high-rpm world of circle-track racing – installed in the LS3 6.2L engine, it comes alive with 525 uncompromising horsepower. That makes it the most powerful naturally aspirated 6.2L street engine in our portfolio – and one that has an edge to it. You'll notice it in the idle quality and you'll feel it when the revs quickly climb.

The ASA camshaft is a hydraulic roller with .525-inch lift on both sides, along with 226 degrees duration on the intake side and 236 degrees on the exhaust side. Coupled with a tight, 110-degree lobe separation angle, it helps the engine deliver excellent throttle response and breathe exceptionally well at high rpm. And for durability, we complement the cam with higher-rate valve springs.

You'll need tuning to make the most of the engine in a late-model GM vehicle. If you plan to use the engine in a vintage car, you'll need controller kit P/N 19354332, which includes the throttle pedal to match its electronically controlled throttle body.

TECH SPECS

- Part Number: 19301360 / NEW # 19369338
- Engine Type: LS-Series Gen IV Small-Block V-8
- Displacement (cu in): 376 cu in (6.2L)
- Bore x Stroke (in): 4.065 x 3.622 (103.25 x 92mm)
- Block (P/N 12623967): Cast aluminum with 6-bolt, cross-bolted main caps
- Crankshaft (P/N 12597569): Nodular iron
- Connecting Rods (P/N 12607475): Powdered metal
- Pistons (P/N 19207287): Hypereutectic aluminum
- Camshaft Type (P/N 88958770): Hydraulic roller
- Valve Lift (in): 0.525 intake / 0.525 exhaust
- Camshaft Duration (@0.050 in): 226° intake / 236° exhaust
- Cylinder Heads (P/N 12629063): Aluminum L92-style port; as cast with 68cc chambers
- Valve Size (in): 2.165 intake / 1.590 exhaust
- Compression ratio: 10.7:1
- Rocker Arms (P/N 12669995 int): Investment cast, roll trunnion
- Rocker Arms (P/N 12669993 exh): Investment cast, roll trunnion
- Rocker Arm Ratio: 1.7:1
- Recommended Fuel: Premium pump
- Maximum Recommended RPM: 6,600
- Reluctor Wheel: 58x
- Balanced: Internal

INSTALLATION NOTES

- Assembly does not include any electronics
- Use LS376/525 Engine Controller Kit for engine operation, P/N 19354332.
- Includes Chevy SS wet sump oil pan
- Intended for pre-1976 street vehicles or any off-road vehicle
- Not intended for marine applications
- Front-End Accessory Drive Kits are available in several configurations.

Engine Controller Kit

The engine control module is the brain of your Gen III/IV LS- or Gen V LT-powered project vehicle and Chevrolet Performance is your source for controllers designed for easy, "plug-and-play" installation and, in most applications, no need for third-party tuning adjustments.

Unlike controllers from regular-production vehicles, which may or may not come with a used engine, Chevrolet Performance controllers are uniquely calibrated for installation in older vehicles. That means many features required for late-model production vehicles are "turned off" because they're not required in older cars and trucks. That prevents the unnecessary triggering of diagnostic trouble codes that could possibly affect performance or require additional calibration adjustments.

Our inclusive kits deliver all the components required to plug into the engine and get it running – from the controller itself and the accompanying wire harness to the mass airflow sensor, oxygen sensors and even a throttle pedal assembly for engines equipped with an electronic throttle body. The kits also include detailed instructions to help you do it right the first time, even if you have no experience.

Most kits include:

- Two oxygen sensors
- Two oxygen sensor mounting bosses (for installation in the exhaust system)
- A mass airflow meter
- A mass airflow meter mounting boss (for installation in the air intake system)
- A throttle pedal assembly (for use with the electronically operated throttle)
- A specific oil pressure sensor that is compatible with the harness (when needed)
- A complete wiring harness with fuse box and necessary cam sensor and MAP sensor jumpers
- Fuel pump power module for direct injected engines
- Fuel pressure sensor for direct injected engines
- The programmed controller
- An instruction sheet

Truck Cover

Block-It Truck covers are made to last and can help protect your vehicles interior and finish from the sun, dew and pollutants. This unique nonwoven fabric construction is "breathable" to allow the passage of air for quick drying and to reduce heat build-up under the cover to keep your vehicle cooler in hot weather. Block-It Truck covers won't rot, mildew, shrink or stretch and has been treated for extra ultra-violet (UV) resistance. This fabric is not water proof - it is breathable to allow moisture, condensation and heat to escape from under the fabric. It features semi-custom fit, non-scratch grommets, neoprene elastic sewn into the front and rear hems for snug fit, overlapped seams that are double stitched. The cover only takes a few minutes to install and remove. Light duty fabric features 3 layers and heavy duty contains an added layer for a total of 4 layers

Detail Chemicals

- Spray-On Car Wash:** Provides a quick, safe wash without water. It whisks away dust, dirt, and road grime.
 - Spray-On Car Wax:** base wax enhancer that extends the life of your natural waxes and paint sealants.
 - Speed Shine:** maintains your car's lustrous finish between washings. Simply mist it on, gently wipe dry, and buff to a brilliant luster.
 - Rinseless Wash & Wax:** Short on Time? Short on Water? Here's a great way to get a fast-and-easy wash in your garage or driveway without rinsing.
 - Liquid Wax:** Removes minor imperfections, delivers deep, rich gloss, and safeguards your finish with carnauba-based protection.
 - Interior Cleaner:** Quickly and safely clean all interior surfaces and materials from headliner to carpet with minimal fuss.
 - Best of Show Wash & Wax:** Drop a quality wash on your ride and add stout carnauba wax protection to its finish in one easy step.
 - Best of Show Spray Wax:** Doesn't just add color, depth, and clarity, its rich carnauba/polymer formula also creates class-leading paint protection.
 - Best of Show Wax:** Generates incredible color, depth, and clarity. Three factors any concours judge looks for when he's scrutinizing paint.
 - Best of Show Detailer:** Doesn't just safely wipe away dust, fingerprints, and light dirt it also keeps your shine alive between washes.
 - Metal Polish:** Restores your metal's original brightness without scratching.
 - Black Shine Trim Restorer:** Trim looking dull and tired? Have good looking trim and want to keep it that way? Our Black Shine Trim Restorer does it all.

Loctite®

- Freeze & Release:** Freezes seized and rusted bolts, nuts, studs to -45°F (-43°C), creating cracks in the rust layer for the oil to penetrate.
 - Threadlocker Stick - Medium Strength Blue:** Well suited for difficult repairs, as in overhead applications. It can be applied to a part even if assembly is to take place at a later time, making the stick ideal for volume assembly.
 - Anti-Seeze Stick - Copper:** Provides a shield against high temperature seizing and galling, provides a shield against high temperature seizing and galling.
 - Anti-Seeze Stick - Silver:** Heavy-duty, temperature-resistant, petroleum-based lubricant compound fortified with graphite and metallic flake. Will not evaporate or harden in extreme cold or heat. Use during assembly to prevent seizing, galling, and corrosion. For use in assemblies up to 1600°F (871°C).
 - Thread Sealant Stick:** Single component, semi-solid anaerobic pipe sealant compound. The controlled lubricity prevents galling and protects mated threaded areas from rust and corrosion and eases disassembly. Recommended for sealing metal tapered pipe threads and fittings in automotive applications.
